SUGGESTIONS FOR SICKROOMS.

A large, sunny room should be selected for the invalld; if without a carpet so much the better. Sunshine as a disinfectant is worth bushels of chloride of lime. The bed linen should be changed at least once in three days; the blankets once week, those that have been removed beng huag in the open air for a few hours, then thoroughly aired in a warm room. The room should be kept thoroughly rentilated and at a temperature not lower than 68 nor higher than 70 degrees. If the patient is kept warmair may be freely ad-

mitted without the least danger. The carpet of a sickroom should be lightly brushed once a day with a wetted broom. The furniture and wood work should be wiped with a damp cloth. Dry dusters and feather brushes are worse than

The cross sheet should invariable be kept free from crumbs and wrinkles, as

A sheet folded once lengthwise, laid across the bed, with the upper edge just touching the pillows and the ends tightly to add greatly to the patient's comfort. It does not wrihkle like a single sheet, and of remoring more people to health and crumbs may be readily brushed off it. The nurse's dress should invariably be neat, tasteful and pretty. Slippers or boots

smoothing the bed, pestering the patien with sympathy and saying a dozen times an hour, "How do you feel now?" is enough to drive a sick man wild. Mea's for invalids should look as tempting as possible. The tray should be cov-

disgusted by a display of too much food, and should not be consuited beforehand as In bathing the invalid, never uncover too large a surface at once. Pin a blanket ound the shoulders, fastening it behind, and remove the night dress under that.Put the hand under toe blanket and sponge the skin, a small portion at a time, A woshe is able to bear the fatigue.
