

# The Democrat.

FRIDAY, AUGUST 31, 1888.

SEITE & NUTTING,  
Publishers and Proprietors.  
FRED P. NUTTING, Local Editor.

**THE USUAL NUMBER.**—The usual number of young men from the city and country Monday thought they could beat the frauds and cut throats hanging around the circus at their own games and hence got gloriously taken in. The Walla Walla paper that said there were no cut throats with the circus simply lied. There were, if anything, more than usual, which included several side shows. The manager and performance are good, probably the best ever in Albany, and it is certainly to be regretted that they show such a lot of grasping leeches around them; but the fact that they all travel on the same special train shows that the whole thing is practically under the eye of the city. All these side swindling affairs attract as much attention as anything and often have a longer remembrance in one's mind. Many men would not think they had been to a circus if they didn't have these fellows to patronize.

**THE MR. HOOD CRAZE.**—Most of the adventurous young folks here are afflicted with a mania to reach the summit of Mt. Hood, which heretofore had been regarded as a perilous undertaking. It is understood that within the next few weeks eight parties, numbering seventy-five people in the aggregate, will try to make the trip. The craze is growing so prevalent that it may be expected next season, a party will leave every day. The contagion is spreading among the youth of the city. It is believed that "done the Northwest," without taking in the mountain peak of Oregon—Telegraph. Mr. Henry Conner, now in Albany, who made the ascent to the top, says it is not a perilous one, but a tiresome undertaking. One is considerably rattled when the highest point is reached.

**THIRTY-ONE.**—Saturday was the 31st birthday of Mr. Burr Sloan, one of Albany's best firemen, a member of the celebrated hose team that took Portland and Seattle by storm, and the best shot in Linn county. Saturday evening a large number of Burr's friends, including the hose team and other firemen, tendered him a surprise at the residence of his parents in the First ward, which was one of the most enjoyable affairs of the season. A fine lunch was spread and a good time had generally. A DEMOCRAT man was there at least in spirit, though he was unable to be present in body. The words of many a no-knowledge of being the success of the affair.

**WELL LINED.**—When Mrs. Henry Miller, of Turner, was married about four years ago, she wore a dress made for the occasion by Mrs. Stewart, who at that time had a dressmaking establishment in this city. A few days ago she commenced taking the dress to pieces to remodel it, after the fashion of wamunkind, and while she was thus engaged she found a piece of paper which had been sewed into the lining. She ripped the seams around the paper very carefully and found it was a piece of old newspaper, which must have worked its way in there, in some way or other when the dress was being made.—Statesman.

**THE SUNDAY LAW.**—The five breakers of the Sunday law, who were arrested on Monday, pleaded guilty in Justice Tuttle's court Saturday, and were each fined \$5 and costs. The court took occasion to remark on passing judgment that as the custom of keeping stores open on Sundays was general, and these cases were the first, he would impose the smallest fine, but upon the second offense he would give them the limit.—News.

**MARRIED.**—On Thursday, Aug. 23rd, 1888, at the residence of Hon. M. J. George in Portland, Mr. L. O. Ralston, of Arlington and Miss Ada K. Johns, of Gilliam Co., were united in marriage. The groom is a son of Mr. William Ralston, of this city, and is a young man of great enterprise and push, while the bride is one of Gilliam Co.'s most estimable young ladies. The DEMOCRAT wishes the happy couple a long life full of the happiness they deserve.

**TEACHER'S EXAMINATION.**—The following teachers are in attendance at the public examination now being held in this city: Lulu Munkers, Minnie Watkins, Olive Long, Ida Black, Clara McKeen, Agnes Green, Laura Mattson, Anna Powell, Sarah Swank, Mrs. E. H. Mendelhall, Hattie Archibald, Hattie Long, Mary Johnson, Mrs. Mamie Grisham, Gene Anson, Lizzie McKinney, Maggie Sutton, Bell Chance, Nellie Colby, L. M. Campbell, Ida Spink, J. Shanks, W. W. Hall, J. M. Galloway, G. F. Russell, K. Buff, & S. Calavan, Clyde Knapp.

**LEBANON.**—Mr. Milt Miller came down from Lebanon Monday. He says they are looking for a formal proposition from the California gentleman in reference to the ditch and a paper mill. Mr. Hardy is at work on his telegraph line, and expects to have it in running order in about ten days.

**HOES.**—The hop crop in Linn county this year, in keeping with everything else, is remarkably large. Several raisers have just contracted their crops at 12 1/2 cents to reliable purchasers.

**PROBABLY A CRANK.**—A man in Astoria claims to be John the Baptist. One of the editors there says he has investigated the matter thoroughly, and as a result finds that John the Baptist is dead.

**THE BIGGEST PEACH.**—Capt. Phillips, living near the city raised the largest peach that has appeared this season. It measured 12 inches in circumference.

**THIS WEEK.**—The Board of Equalization is now in session at the Clerk's office. If you have been assessed too much now is the time to act. The assessment roll is made up by Assessor Smith in a neat affair, and is presented to the Board of Equalization earlier than for many years and without any extension of time.

**NOT FOR LINN CO.**—Stephen Minard in Looking Glass threshed last week 700 bushels of oats from 10 acres which was yielded the 13th of April. This is a large yield, and Mr. Minard has just made a new barn on his farm in which to garner his crop.—Roseburg Review.

**A CATALOGUE.**—President Condit of the College, has just handed us a catalogue for 1889. It is nicely gotten up, and shows the present plans of the school in plain language than we can state them. We have heretofore given the faculty in full, a commendable feature of future work is the complete classification of the studies to be pursued, so that students will know just how they stand in the Collegiate department, from which it will take the customary four years to graduate, the years being divided into Freshman, Sophomore, Junior and Senior. The arrangement is one that will be very satisfactory to students. Under it they will pass from the Intermediate department to the Freshman year upon passing the necessary commencement examination. Upon completion of either of the three courses, Classical, Latin Scientific or German Scientific, the degree of B. S. will be conferred. To students who are unable to devote the course in English may be pursued, certificates of graduation being granted, and three years is necessary to complete the course. The preparatory course is in splendid halls, the price of tuition ranges from \$5.50 to \$12.50 per term. The catalogue shows the number of graduates from the College to be thirty-one. The number of students enrolled is ninety-three. There will be three in the Senior class the coming year, to-wit: Misses Helen A. Crawford, William A. Mason, and Ina L. Rabe. The College will thus be in a good condition, it is under splendid management and is displaying a progress in keeping with the growing city in which it is located.

**HIS OPINION.**—The Oregonian in full publishes Judge Deady's opinion in today in the now celebrated Foster case. It covers over four columns and is an exhaustive opinion. The opinion is an interesting document to Albany people who have watched the case with great interest, and should be read in order to obtain an understanding of the matter. Perhaps the most important part of the opinion is the statement of the court in explaining the reason for the court's declaring the transfer of the Foster Block fraudulent: After the mortgage tax law of 1882 went into effect, in July, 1883, Mr. C. H. Stewart, the County Clerk of Linn county, in looking over the record of mortgages for the purpose of making an abstract thereof for the purpose of making a mortgage of many years' standing from Foster to William Crawford on the mill property in question, given to secure the payment of a sum which was then due on the mortgage, and interest, to about \$25,000. He naturally supposed that from the circumstances that it had been transferred and at once wrote to Mr. William Crawford to call and make the proper deed of record. When he returned to the assessor as in force, Mr. Crawford called immediately on July 31st and said the mortgage had been paid several years before he had any knowledge of its being on the books of record, and then and there canceled it.

**YACHTING.**—Col. Parker, of Walla Walla, in writing home to his paper says: "This seaside resort is fast becoming the favorite among the people of the Northwest. There is more variety in scenery, resorts, etc., than any other watering place on the coast, and it has only to become better known to be crowded every season. As it is there are a great many visitors here and each and all declare it is superior to Clatsop or Ilwaco. One thing I like is the utter absence of dirt and filth around the people here. As the Oregon Pacific is now being pushed ahead to connect ultimately with the Chicago & Northwestern railroads it will not be long before the sun-baked denizens of Eastern Oregon, Idaho, Montana and Utah will make this their summer abiding place.

**CROWDING.**—Western Oregon papers generally have done a remarkable amount of crowding over our weather. Here is one even from a Portland paper: "While portions of the East are being swept with hurtful storms doing damage to the unharvested portion of the crop and while England for a month past has had continuous storms, so that their crop is in peril in consequence, we have every reason to be thankful to the clerk of the weather for his beneficence for six weeks past, as our crop is being fast garnered and is already, at least in three-fourths of the field, with no such harvest weather previously for years."

**TO THE FRONT.**—Mr. Chas. Metzger, agent for several railroad contractors informs us that fifty Italians arrived in the city Tuesday afternoon from Spokane Falls, and were immediately taken to the front to work on the Oregon Pacific. By considerable rustling, Mr. Metzger secured fifteen circus men, who also have gone to the front, preferring railroad wages and ten hours a day to thirty-six hour stretches, with only six meals a week, which we understand is sometimes the program with the circus. There are now about 250 white men and 500 Chinamen at work on the extension.

**SURE THINGS.**—An old gentleman from the country was telling us Tuesday how he gave a twenty dollar piece for some change Monday, and although he thought he counted the money carefully, when he looked it over again he was six dollars short. Funny. A young man from the circus, recently married, watched one of the games at the circus until he knew just how it was done, and then when he had a sure thing put up seventy dollars on it. Then he found out it wasn't so very sure after all.

**SUPPOSE.**—Suppose the DEMOCRAT was to put in three out of the way corner a two or three line local to the effect that some particular merchant charged more for his goods than anyone else he would be the maddest man in town, and yet perhaps one of the very class who say it doesn't pay to advertise. Now the truth is, speaking of Albany, there is no better place to buy groceries than at Conn Bros'. Their prices are low and their goods first-class. Those who do not heed this will be the ones to get mad.

**TILOU FACTORY.**—We have been shown some tiling brick manufactured by Tilou & Co., near Albany, which for excellence of quality is rarely equalled. The clay, of which there is a large bed is of a very superior quality. The finished tiling has a ring that speaks for the success of the enterprise. The firm can manufacture 27,000 bricks a day with their machine.

**THE C. H. YARD.**—The grizzly looking grass in the court house yard is being mowed, and it is rumored that water will be introduced, two sprinklers being set to work and the water once a week. The Democrat has many times suggested such a move and hopes it will materialize into a real live fact.

**ON THE OTHER FOOT.**—Our item about a young man named Harris being stood up by a foot pad Sunday night was correct, except the last part of it. Harris was the one who did the striking. Suspecting something wrong he had picked up a stone, and when the man reached for his pockets struck him a hard blow in the face and ran.

**NOVELTIES.**—Mr. William Fortmiller has just received the finest line of center tables ever brought to Albany. They were manufactured in Detroit, and are novel in design, being the latest styles for such tables. If you would save something new under the sun and see these center tables.

**CROOK COUNTY.**—Lou Hodges and wife left on Saturday last week for the Willamette Valley. They will be absent two or three weeks. The market will probably open this fall with wheat at 75c per bushel and oats and barley at 50c. The creek has gone dry in several places and Crooked river is down to low water mark. Water is liable to be in demand if it don't rain before long. The building for the new brewery is assuming proportions and will soon be completed. Mr. Benswanger expects to have it running by the last of next month. Same time since it was thought that there would be enough wheat raised in the county to supply the home market, but since harvest began it is believed there will be a shortage, the grain yielding quite as well as was expected.

Some time since we advertised for a one-hour preacher and got him, but he didn't stay long. Now we would ask for a two-hour preacher, first class dispenser of the gospel who is willing to preach 50 Sundays in the year on a salary made up of promises to pay when times get better. Messrs. Benson and Johnson, of the Prineville river, hauled the first grain of wheat to the Prineville mills this year. It was brought over a week ago. On Monday morning, first class dispense of the gospel in the shade and 12c in the sunlight. On Tuesday it made a grand climb, reaching 10c in the shade, making that day the hottest yet. Each hour since then has been extremely warm, the mercury marking 95 to 98 in the shade. Prineville papers.

**A PECULIAR THREAT.**—Loo McVay, in jail at Corvallis for stabbing his brother has issued the following to Corvallis republicans. We publish it simply on account of its curious nature: "I have worked for the republican party for thirty years and never received a cent. Now I stand in need of a little help. I want some two men to go my bond for two hundred and fifty dollars; or, to get that amount of money I will pay a ten dollar bonus for the use of the money, on the 20th day of November next. Now come up you woolly headed republicans, for if you don't I will vote for Grover, Old Roman, and the woolly horse. That money or bonds here go to come within twenty days from date of this article. Yours respectfully."

**CAN'T IT THEY WOULD.**—The 2nd Regiment Band, of Salem, is somewhat in a pickle. Recently their leader Prof. Coomer resigned and went to Portland, and the boys concluded to quit also; but Adjutant M. W. Hunt, of the 2nd Infantry, O. N. G., declares that the regimental band enlisted last June for three years and has already received \$200 from the state and could not disband. When the boys returned to the young men rather nervous, and they are realizing what it is to work for the government.

**A PHENOMENON.**—Advises from Grant county report that Lake Malheur, a body of water that covers more than seventy-five square miles, and has been without outlet, is rushing through a subterranean passage with a great roar. The noise is so loud and the shrinkage of water so great as to attract much attention. It is said that miles of formerly submerged land is now visible. The lake receives the water of the Blitzen river and never overflows. It is situated on a high level above the shores. It is connected with lake Harney by a shallow channel sixty feet wide and 600 feet long. If the subsidence prove permanent it may then be the Oregon "California" survey some miles further south.—E.

**CROOK COUNTY JUDGESHIP.**—The case of the County Judgeship of Crook county is causing considerable talk. On account of the death of Judge Johns, the case is something like this: Judge Johns was elected County Judge in 1886 in place of a predecessor who resigned, and in 1888, Barnes stood as candidate for the office, claiming that Johns had been elected to fill only an unexpired term, and that his successor should be chosen in 1888. Johns claimed that he was elected for the regular term of four years, and that his term would therefore expire until 1890. Governor Penney says he will investigate the matter and act according to what he believes to be just.

**DEATH OF BRADSHAW.**—Hon. E. C. Bradshaw, of the law firm of Gates & Bradshaw, of The Dalles, died at his residence in that city Tuesday evening of heart disease. Mr. Bradshaw went to that city some years since from McMinnville, where he resided for a long time. He was an old and respected citizen of the State, and had been Senator in the Oregon legislature. His death was very sudden and unexpected, being sick only a few hours. He was aged 61 years, and leaves a widow in The Dalles, and a grown son in McMinnville, who will receive the sympathy of the community in their sad bereavement.—E. Mr. Bradshaw was in Albany several times, and less than a year ago married a Linn county lady.

**WATERLOO.**—For solid enjoyment go to Waterloo, which is now on top. Fine locality, fishing, boating and bathing, and splendid accommodations at J. G. Gross's. His prices are reasonable. Horses fed a lowest possible rate. Mr. Gross will meet the 2 o'clock Linn County train on Mondays and Saturdays. Campers can obtain supplies at Mr. Gross's store.

**SHK WAS HERE.**—The American people are easily gulled, especially when the "guller" uses a sympathetic dodge to deceive the public. The big fat woman with the hand organ ground a good many nickels out of our citizens last Saturday by passing off as a poor blind woman. We are credibly informed that she is not entirely blind, but she has been following this circus for several years and accumulated more wealth than any merchant in Corvallis possesses.—Times.

**SHAM THINGS.**—Mr. William Fortmiller has a fine stock of pillow sham holders, at almost half the customary price. Also a stock of two part mattresses, a new thing, and no sham either, the best arrangement of the season. He has brought on some fine upholstering goods for chairs, lounges, etc. Old things made about as good as new by their use. Call on Mr. Fortmiller for the best furniture generally.

**TOO GOOD.**—On Monday as the circus parade was passing by the DEMOCRAT office, a smart "Aleck" of a young man, seeing one of the showmen driving a span of donkeys, began to imitate that animal by braying loudly. The driver very demurely rebuked that animal of that kind always brayed when they met. It was too good to be lost, and we would feel that we had not done our duty did we not put it in cold type.

**A PHILOMATH WOMAN.**—Last week Mrs. N. B. Davison, of Philomath, sold a twenty acre tract of land, now in the city limits of Tacoma, W. T., for \$700 per acre cash down. Five years ago Mrs. D. could not dispose of this property for \$50 per acre. No improvements have been made in the premises since then.

**A BOOM.**—Wichita, Kan., had a big boom, and it went down—collapsed, judging from the remarks of Mayor Allen at a recent meeting of the city council. He said: "I am in favor of relocating some of the city lights. I see no use for lights on the prairie and in cornfields."

**HEAVY TAX PAYERS.**  
Following is a list of heavy tax-payers in Linn county as compiled from the assessment roll now in the Clerk's office:  
Archibald, S. J. 228,915  
Ammor, Freehold Land Mfg Co. London 10,500  
Barnes, Mrs. O. 8,476  
Brounville Woolen Co. 47,022  
Brown, L. Est. of 12,500  
Bussan, John 14,175  
Batterson, J. R. 11,762  
Ballinger, Francis 11,343  
Cowan, J. L. 29,000  
Crawford, Wm. 16,900  
Crawford, Jno A. 65,862  
Chambers, M. C. 10,041  
Lover, C. C. 23,000  
Conner, John 11,488  
Cooley & Washburn 11,219  
Cochran, W. T. 8,525  
Cochrane, Wm. 17,500  
Coster, B. W. 18,270  
Coppell, M. Est. of 25,480  
Chesdale, E. 15,740  
Crawford, Jno A. 65,862  
Denny, Mrs. O. 13,902  
Dodge, A. 13,052  
Donna, W. B. 8,200  
Dunn, J. C. 12,000  
Dundas Mortgage 62,993  
First National Bank 24,400  
Flinn, L. 10,862  
Foster & Merchants Ins. Co. 8,520  
Fanning, L. 12,000  
Foman, D. 11,750  
Foshy & Mason 10,300  
Gibson, Robert 17,500  
Fields, H. C. 18,500  
Fielding, H. C. 11,844  
Fry, Oliver Sr. 14,088  
Gibson, Wm. 8,527  
Gaines, J. W. 25,415  
Gaines, Wm. 17,349  
Gibson, Wm. 17,500  
Hackleman, W. E. 28,785  
Henrickson, W. E. 8,925  
Hardman, Benj. 9,955  
Smith, Joseph 10,339  
Henderson, Sarah J. 12,500  
Irvine, R. A. 10,907  
Ingram, J. T. 12,740  
McClary, Jas F. 8,200  
Johnson, J. C. 11,998  
Ketchum, W. M. 9,634  
Kirk, W. R. 11,216  
Kirk, Wm. 12,000  
Keeney, Elias 11,759  
Kozitz & Lame 11,000  
Koss, Jacob 80,522  
Koss, Wm. 14,500  
Lang, Jno 8,100  
Laws, C. H. 8,000  
Lombard Investment Co. 10,100  
Mack, J. W. 8,400  
Marshall, A. 8,343  
McConnell, Henson 9,405  
Maty, M. M. 8,150  
McClary, Jas F. 8,200  
McFarland, W. H. 8,400  
Monteth, Walter Est. of 10,236  
McLellan, A. B. 15,032

**AT THE ROSLYN MINES.**  
TACOMA, Aug. 28.—Attorney-Gen. Metcalf came to Tacoma this evening to meet Mr. Sample and go with him to Roslyn to settle the conflicting parties there and assist in a hearing before the court. It is the day for the examination of the negro miners and their Pinkerton guards who have been arrested as trespassers on the land owned by the Roslyn mine, and as the guards and negroes will of course have to lay down their arms when taken to court, it was feared that the Roslyn miners would be liable for entering the fortified mine No. 3, and executing their threat to keep the negroes away. It is at the instance of Manager Buckley that the government has sent a peace officer, Price Muley, and the attorney-general, are going to the scene of contention.

**ALFIERE EMPLOYED.**  
LONDON, Aug. 28.—A dispatch from Tangier says the emperor of Morocco has determined to weak kick and force vengeance upon the rebels who have been fighting and his 200 followers recently. Troops sent against the insurgents have been given license to butcher, ravage and burn. Neither the rebels nor the aged are spared. Women are being outraged and mutilated. The emperor has penetrated the disaffected districts and it is reported that he is surrounded by the rebel insurgents. European powers are being urged to send a fleet to the coast to protect the Christians and Jews in coast towns.

**A BRICKMAN KILLED.**  
PENDLETON, OR., Aug. 28.—Harry Dumphy, a brickman on the mountain division of the O. & N. line, was killed last night near La Grande while working on the work train sent out to clear the track of the last week. It was just leaving La Grande when Dumphy got aboard. After this nothing is known of his fate. It was supposed he was crossing the space between the first and second locomotive and fell off. He was found on the track, horribly mutilated. Both legs and his right arm had been run over and crushed to death before a physician could get there. His internal injuries were the cause of death, which occurred an hour after the accident.

**SALER, OR., Aug. 27.**—Rev. Clark Braden, the noted Christian-Contravertist, now delivering a series of lectures at Silverton, has accepted a challenge issued by the Silverton Secular Union, on behalf of B. F. Underwood of Boston, for a series of theological debates, to take place in Silverton on November 1st. Three hundred dollars will be deposited by each side as a guarantee for the appearance of its champion. The debates are to last eight days. Underwood is a noted Boston freethinker, and is well known to the people of this city. In addition to the appointments made at the M. E. Church South conference heretofore published we are requested to say that Rev. P. A. Moses was appointed to the Brownsville Circuit.

**HARRISBURG.**  
Oliver Hyde and A. Norwood have returned from an extended trip to the Big Bend country, and are wonderfully elated with the prospect and facts of the town of Waterville. They brought some samples of corn, wheat, turnips and all kinds of garden vegetables and cereals. To hear them tell of its advantages and as they were up and become eloquent one almost becomes enthused with the idea of going along with them, as they are to return very soon to their claims to improve these hills, and we meditate over the advantages of old Webster on the enthusiasm die away and we become content.

The indication of rain causes the farmers to seek their abodes in the ranches and causes the streets to become thronged with teams.  
Glad to learn that the accident reported to us yesterday by a stranger coming into town from the west, and which was reported to the thrashing outfit as William Bassett, of Halsey, had lost both arms in the thrasher and could not live as he would no doubt bleed to death before a physician could get there, but on investigation found that it was done to cause a sensation and no doubt was produced by an over dose of "bug juice."

Miss Clara Achery will leave next Friday for the home of her parents in Waterville.  
Glad to see Mrs. Dora Davis on the streets again.  
Mr. Townsend, of the Pacific Ins Co, is taking in the town.  
May & Sanders have sold a lot of white goods, the first of the kind in this city.  
Mrs. R. L. Abby has bought the millinery goods of Mrs. E. E. Davis.  
J. F. McCartney, of this place has gone to Tacoma on a pleasure trip mixed with business.

The new butcher shop seems to be getting a portion of the trade.  
Phelix Eby and family will soon remove to Woodburn.  
We see the silver plating spoon man on our streets again.  
R. A. Rapply is a good horse doctor, as well as an efficient and accommodating bank-keeper.  
How are three threshing machines in one year for one farmer? Can any other farmer equal that in this county?  
Mrs. John Hyde and family, of John Day, Oregon, are visiting in this city, and are doing more work like a girl than a married woman.  
Mrs. W. W. Briggs is still very poorly yet; but we now have hopes of her speedy recovery.  
Mrs. Damon Smith is rustiating out at Medford.  
Prof. J. W. Jewett, assisted by Mrs. Mandenhall, will teach our school again this fall and winter.

**REAL ESTATE SALES.**

**WORTH OF DRIED FRUIT WANTED.**  
And I must have it. Having made contracts with merchants in Eastern Oregon, Washington, Idaho, and Montana, thereby saving commission and adding the same to the price of your fruit. No offer made on fruits unless you are placed in any other branch of the city. If you believe in the doctrine of buying in the cheapest and selling in the highest market and have no conscientious scruples about buying and selling to yourself and family. To satisfy yourself, call on my prices.  
Yours respectfully,  
P. Conner,  
Albany, Or.

New embroidery just received at W F Read's.  
WANTED.—A girl to do general house work. Enquire at Dr Maston's.  
SOME SUMMER ITEMS.—Fresh fruit, such as peaches, plums—and watermelons, at Brownell & Standard's. It pays to get your groceries at Brownell & Standard's.  
You get a five cent ticket with ever 50c's worth of goods bought at Brownell & Standard's.  
WILL BE READY.—E. B. Davidson will be ready for boring and digging wells after the first of September. He is otherwise very busy engaged now.

## TELEGRAPHIC NEWS

**An Australian Baseball Tour.**  
NEW YORK, Aug. 28.—Spaulding of the Chicago baseball team, talks this afternoon of plans for an Australian tour, which are almost perfected. He will take the Chicago team intact; he says will take an "all American" team, with Ward of New York as captain, Fogarty and Wood of Philadelphia, Carroll of Pittsburgh, Hanlon of Detroit, Franman of New York, and others yet to be selected. The club will sail from San Francisco on the steamship Alameda for Honolulu November 15, and will stay one day at Honolulu, and play a game for Kalakaua. It will then touch at Samoa, and then continue to Auckland. The team will play both baseball and cricket in Australia.

**At the Roslyn Mines.**  
TACOMA, Aug. 28.—Attorney-Gen. Metcalf came to Tacoma this evening to meet Mr. Sample and go with him to Roslyn to settle the conflicting parties there and assist in a hearing before the court. It is the day for the examination of the negro miners and their Pinkerton guards who have been arrested as trespassers on the land owned by the Roslyn mine, and as the guards and negroes will of course have to lay down their arms when taken to court, it was feared that the Roslyn miners would be liable for entering the fortified mine No. 3, and executing their threat to keep the negroes away. It is at the instance of Manager Buckley that the government has sent a peace officer, Price Muley, and the attorney-general, are going to the scene of contention.

**ALFIERE EMPLOYED.**  
LONDON, Aug. 28.—A dispatch from Tangier says the emperor of Morocco has determined to weak kick and force vengeance upon the rebels who have been fighting and his 200 followers recently. Troops sent against the insurgents have been given license to butcher, ravage and burn. Neither the rebels nor the aged are spared. Women are being outraged and mutilated. The emperor has penetrated the disaffected districts and it is reported that he is surrounded by the rebel insurgents. European powers are being urged to send a fleet to the coast to protect the Christians and Jews in coast towns.

**A BRICKMAN KILLED.**  
PENDLETON, OR., Aug. 28.—Harry Dumphy, a brickman on the mountain division of the O. & N. line, was killed last night near La Grande while working on the work train sent out to clear the track of the last week. It was just leaving La Grande when Dumphy got aboard. After this nothing is known of his fate. It was supposed he was crossing the space between the first and second locomotive and fell off. He was found on the track, horribly mutilated. Both legs and his right arm had been run over and crushed to death before a physician could get there. His internal injuries were the cause of death, which occurred an hour after the accident.

**SALER, OR., Aug. 27.**—Rev. Clark Braden, the noted Christian-Contravertist, now delivering a series of lectures at Silverton, has accepted a challenge issued by the Silverton Secular Union, on behalf of B. F. Underwood of Boston, for a series of theological debates, to take place in Silverton on November 1st. Three hundred dollars will be deposited by each side as a guarantee for the appearance of its champion. The debates are to last eight days. Underwood is a noted Boston freethinker, and is well known to the people of this city. In addition to the appointments made at the M. E. Church South conference heretofore published we are requested to say that Rev. P. A. Moses was appointed to the Brownsville Circuit.

**HARRISBURG.**  
Oliver Hyde and A. Norwood have returned from an extended trip to the Big Bend country, and are wonderfully elated with the prospect and facts of the town of Waterville. They brought some samples of corn, wheat, turnips and all kinds of garden vegetables and cereals. To hear them tell of its advantages and as they were up and become eloquent one almost becomes enthused with the idea of going along with them, as they are to return very soon to their claims to improve these hills, and we meditate over the advantages of old Webster on the enthusiasm die away and we become content.

The indication of rain causes the farmers to seek their abodes in the ranches and causes the streets to become thronged with teams.  
Glad to learn that the accident reported to us yesterday by a stranger coming into town from the west, and which was reported to the thrashing outfit as William Bassett, of Halsey, had lost both arms in the thrasher and could not live as he would no doubt bleed to death before a physician could get there, but on investigation found that it was done to cause a sensation and no doubt was produced by an over dose of "bug juice."

Miss Clara Achery will leave next Friday for the home of her parents in Waterville.  
Glad to see Mrs. Dora Davis on the streets again.  
Mr. Townsend, of the Pacific Ins Co, is taking in the town.  
May & Sanders have sold a lot of white goods, the first of the kind in this city.  
Mrs. R. L. Abby has bought the millinery goods of Mrs. E. E. Davis.  
J. F. McCartney, of this place has gone to Tacoma on a pleasure trip mixed with business.

The new butcher shop seems to be getting a portion of the trade.  
Phelix Eby and family will soon remove to Woodburn.  
We see the silver plating spoon man on our streets again.  
R. A. Rapply is a good horse doctor, as well as an efficient and accommodating bank-keeper.  
How are three threshing machines in one year for one farmer? Can any other farmer equal that in this county?  
Mrs. John Hyde and family, of John Day, Oregon, are visiting in this city, and are doing more work like a girl than a married woman.  
Mrs. W. W. Briggs is still very poorly yet; but we now have hopes of her speedy recovery.  
Mrs. Damon Smith is rustiating out at Medford.  
Prof. J. W. Jewett, assisted by Mrs. Mandenhall, will teach our school again this fall and winter.
