HOW ORGANIZED LABOR VOTED. In another column we have shown that the threat of the wool growers of Ohio and California that thousands of votes would be lost to the democrats on account of its tariff views was an idle one, for the republican majority in each of these states was reduced, and we propose now to show which the idea of civil service reform has that the proposal to reduce the tariff had no effect in frightening the intelligent or that all such new-fangled notions have been Court room. ganized laborers of the country. In no city voted out, and there is not the least pretense in the Union is organized labor more intel. in any quarter that the spoils do not belong ligent nor better versed in the economic questions of the day than in Indianapolis, the home of General Harrison. Here the to recall some of the observations made for Councilman and select a member of questions pertaining to the tariff have been four years before on the subject of removdiscussed with great assiduity among labor als from office, to say nothing of the utterpeople. And here, notwithstanding the ances of party platforms meanwhile. But democratic vote which Mr. Harrison re this interest will be rather historical than ceived on the ground of state pride, yet the practical. It is now conceded that the ofmajority which Blaine received in Harri- fices belong to the saints and it must be acson's county, Marion, four years ago was entirely wiped out this year, and Mr. Cleveland carried the county by nearly 400 majority. This same increase in the democratic vote in industrial centers is shown by the election returns all over the country Philadelphia is a very bee-hive of industrial avocations. Labor here, as in Indianapolis, is intelligent, organized and wellgrounded in the economic questions that affect the interests of labor. But what proves to be a puzzle to republican leaders and manufacturers, these people voted largely for Mr. Cleveland and tariff reform, fully vindicated in its cause by the fact so much so that Blaine's majority in that that Harrison, in his own county, where he city of 30,000 four years ago was reduced is best known, runs over 600 behind Biaine this year to 18,000. In New Jersey manufacturing is almost the exclusive occupation of the people, and the great body of the pcople are wage earners. These people, like. is sufficient to prove that had the people of wise, are organized into labor unions in whose meetings all political questions affecting their wellfare are intelligently discussed. Here Cleveland's 4,400 majority of four years ago was raised to 8,000 this year. In all the manufacturing towns of Massachusetts where the great body of the voters are labor people this same increase in the democratic vote is seen. In Lowell, one of the great cotton manufacturing goods direct from the factories in Europe, towns of that state, Blaine's 1075 majority and will sell at wholesale or retail, cheaper of four years ago is reduced to 408 for Har-than any where else on the Pacific Coast, Flour -4.25 per bbl. rison this year. In Lawrence, another cot The following are some of my cash retail ton manufacturing town, Blaine's 241 ma- prices : _ jority is wiped out and Cleveland given 226 majority. In Fall River Blaine's 960 ma- 35 cts. jority is reduced to 49 for Harrison. In Holyoke Blaine's majority four years ago was 50. This year Cleveland has 651 ma jority. Worcester is an iron manufacturing town. Four years ago Blaine had 3429 majority. This year Harrison has 1997. North Brookfield, where boots and shoes are manufactured extensively, gave Blain 84 majerity, and now gives Harrison 21 majority. In Marlboro Blaine had 155 majority, and it now gives Cleveland 140 majority. Woburn gave Cleveland 205 majority in 1884 and this year it gives him 269 majority. And thus we might continue to name town after town where labor people constitute the great body of the people fice where the democrats have made gains, thus showing that generally in all communities where labor is organized, these democrats fared well, while among unorganized labor people they fared badly. The inference to be drawn from all this is, that where labor organizations exist in which, for several years past, the economic and wage probems have been thoroughly and intelligent ly discussed and well understood, there the democratic vote has been increased, while among unorganized laborers among whom pet for 75 cents, and two ply carpets from the same special effort to understand the 40 cents to 50 cents. Carries a large line tariff and labor questions has not been of oil cloths, linoleum and window shades. made, there democrats have lost. While farmers, as a rule, would be most largely benefitted by a reduction of the tariff, they seem slowest to comprehend how they are burdened with unnecessary taxation for the

A Warning.

The modes of death's approach are var probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown as ever shouldered a musket or buckled on a sword. After carefully watching the course of the organization in that state he has deliberately resigned his members hip on account of the partisan character of its work in the late campaign.

There are said to be half a dozen republicans who are patriotically anxious to warm the seat of collector-of customs now so competently and satisfactorially stilled.
