

VOL. XXV.

ALBANY, OREGON, FRIDAY, AUGUST 30, 1889

NO 5

The Favorite

Medicine for Throat and Lung Difficulties has long been, and still is, Ayer's Cherry Pectoral. It cures Croup, Whooping Cough, Bronchitis, and Asthma; soothes irritation of the Larynx and Fauces; strengthens the Lung Organs; allays soreness of the Throat; prevents Consumption, and, even in advanced stages of that disease, relieves Coughing and induces sleep. There is no other preparation for diseases of the throat and lungs to be compared with this remedy.

Cough Medicine

To every one afflicted, - Robert Horton, Foreman, Houghton, Morrilton, Ark. "I have been afflicted with asthma for forty years. Last spring I was taken with a violent cough, which threatened to terminate my days. Every one pronounced me in consumption. I determined to try Ayer's Cherry Pectoral. Its effects were magical. I was immediately relieved and continued to improve until entirely recovered." - Joel Dillard, Guilford, Conn.

Ayer's Cherry Pectoral

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price 25¢ a bottle, \$5.

HOW TO GO EAST.

Go East via Mount Shasta Route. Nice climate and scenery all the way. See Mount Shasta, Sacramento, Ogden, Salt Lake, Denver. Finest meals - first class cars made up daily. Buy your tickets of us and save your fare to Portland. In the only year in Albany that can sell you a ticket to any point in the United States. Call on us for rates. W. L. JEFFREY, Agent S. P.

Julius Gradwohl's Golden Rule Bazaar. His stock has been enlarged so that it equals any on the Coast, and consists of Roger Bros. Silverware, French Chairs and Crystals, Boys' Wagons, Doll Carriages, Fancy Goods, and a general assortment of Groceries and Toys.

A New Grocery Discovered

FRESH GROCERIES CANNED GOODS, DRIED FRUITS, ETC. Produce Taken in Exchange, Very Respectfully, BAEDUF & ROBERTSON.

Fortmiller & Irving. FURNERAL DIRECTORS. Prompt Attention-First-class Hearse

LOCAL RECORD.

A PATIENT.-The Salem Statesman writes to get even with us on a hospital patient article in the Albany Democrat. It is very evident that if that city had a hospital built now it would have one patient immediately, for the writer is presumably "under the weather." Copying the Statesman's hospital item, the Democrat has copied the above has since passed through Albany for Newport in an exhausted condition.

A MARVEL

One of the most remarkable sights the DEMOCRAT has ever seen is a branch of plums, taken from a tree at the nursery of H. W. Settleman near Tangent, on an exhibition at Curran & Monticelli's. Larger than a large bunch of bananas, forming a bunch that is a marvel to look at. One can hardly conceive of a fruit, fruit growing so prolifically.

A TROUBLED TRIP

Wednesday morning a plowing of a stranger was seen to take a plow from a box in the front part of Julius Joseph's store; but nothing was said about it. In the evening he tried the scheme again, lading the plow inside of a shirt. He was reported to Policeman Miller, who arrested him, and found the contents of the box in the trunk of a horse before Justice Humphrey resulted in his being held under \$100 bonds to await the action of the grand jury.

THRESHING

Mr. Denver Hackleman finishes his seasons threshing to night with a record of about 6000 bushels threshed. He is quite enthusiastic over the size of the crop; but Mr. Hackleman had the advantage of a very fertile belt not enjoyed by many threshing crews. Threshing is about over generally, and when will the farmers sell their wheat, that is a great question.

SURPRISED

A man who recently came to Oregon from Michigan, brought tents, firearms and provisions, prepared to rough it in the wilderness, which he expected to find. Also two sacks of flour in order to have something to eat, besides the fish he expected to snare and the wild meat captured in the wilderness. He was surprised to find plug hats and a civilization rapidly superior to the one he left. He at least came to a state where the people know something about the country they live in.

A GOOD SALE

F. C. Madison, a banker of Sutton, Nebraska, and J. B. Frederick, a merchant of the same place, to-day secured of Wm. H. Phelps and W. F. Seaver sixteen acres of the Jos. Thompson tract east of Salem. The consideration was \$5000, or \$125 per acre. This was a good sale and only goes to show that Salem is on a good healthy move.

A DOG CART TRIP

District Attorney Hewitt left to-day by dog cart conveyance, for Tillamook, Tillamook county, where his services will be required in the Circuit court that convenes Monday. He will go over the line of the Albany & Astoria Railroad. It takes about three days to go each way and the court remains in session about three days, and convenes one year.

NEWPORT

Rev. Mr. Rogers, of this city, says he has found a perfect description of Newport in the Bible. It is in the 7th chapter and 4th verse of Nehemiah and reads: "And the city was large and great and the people were few therein; and I but was not builded." The humor he holds is exquisite.

EXAGGERATED

Editor Aldridge, of the Princeton News has been in the city on his way to the Editorial Association meeting at the Fair. He informs the Democrat that the item in several Valley papers that wheat is \$2.50 a bushel in Princeton, is entirely erroneous. The price is only \$1.60 to \$1.25.

AN INDUSTRIALITY CASE

A Democrat man happening in at Fortmiller & Irving's saw one of the indestructible burial caskets, which are attracting so much attention. Not only is the casket indestructible, being made of cement with a galvanized woven steel wire frame inside of the cement, and arranged for cooling with its flush outside in a very handsome piece of work. The general use of these caskets will obviate the objection to a close residence to cemeteries on sanitary grounds. The body remains intact and the casket is so safe that it can be placed in vaults as well as in the ground. This casket will fill a long felt demand. Fortmiller & Irving have been appointed agents here for this casket.

AFTER TIMBER LAND

A party of about 30 men from Willamette came up to Ashland last week and went out to the Dead Indian country to search for timber land and say the Tidings. Parties in that area that they investigated all the vacant timber and had concluded to take claims in the fine belt of timber between Deadwood and Lost Prairie. Members of the party took a box in the front part of Julius Joseph's store; but nothing was said about it. In the evening he tried the scheme again, lading the plow inside of a shirt. He was reported to Policeman Miller, who arrested him, and found the contents of the box in the trunk of a horse before Justice Humphrey resulted in his being held under \$100 bonds to await the action of the grand jury.

C. P.

The Chinese peasants of Lin county are falling like wheat before the binder. No bones is made of the matter of shooting them at. City and county ninjas bag them daily and the universal verdict is that there is no better eating in the animal kingdom. Recently a Junction City man killed three in the mountains. The only arrow the Democrat has heard of is that of a young man named Back at Halsey, at the instance of Farmer Collins' The next Monday.

TWO MUCH FOR ALBANY

Gilmer's great New York band of seventy-two members and twenty-two soloists including the great cornet players, B. C. Bent and Chas. Pett, a number of vocal artists and Gilmer's Battery of Artillery, composing the finest light cannon ever manufactured compose Gilmer's Great Band, is soon to visit Oregon. They travel in a special train of four cars. The sum of \$1000 is required to have the band perform in a town.

RESTLING WOMEN

Mrs. Rev. Rook, of Salem, and Mrs. Hall, of Boston were in Albany Friday on their way from Portland to the Seminary, where each located a lumber claim. They had a small dog with them for protection. They secured a couple fine claims and anticipate good results from the investment. Women can do something in this world if they will only get in and hustle, and when they hustle they are always more bustle than with men.

DON'T BE UNKIND

The News as well as the Review, as the latter also. Here it is: "We have been led to believe that the Oregon Pacific would be finished to the summit of the Cascade mountains this year. It is not. It is not. The truth about this thing has not been told, hence the devil has not been put to shame. Something is wrong and we don't know what it is. Keep your eyes unswervingly on the road, and you will not be misled. The steam horse will go plowing through Crook county ere you know it, but it takes time."

NEVER FAILS

The Oregonian says, drummers who have returned from up the Willamette valley report having done a better business than for years. Crops are good throughout the valley, and consequently money is plenty and everybody is prosperous and happy, and dealers are looking forward to a large volume of business. Merchants here expect to have to carry many of their customers in Eastern Oregon and Washington till a more prosperous year.

A SPECIAL MEETING

Last week a special meeting of the City Council was held for the purpose of taking action on the petition of Fred Plumber for the privilege of erecting a partial frame building joining his brick just erected. Present, Mayor, Recorder, Marshal and all four aldermen. After a warm debate the petition was granted with the restriction that the building have a tin roof, and that the brick be of a certain quality. Should the vein hold out there is a fortune in such a mine as this. -Salem Journal.

FINE WORK

An instrument cabinet has just been placed in the very tasteful and neat office of Dr. Ellis. It is the work of Mr. O. J. Dillon, of this city, of solid oak about seven feet tall, and is one of the finest pieces of work ever executed in Albany, comparing most favorably with the best cabinets manufactured in the East. The fact that Albany has men who can do such work is a credit to the city, and should lead citizens from ever sending away for fine cabinet work.

EDITORIAL CORRESPONDENCE.

NEWPORT, Aug. 23rd, 1889. The following is the list of newspaper people who came in on yesterday evening's train: J. L. Campbell, Eugene Gazette; H. Y. Kirkpatrick, Miss Kirkpatrick, Lebanon Express; Frank Davis, Misses Gonsle (Clatsop), May Baker, Nellie Howard, Salem Statesman; Charles Nickel, Jacksonville Times; Frank Book, Lakeview Examiner; C. C. Doughty, Miss Butler, Dallas Observer; J. B. Eddy, Pendleton Tribune; J. P. Wager, Mrs. Wager, Pendleton E. Oregonian; S. F. Flood, J. R. N. Bell, Roseburg Review; T. J. Siles, Albany Democrat; S. S. Train, Miss Whitney, Albany Herald; E. S. Peuland, Independence West Side; M. L. Pipes, Corvallis Leader.

THE ASSOCIATION MEETS TO DAY

The association meets to day at 10 o'clock at the Hotel. The program of entertainment is laid out by the committee of entertainment such as an excursion to Seal Rock, being held, warm, sunny and bright. The visiting newspaper people are all housed at the Ocean House. The weather just now is a thing of beauty and a joy to be longed for, warm, sunny and bright. There are many people here yet for this season, but not half so many as two weeks ago.

THIS MORNING AT 8 O'CLOCK

The members of the Press Association congregated at the wharf of the Rebera and took passage to Seal Rock, where they were met by Captain J. S. Polhemus in charge of the government launch, who by special arrangement had invited all on board his train of construction cars and taken out to the end of the jetty, where all were given time to examine into the important improvements going on here to build up the commerce of Western Oregon. Then we returned to the wreck of the ill-starred steamer, "Yacquina Bay." Many of the more venturesome ladies and gentlemen boarded the launch and went over to Seal Rock. Returning we took passage on the ferry boat and returned to Newport and repaired to Titman's Hall, the place appointed for the meeting of the association.

MR. BELL, THE PRESIDENT

in his most suave manner, called the body to order and proceeded to address the assembly. Much routine business was transacted before the meeting of committees, etc. Many new names were added to the roll, and upon the whole the meeting so far is regarded as a success. The following officers were elected this afternoon for the ensuing year: President, Chas. Nickel, Jacksonville Times; Vice-President, E. C. Pentland, Independence West Side; 1st Vice-President, J. B. Eddy, Pendleton Tribune; 2nd Vice-President, T. J. Siles, Albany Democrat; 3rd Vice-President, O. P. Mason, Pacific; 4th Vice-President, J. L. Campbell, Eugene Gazette; 5th Vice-President, J. R. N. Bell, Roseburg Review; Treasurer, S. S. Train, Albany Herald; Secretary, Ed. Arms, Ed. Casey.

IT WAS DECIDED

to hold the next session of the association at Portland on the second Thursday and Friday in August. The committee on Resolutions reported a scale for the protection of Oregon wool, which was discussed at considerable length, amended and adopted. This evening a notice was given in the evening of the association by citizens at Titman's Hall and at the Ocean House a collection is to be spread. To-morrow morning at 8 o'clock a trip to Seal Rock has been planned. Eight or ten teams have been engaged. In the evening the members of the association are invited to a social and a musical time is looked for. The people of the Bay use every endeavor to make the time a pleasant one to the newspaper people and their lively interest is very duly appreciated.

SOME STYLE

There are no flares on the Albany fire department, to use a classical expression imported from Athens. Not only is it remarkably efficient; but when it comes to fighting fires; but as the members believe in a reasonable amount of outside style. The Chief Engineer wears a handsome \$25 gold badge, the exempts are provided with handsome badges, regular members also have fancy Company badges. Now come the members of the Board of Fire Delegates and present themselves with some remarkably pretty gold badges, costing over \$5 apiece. This office has not heretofore been sought; but heretofore the contest for membership has been keen and it will be very warm. All these things go to show Albany's prosperity and are fitting examples on the part of the leading city in the Valley.

SHOULD VACATE

An Albany man has handed us the following for publication, thinking it rather of a peculiar affair: "Rev. Frederick Mayer, pastor of the Evangelical Church, at Lansing, Mich., is a liberal-minded gentleman, but his congregation is shocked to hear that he had been investing in lottery tickets, and dumb founded when they learned he had bagged \$5000 in a recent drawing. Rev. Mayer is about 27 years old and well educated. He says he bought the ticket just as he would get married or take any other hazardous step and he was overwhelmed with success. He declares that he can see nothing sinful in acquiring money in this way and he will continue to do so until he has made a suitable investment. On the other hand, the church society sees considerable harm in the transaction and is likely to be an early vacator in the pulpit."

BETTER GO

The Lebanon hostess is still making efforts to go to the tournament at Toocoma. If they can organize the team it will be the best in the valley. The Lebanon team is a very strong one. The Lebanon team is a very strong one. The Lebanon team is a very strong one.

EVERY SALER KICKS

Salem is heartily displeased with the manner in which the Legislature illustrated the Capital City in his West Shore for August. Heretofore his illustrations of Salem have been satisfactory, the work having been executed in an artistic and tasteful manner. The Legislature, however, has failed to do so. The Legislature, however, has failed to do so.

DOES PROTECTION PAY?

The following article was written by a former Lin county boy, but who now lives in Michigan. He keeps his head very level, notwithstanding his ill-fated career in leaving so fine a country as Oregon to go to live in Michigan: "Of late we are favored by protection papers with such squibs as the following: 'With wool bringing from five to eight cents per pound more than last year, the farmers should be convinced that the protective policy favors the interests of the farmer. Does that prove it? Simply because wool is five cents higher than last year it convinces an ordinary protective tariff system is right and favors the farmer's interests.' This is the kind of logic that has fastened the injudicious system upon this country. Taking it for granted for the sake of argument that it did make the price of wool higher, would it not follow as a logical sequence that the price of the 4000 other protected articles which the farmer is compelled to buy is made higher for the same reason? The ordinary farmer, therefore, who has \$500 head of sheep and receives 300 lbs. of wool, according to this logic, receives \$15 more for his wool than he would if he did not do it as a protective tariff man. This privilege he must pay an advanced price on the sugar, which has recently been advanced about 6 cents a pound, on rice, salt, iron, dry goods, which would double the cost of his wool from \$50 to \$75 a year. Under the most eminent statisticians place the sum paid by an ordinary farmer, with a family of three children, at \$18 per year, paid by him by way of protective tariff taxes. Just what proportion of this tax goes into the U. S. treasury it may be difficult to ascertain, but if we conceive that one half goes there while the other half goes toward assisting the manufacturing interest, we find that the amount paid out by the average farmer on account of the protective tariff is four times as much as that received by him. If that is true then where does the benefit to the farmer come in? Paying out more from \$60 to \$75 to get \$15 is not a very profitable transaction to any one unless it be a protective tariff man.

CONCILING THEM

That the tariff increases the price of wool, the small farmer only decreases the amount of which he is being robbed by the amount of the increase in the price of wool. That is all he gains by it. It would be far better for him to stop the whole system of robbery than to understand any such fine fighting system as that. Because he asks more than the real value of the article, as regulated by the law of supply and demand, the manufacturer can refuse to buy, and thus reduce the price whenever they choose. They are generous enough to allow the farmer this small increase, when under the same system they are able to make the farmer pay for all back again upon the woolen goods he is compelled to buy.

THIS MAY BE SEEN

by the following table showing the difference in the tariff on wool and woolen goods for the periods named, taken from the report of the Chief of Bureau statistics: Per cent. 1876, duty on wool, 50.49, woolens, 72.44; 1880 " " " 50.25 " 72.99; 1883 " " " 37.35 " 68.49; 1886 " " " 37.35 " 68.49. The above shows that if there is any advantage in protection the farmer who sells the wool receives but little over half the amount that the manufacturer does and is compelled to pay the latter for manufacturing the wool raised by himself. That is, in 1886 he sold the wool at an advance of 37.16 per cent, and bought it back again in the form of woolen goods at an increased price to him of 67.29 per cent. If the farmer desires any clearer proof of this system of legal robbery, then I do not know where he would get it.

MUCH HAS BEEN SAID

of the wool tariff being low on account of the threatened tariff legislation. Is it for that reason that Mr. Carnegie reduced the wages of his 1000 workmen, a few days ago 25 per cent? Can the condition of the starving coal miners in Illinois be attributed to the same cause? Did that cause potatoes to sell at 15 cents a bushel last spring?

THE FRANTIC EFFORTS

of protectionists to secure the vote of the farmers in order to keep the shackles of slavery upon the masses of the people of this country should not succeed. Let them investigate these questions for themselves and they will find that truth is on the side of freedom, and that "Protection" is a disguised system of legalized slavery under which the working people of this country are being robbed for the benefit of a few corporations, made up of persons who have no sympathy for the oppressed.

OWASSO, July 27th, 1889.

TAKE THE NEWSPAPER.

The Albany New York Journal, of recent date contained the following: A workman in this city who was complaining of hard times recently was asked how he could afford to take a daily paper. "Well," said he, "I hope I shall never be too poor to take a paper. I thought I was too poor for ten years after I was married. My wife suggested that I take a paper regularly, and it was the most economical stroke of my life. It kept me home evenings, afforded me pleasure and instruction and was a comfort to the whole family. I had to stop the use of tobacco for a whole year once in order to pay for the paper and the result was that I have not cared for tobacco since, and that one item I have saved money in to pay for several daily papers. So long as I have money enough to buy bread with I will have money enough to pay for my newspaper."

THIS IS ONE THING

that people have got to learn, and the sooner they begin the better and that is not to handle electric wires. Like the statute laws, ignorance causes no one to be hurt, and it is the most economical stroke of my life. It kept me home evenings, afforded me pleasure and instruction and was a comfort to the whole family. I had to stop the use of tobacco for a whole year once in order to pay for the paper and the result was that I have not cared for tobacco since, and that one item I have saved money in to pay for several daily papers. So long as I have money enough to buy bread with I will have money enough to pay for my newspaper."

THE TABLES

of the wool manufacturers evidently believe that the Republican platform meant what it said, and they propose to get all the benefit from the tariff that is possible. A large class were included in the highly protective works in Pennsylvania, Ohio and West Virginia, is reported as among the latest combinations which result from the assurance that the policy of war taxes in time of peace is to be maintained. Such protection comes high but if the people like it, there is no doubt they can be accommodated.

WOOD SAWING

Wood sawed on short notice, anywhere in the city. Regular prices. Orders left at Brown & Standard's will be promptly attended to. GEO. H. WARREN.

TEMPERANCE COLUMN.

Edited by Albany W. C. T. U. Miss Henrietta Moore will begin a tour of the state early in Sept. with a view to organizing new missions. Mrs. Riggs, our state president has just completed a tour of Southern Or., having organized four W. C. T. U's, and two "S's."

MARY ALLEN

Wife of Allen, wife of the Union Signal, is now in Portland, where she will hold a school of 100 girls. It is the intention of the union to have her in Albany before she leaves the state. The date of her coming is not yet definitely known.

THE CATHOLIC TOTAL ABSTINENCE SOCIETY

at its recent annual meeting, took a step in advance of anything yet done by Protestants. It agreed to establish in connection with the great Cathedral University at Washington D. C. a Father Mather Professorship of Temperance. In this will be taught the scientific facts concerning the use of stimulants and narcotics.

THE GRAPE GROWERS ASSOCIATION

and a number of capitalists of California have been trying to get at the bottom of the depression in the wine market and to devise plans for relieving that industry. The following plan was the result of their deliberations. It was agreed to distill the surplus wine in a good uniform brandy and to organize a company with a capital stock of \$1,000,000, divided into 10,000 shares of \$100 each. One thousand shares were subscribed for at the meeting. The company is to be known as the California Brandy Union. Distilleries will be leased and constructed in those parts of the state where cheap grapes and vines are found in excess. A central bonded warehouse will be established in San Francisco. Agencies will be located in all the large Eastern cities, and in Hamburg and London. Of this year's surplus the company will buy 2,500,000 gallons, which it will distill into 500,000 gallons of brandy.

A REPRESENTATIVE OF A PROMINENT PROHIBITION JURY

was sent into Kansas to learn the prospects of a re submission and repeal of their prohibitory law. He sought J. L. Waters, famous of old as the attorney of Topeka saloon keepers and asked: "What is the outlook for re submission?" The converted lawyer answered: "We have enough Sunday schools, women, preachers, and men who tie in farm wagons without springs to retain prohibition in Kansas and make it fairly a success. It is to back the inevitable and kick against impossibilities to try to get it changed. If the people of Kansas, especially of Topeka, know what they are about in the face of the state where cheap grapes and vines are found in excess. A central bonded warehouse will be established in San Francisco. Agencies will be located in all the large Eastern cities, and in Hamburg and London. Of this year's surplus the company will buy 2,500,000 gallons, which it will distill into 500,000 gallons of brandy.

Z. T. WRIGHT,

Foot of Morrison St., Portland, Or. -AGENT FOR- The Advance Threshing Machinery. The best and fastest thrasher in America, and a machine that stands without a rival. It has been replaced by no other machine on the Coast, but has replaced several others that HAVE FAILED to do it. ALL WARRANTED. THE ENGINE IS GUARANTEED to pull more than any other, and will outlast all others on the road. If you hear any loud boasts, please tell the man that says so. THE ADVANCE THRESHERS and ENGINES are sold on their merits and are not sold on the basis of any other. I am willing to prove all I claim in any field at any time. I will handle any kind of machinery, and I will handle any kind of machinery, and I will handle any kind of machinery.
