LOSSES SETTLED.—The losses on the house and barn of Mark Hulburt were adjusted Sept. 12. The Hartfort Insurance Co., in which the house was insured, which is ably represented here by Mr. H F. Merrill was satisfactorily adjusted, as was also the loss on the barn in the Albany company, which was paid at once. Our contemporary says the loss in the Hartford "may be paid." There is not a more reliable insurance company in the world than the Hartford, and the loss has already been adjusted and the money for it is as sure as anything can be. There are no "may bes" about the Hartford. Of course the DEMOCRAT though advises people to insure in our home company; but that company neither expects nor wants to carry all the policies in the county.

HOUSED.—No. 1's new steamer was formally housed on Friday, with very little of the old time enthusiasm, there being only sixteen red shirts in the procession. At No. 2's Hall Mayor Cowan in one of his characteristically pointed speeches turned over the engine to Albany Engine Co. No. 1. Henry Suesens, foreman of that Company, responded in a speech full of feeling. The engine was then taken to No. 1's house and placed on the side of the engine floor until certain fixtures are obtained for operating it. Three hearty cheers were given for the engine and three for the Mayor and Common Council. Albany may congratulate itself on having the best fire department of any city on the Coast of its size.

CALLED.—The DEMOCRAT office acknowledges a call from Mr. McGuire, the *Siftings* man. Mr. M. is a nice looking man; but he has been in most awfully small business when connected with such a sheet, as he undoubtedly was. He claims that he sold out on Friday but the fact is he did not until Monday, and it makes no difference anyway. The man who will run such a dirty sheet is as bad as the correspondents who help to pollute its pages, whether he does the writing himself or not. Mr. McGuire may be a prominent man in East Portland; but the estimation in which he is held in Albany is so small that it would take a microscope of enormous powers to see it.

M. A. T.—There is now a hole in the toes of the shoes on each of the Man About Town's feet caused by contact with high headed nails evenings when electric lights were not near enough to do any good. It is getting so that it is necessary for one to feel one's way along the street nights past protruding nails. A friend advises us to sue the city for the price of the shoes, but we are not long faced enough for that. Hundreds have been having the M. A. T's experience. Speaking of sueing a gentleman says the water from the ditch is widening his sidewalk and he is contemplating an action for damages.

ANOTHER TREAT.—Robert Nourse, of Washington, D. C., whom the best authorities say is the greatest orator in the U. S. to-day, being even ahead of Tallmadge, will lecture in Albany on Friday evening, Sept. 28. It is a privilege for Albany to have such noted men visit us and we should attend in a body. He will be here under the auspices of the W. C. T. U. His lectures are "Dr. Jekyll and Mr. Hyde," "John and Jonathan," and "Kings and Presidents." E. G. Northrup, the manager, was in the city making arrangements for his coming.

200 POUNDS A DAY.—A Lebanon correspondent of a Salem paper says: "Not far from Lebanon, W. R. Cheadle has a splendid dairy, of over fifty blooded cows, from the cream of which he makes 200lbs. of cheese daily. He has 400 acres of pasture and 400 of arable land.... Some thirty miles up the Santiam good bituminous coal has been discovered in large quantities, and it is hoped that the railroad from Albany to Lebanon will be extended far enough to justify the development of the mines."

LOTS OF THEM.—"T. Shattuck, the mellon king, of Josephine county, has shipped 25 car-loads of watermelons to date, and will doubtless ship as many more before the season ends. They go to every part of the Willamette valley where they find an immense sale. Mr Shattuck will use up his surplus, if any, in making syrup. A few more such men of enterprise and push is what the country needs."—Grant's Pass *Courier*.

THEIR HEAVY ONES.—The following Crook county tax payers pay taxes on $10,000 or more: B F Allen, $16,683; Baldwin Sheep & Land Co., $30,000; Castle & Hutchins, $14,789; Castle & Son, $18,760; D W Claypool, $13,125; Wm Foster, $29,435; W H Guilford, $11,730; Heisler Bros., $11,638; A Hackleman, $23,785; T J Logan & Son, $23,165; C C Maling, $10,689; M Sichel & Co., $11,200; W V & C M R Co., $263,611; D M W R Co., $77,037; Prineville L & L S Co., $18,685.

A LITTLE STRIKE.—"A number of the freighting teamsters above Don Smith's on O. P. railroad grading have struck because the price has been reduced from 40 to 35 cents per 100 pounds; and they are forbidden to pass through Queener's land to the depot except when he is on hand to unlock the gate. It is likely things will be arranged by telegraph from headquarters.—Salem *Journal*.

FROM THE BAY.—Hon. Allen Parker, of the Bay, was in the city. Notwithstanding the so called strike by the fishermen Mr. Parker is running about 15 boats right along; but the catch is not large. Of the union men there only about a fifth are fishing any way, as they have no boats or nets of their own. Mr. Parker offered 2 cents a pound, which is as much as he will give.

PARADISE.—If there is any region in the world which ought to boast of a hardy, self-reliant, thoroughly manly and independent race of citizens, it is the State of Oregon, says a correspondent of an Astoria paper, which proceeds to show that Clatsop and Tillamook counties are the paradise of the Pacific Coast. You forgot about Linn county.

AN ALBANY HORSE.—In the 2:40 race Thursday in Portland Dick Flaherty, of this city, won in three straight heats, in 2:32½; 2:30 and 2:34. This horse is owned by Mrs. Charles Barnes, and is developing fast speed. It has a bright future in prospect.

WHISTLES.—The Salem papers give a lively account of the antics of Wm O'Brien, the young man who stole the cutlery of Stewart & Sox, and who is now serving a term in the penitentiary. He spends his time whistling, and only says he wants to see his mother. Poor boy.

DIED.—On Wednesday evening, Sept. 12th, 1888, in this city, the infant son of Mrs. Harry Noel.

HIGHLY COLORED.—The *Leader*, of Corvallis gives the following highly colored account of the arrest of the two Benton county young men charged with robbing Mr. Baldwin, of Peoria. Who the officers were we do not know, nor do we know anything about the truth of the following and suspect it is greatly overdrawn: "A few days ago two young men from Willamette Precinct were at Peoria in Linn county in company with an old gentleman who got too much liquor to know much of what he was about. The next day he swore out a warrant in the Justices Court of Shedd Precinct, on a charge against the two young men, of larceny of his money. The constable and his deputy armed themselves with revolvers and came over to make the arrest. One of the young men was in bed asleep when they arrived late at night. When he was awakened he was looking into the muzzles of two revolvers. Of course he made no resistance, and one of the officers bade the other one hold his pistol on the young man while he himself read the warrant. They waited for the other young man to come, which he presently did in company with his wife. The two valiant officers ordered him to throw up his hands, and he did so while they went through his pockets, taking everything even down to a tooth-pick. The young men had their trial and were discharged, there being no evidence against them. The Shedd officers have the important lesson to learn that an officer has no more right than a private citizen to draw a revolver on a man unnecessarily."

CABLE.—Where a man reads his own writings now-a-days it is customary for wise critics to compare him to Charles Dickens, and some have resorted to this little trick of the trade in speaking of Geo. W. Cable. We never heard Dickens; but have Geo. W. Cable. Mr. Cable is quite a delightful little fellow, forty-four years of age, and recited and narrated from his novel, "Dr. Sevier," last Thursday to an audience of about one hundred and twenty-five. He has a French accent and an expression of his own. For an hour and a half he kept his audience in splendid humor by his story of Dr. Sevier, or rather about some of the characters in that novel. It was a well spent evening, and while the audience was only a fraction as large as it would have been to some barn stormers, it was made up of good material and was an appreciative one. Mr. Cable is more than worth hearing. Right here; if Albany people wish to hear the distinguished men of the world who shall come through this city while making their circuit they will have to turn out. The privilege is a great one, and we should do something to have it. Mr. Cable goes to Albany, Salem and Eugene in the state on his trip from Portland to San Francisco, and it was a favor for him to stop off here. We are liable to be left out if we do not turn out better.

PROBABLY JUST FATE.—A most singular coincidence occurred yesterday says the Pendleton *E. O.* resulting in the fatal sickness of two horses. The animals belonged to Jack Powers, who, with others, was making preparations to depart for the Greenhorn mountains. A mule also had been procured, which was grazing in a pasture near the Farmers' Custom mill. Low Tillard, one of the party, mounted one of Jack Powers' horses to go down and capture his muleship. On arriving at the pasture the animal he was riding fell suddenly to the ground, sick and unable to move. Tillard at once proceeded back to town with the news, and the other horse was mounted and ridden down the river to where its sick comrade lay. On arriving at the spot, it also fell sick in its tracks. What could have caused the peculiar illness of the two horses, which were in a healthy condition before, on the same spot, is something very, very strange. Both animals will probably die.

THE HOUSING.—The committee of arrangements for housing the new steamer, met last night and made out the program for the same, as follows: No. 1's will meet in uniform and at 1 o'clock march to No. 2's hall, where the engine will be formally received from the city. An address will be delivered by Mayor Cowan responded to by Hon. W. R. Bilyeu on the part of the company. Then the department headed by No. 1's with the engine will march to No. 1's hall, which will be neatly decorated for the occasion, and the engine will be formally housed, followed by an exhibition of its work on First street. C. W. Watts, W. H. Warner and Chas. Crowder were appointed a reception committee to attend to visiting firemen. Our citizens should turn out.

INSULTED.—A young man says an Albany night watchman insulted him, and this is the way he did it. The young man was found intoxicated, and placed in charge of another man who took him home. He says the insult consisted in his being placed in charge of a man who could drink more whiskey than he could and after he became sober began to realize the enormity of the treatment he had received.

BLOWN UP.—Last Friday a special train passed through Albany for Yaquina with two Italians on board who had been blown up by a premature explosion. The accident happened on the line of the road near Mehama. The men were blown in the air a short distance receiving serious injuries, one of them being terribly mangled, his eyes being put out, and it is doubted if he can live.

HIGH.—Hams retail for 17½ cents and bacon for 13½ cents, and there is not enough to supply the market at even those figures. There ought to be enough pork raised in Linn county for home consumption.

AN IMMENSE MILKER.—Commissioner G. W. Phillips tells a DEMOCRAT man that he has a cow that gives twelve gallons of milk a day. That would be forty-eight quarts or about 96 pounds. We pause in astonishment at such a record, and Mr. Phillips word is good.

DIFFERENT HERE.—Wheat is now only 64 cents. For the last three days it has dropped a cent at a jump, and seems to be fairly on the downward road. Nearly all the farmers have sold, however, and can stand the decline.—Pendleton *E. O.* Nearly all of them haven't sold here, and do not want any decline.

FOOT RACE.—A 100 yard foot race is to run in Albany, on Sunday, Sept. 23, between Eph Cameron, of Corvallis, and Eoff, of Waldo Hills, Marion county, for $100 a side.

MARRIED.—At Lebanon, on Sept. 9, by D. Andrews, J. P., Mr. Albert H. Pipes and Miss Adelpha Crewse, both of Linn county.

BORN.—In Corvallis, Tuesday, Sept 11th, to the wife of Geo W Waggoner—a boy.

W. C. T. U.—The District W. C. T. U. closed their meetings at Lebanon Thursday evening, after some successful sessions. The following delegates were present: From Albany, Mrs E F Sox, Mrs Henrietta Brown and Mrs Trumbull, Rhoda Hail and Sarah Wheeler; Salem, Mrs R S Wallace; Scio, Mrs Mary C Smith and Mrs Alice Dodd; Oakville, Mrs R A Bamford and Miss R Morgan; Lebanon, Miss Libbie Ambler, Mrs Eaton and Mrs Houck. Wednesday evening an essay written by Mrs Newell, of Salem was read by Mrs Wallace, and an address was delivered by Rev J W Webb, of Salem. Thursday was devoted to business. The following officers were elected for the ensuing year: President, Mrs L E Blain; Secretary, Mrs E E Pentland; Treasurer, Mrs Dr Dodd The following Superintendents were appointed: Scientific Temperance, Mrs Trumbull; Evangelistic Work, Mrs Morgan; Sunday School, Mrs Smith; Music, Miss Hela Gilbert; Narcotics, Mrs Marks; Temperance Literature, Mrs Houck's *Union Signal*, Mrs Gliboney; Sabbath desecration, Mrs Pentland; Young Women; Work, Mrs Helen Osburn; Juvenile Work, Miss Bamford; Parlor meetings, Miss Lou Hatch; Social Purity, Mrs Condon. Different topics were discussed and essays read, Mrs Smith, of Scio, reading one on "Social Purity" and Mrs Dr Dodd on "Scientific Temperance Instruction." A pleasant feature of the meeting was several recitations by Miss Lola Collin.

LEBANON "EXPRESS" ITEMS.—Messrs D. Watkins, Chas. Haner, J. Donaca and others returned from the Santiam mines to Sweet Home a day or two ago. Mr Watkins reports that the company killed in all twenty-eight deer, he and Chas Haner having killed about half that number. There are about seventy-five men on the Santiam hunting, mining and prospecting. Messrs. J. McClure, J. Roscoe and Harris are making wages at their mines....Mr. A. Compton and wife, of Tillamook county, are in town this week visiting friends and seeing about some property they have here for rent. They are old citizens of this place....Mr. Mike Donnolly who was badly hurt in the runaway on Mr. Kees place week before last, is improving fast, and was to be seen on our streets one day this week....Gentry & Rutherford's saloon has been closed by attachment by a Portland liquor firm for the sum of $384. Mr Rutherford informs us that they will probably settle as soon as Mr. Gentry gets back from the mountains.

"F" CO'S. BALL.—The ball given Friday night by "F" Co. on the occasion of the opening of their new armory was probably a little the finest ever given in Albany. Nearly sixty couple were present, a little less than fifty engaging in the grand march, an intricate arrangement successfully lead by Mr. Phillips and Miss Schlosser. The music was furnished by Parson & Brey's celebrated orchestra of Portland, an assurance of its excellency. The hall presented a gala day appearance in its very tasty decoration. Evergreens, flags and bunting were profuse and the walls were hung with paintings and mirrors. Among those present were seven or eight couples from Salem, three or four couples from Corvallis and others from neighboring places; and the spectators' seats were well filled. In the language of some one whose name we have forgotten the ball was "a grand success," and in the matter of an opening ball at least "F" company has done itself proud.

SMALL-POX AT McMINNVILLE.—A second case of small-pox has appeared in McMinnville, and the citizens of that town are greatly disturbed over it, for it seems certain that its spread cannot be prevented. The subject is an eight-year-old son of Frank Bynum, a brother of Charles Bynum, who about a month since caught the dread disease from a stranger, and who is just now convalescent from it. His little nephew had, so far as known, been nowhere near the uncle, but was playing unrestrainedly with companions of his own age until Thursday, when he was taken very ill. A physician was called and he pronounced the case small-pox.—*Statesman*.

WANTS THE WORLD.—It is a noticeable fact that Benton county papers, in which county is located the Agricultural College, and Lane county papers, in which county is located the State University, are courteous enough to let the other schools of the State alone; but at Salem, one of the journals there deems it good policy to cast slurs at the Normal schools of the State, but particularly the one at Monmouth. In view of the fact that Salem has all the State institutions, it would seem that she should be at least contented, but no, she wants more, and if growling and snarling will do any good, we presume she will get the State Normal school, and the Agricultural College.—*West Side*.

IN HIS SLEEP TOO.—A young Australian, near Bochara, after an unusually hard day's work sheep shearing, went to sleep on the sitting room couch after supper. Soon he arose, walked out into the darkness, went through four gates, which he carefully closed, to the woodshed, and then hung up his coat and took down his sheep shears and sharpened them. Then he caught a sheep and had just finished shearing it when some of the household came with a lantern. Then it turned out that he had been asleep all the time, and the light of the lantern awakened him. The sheep was sheared as well as though it had been done in broad daylight.

$30,000 WANTED.—"The line of Hunt's railroad running in this direction is now graded as far as Shutrum's, the advance guard of laborers being camped near that place and is ready for the ties and rails. It is now very close to Pendleton, and a little old $30,000 will bring it to town. The present situation in regard to the railroad is somewhat tantalizing to Pendleton people."—*E. O.* You'd better rustle for the $30,000. You may get left if you think it will go there any way.

EPIDEMIC.—The following is from The Dalles *Times-Mountaineer*, and shows that the public taste for cultivated entertainments is epidemically poor; but after reading our exchanges we notice that Mr. Cable had a much better audience here than in many places: "The attendance at Mr. Cable's reading Monday night was very light, which shows that our people have a keener appreciation for an educated dog than for an educated and billiant gentleman. Our tastes need subsoiling as a foundation for future cultivation."

SOME SUMMER ITEMS.—

Fresh fruit, such as peaches, plums—and watermelons, at Brownell & Stanard's.

It pays to get your groceries at Brownell & Stanard's.

You get a five cent ticket with ever $1's worth of goods bought at Brownell & Stanard's.

IS IT TRUE?

Editors Democrat:

Is it true as alleged by republicans that the Mills bill puts all products of republican states on the free list and maintains the tariff duty on all products in democratic states?

INQUIRER.

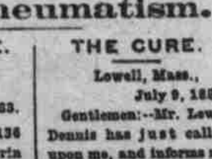
There is not a word of truth in this statement so often made by republicans. Most of those who make the statement are entirely ignorant of what the provisions of the Mills bill are, not one in fifty having ever read the full bill. A brief statement will show what articles are put on the free list. They are as follows: Beeswax, crude glycerine, phosphorus, soap, except fancy, extract of hemlock, indigo, iodine, croton oil, hemp seed and rape seed oil, alums, all imitations of natural mineral waters and all artificial mineral waters, baryta, boracic acid, borate of lime, borax, copper, sulphate of or blue vitriol, sulphate of iron or coperas, crude, carbonate of or fused and caustic potash, chlorate of potash, saltpeter, sulphate of potash, nitrate of soda, sulphate of soda, Glauber's salts, refined sulphur, wood-tar, coal-tar and products of such as naptha, benzine, benzale, dead oil and pitch, all preparations of coal tar, logwood and other dyewoods, spirits of turpentine, ocher, ochery earths, umber and umber earths, sienna and sienna earths, olive oil, salad oil, whale oil, seal oil, cotton seed oil, and neat's foot oil, all barks, beans, berries, balsams, buds, bulbs, bulbous roots, nut-galls, fruits, flowers, grains, gums, herbs, leaves, lichens, mosses, nuts, all earths or clays unmanufactured, opium crude and not adulterated, brick other than fire brick, German looking glass plates made of blown glass and silvered, glass plates or discs-unwrought for use in making optical instruments, spectacles and eye glasses, iron or steel sheets known as tin plates, terne plates and taggers tin, iron and steel cotton ties or hoops for baling purposes not thinner than number twenty wire gauge, antimony, needles except for knitting and sewing machines, quicksilver, chromate of iron, mineral substances in a crude state, timber hewn sawed, squared or sided, lumber, hubs, posts, staves of wood, pickets, palings, laths, shingles, clap boards, pine or spruce, logs, fresh milk, vegetables in their natural state or in salt or brine, chicory root, acorns, dandelion root, cocoa, currants, dates, figs, flax straw, flax not hackled or dressed, tow of flax or hemp, hemp, manila, jute butts, jute, sunn, sisal grass, burlaps, bags of jute for grain, wool, woolen rags, shoddy, bibles, books and pamphlets printed in other than the English language, bristles, broom-corn, feathers, finishing powder, grease, grind-stones, curled hair for beds or mattresses, human hair, garden seeds, beans, peas, osier or willow, rags, rattan and reeds, salt, stone unmanufactured, all strings of gut, tallow, waste, brush wood, sheep-dip, petroleum, amiline oil, olizarine, egg-yelks, meats, game, poultry and soap stocks. This completes the list of articles which are placed on the free list by the Mils bill. As "Inquirer" has doubtless observed, when republicans have made the charge that the bill puts all northern articles on the free list and southern articles on the dutiable list, they always mention wool as an exclusively northern product. Now the truth is this, that wool is not by any means an exclusively northern product as may be seen by any one who will take the census reports of 1880 and figure a little. At that time there were in the sixteen old slave states ten sheep for every twenty inhabitants, and in all the other states there were fourteen to every twenty inhabitants. Since that census the increase of sheep has been much greater in the South than in the North, so that it is safe to say to-day that the South has as many sheep in proportion to her population as the North. People when considering this charge of sectionalism should bear in mind that the South has no protection of any consequence outside of wool, except sugar and rice, while the North receives $50 of the benefits of protection where the South receives but one.

Now, since the full returns of the Maine election have been received and the majority has dwindled down to 18,495, it goes without saying that democrats are more than pleased with the result. At the September election four years ago the republicans had 19,709 majority, so that this election shows a loss to that party of 1214 votes. The democrats increased their vote of four years ago 3038, and the republicans increased theirs only 1824. Now at this same rate of increase in New York the democrats will carry that state next month by 12,000 majority and Indiana by 11,500. The democrats are much encouraged by this result.

David Bennett Hill was renominated Sept. 12th by the democrats of New York for Governor of that state by acclamation and amid great enthusiasm. Eight months ago the DEMOCRAT predicted that Grover and David would make the spanking team that would pull New York into the democratic column this fall. We adhere to the prediction.

ST. JACOBS OIL

TRADE MARK



THE GREAT REMEDY FOR PAIN

For Rheumatism.

THE CRIPPLE.	THE CURE.
Lowell, Mass., Jan. 17, 1883. Mr. Lewis Dennis, 136 Moody St., says: "Orin Robinson, a boy of 12, came to his house in 1881 on crutches, his left knee bent for two months and could not be straightened. He gave him St. Jacobs Oil to rub on it. In six days he had no use for crutches and went home without them." GEO. C. OSGOOD & CO.	Lowell, Mass., July 9, 1887. Gentlemen:—Mr. Lewis Dennis has just called upon me, and informs me that the boy Orin Robinson, who was a poor cripple on crutches, and was cured by St. Jacobs Oil in 1881; the cure has remained permanent. The young man has been and is now at work every day at manual labor; a case certainly which proves the efficacy of St. Jacobs Oil. GEO. C. OSGOOD, M.D.

I propose to have as complete a stock every line as ever brought to Albany, with all the

New Novelties and Latest Styles

and as they are manufactured. All old customers and friends of the house and as well new ones, are cordially invited to call and inspect stock and prices.

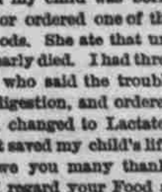
I Do Not Propose Be To Undersold.

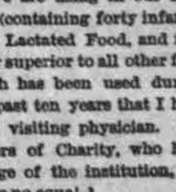
W. F. READ,

Successor to N. H. Allen & Co

57 First Street, Albany, Or.

FARMERS & MERCHANTS INSURANCE CO. OF ALBANY OREGON.





It Saved my Child's Life.

"When my child was born, the doctor ordered one of the other Foods. She ate that until she nearly died. I had three doctors, who said the trouble was Indigestion, and ordered the food changed to Lactated Food. It saved my child's life, and I owe you many thanks for it. I regard your Food as invaluable, and superior to all other artificial food for babies.

MRS. A. J. BENFIELD,
Boston, Mass.
15 Indiana Place.

LACTATED FOOD

150 Meals for $1.00

FOR INFANTS and INVALIDS

THE PHYSICIAN'S FAVORITE.

Possesses many Important Advantages over all other prepared Foods.

BABIES CRY FOR IT. INVALIDS RELISH IT.

Perfectly Nourishes a Baby with or without the addition of milk.

Three Sizes. 25c. 50c. $1.00.

A valuable pamphlet on "The Nutrition of Infants and Invalids," free.

It Has No Equal.

"We are using in our nursery (containing forty infants) your Lactated Food, and find it far superior to all other food which has been used during the past ten years that I have been visiting physician. The Sisters of Charity, who have charge of the institution, say it has no equal."
