STITES & NUTTING.
Editors and Proprietors.

FAMOUS HANK.—Hank Vaughn, well known all over the Northwest, was nearly killed in a horse round up on the Umatilla reservation yesterday. His leg was broken, also half a dozen ribs and he was injured internally. He is at Pendleton and will probably die.—Portland Ex.

His physician reports that Hank Vaughn is doing as well as could be expected. Both bones of his leg below the knee were broken squarely in two. The fracture was reduced, and it is probable that Hank will soon be out and about again unless he is injured internally. He is the victim of hard luck, of gun shot wounds and accidents, but has always pulled through, and will doubtless do so this time.—E. O.

IF Astoria can raise $100,000 in one day for a railroad to the Willamette valley, why can't Salem raise half that sum for a railroad to deep water?

It did once raise $20,000 in capital stock in several days, and hence the question is a very pertinent one, one that will take deep thought and much investigation to answer; but in answering such questions nowadays it is well to remember that Salem already has a good road, while Astoria, years behind the times, has none, and hence there is a terrific inducement for rustling.

DIFFERENT CUSTOMS.—In Astoria the papers charge regular rates for giving notice of meetings, such as those of pioneer and historical societies, etc., so anxious are they to get wealthy. In Albany all these things are done free and the editors are often expected to help foot the incidental bills. As a newspapers columns are its stock in trade there are sometimes that should be paid for, such as stereotyped memorials, cards of thanks, etc., and perhaps the Astoria style is all right, but it would cause a stir here.

AN INDEPENDENT'S TICKET.— The Stayton Sun, "The only paper in the upper Santiam," comes out with the following ticket, which is any excellent one so far as govenor, state treasurer and supreme judge is concerned:

Govenor, Sylvester Pennoyer; Secretary of State, Geo W McBride; State Treasurer, G W Webb; Supt Public Instruction, T C Jory; State Printer, F C Baker; Judge Supreme court, T F Bonham; For Congress, Maj J A Bruce. It says: "Our ticket, found in this issue, contains several republican names, but you won't find D P Thompson's.

MINING MATTERS.—Mr E J McCausland is home from his trip to California, where he had been in the interest of the Dry Gulch Mining company, looking into different systems of hydraulic and other mining. He reports mining there as being very quiet, but secured some pointers which will no doubt be of value to the Santiam mines. He will go to the mines in a few days, when active operations will begin.

THE YOUNGEST FIRST MATE.—Mr Donahanan, the night operator of the Western Union telegraph office in this city, has just returned from a trip to Coos bay. He reports having made the acquaintance while there of the youngest first mate of a vessel ever yet known. The individual is Geo Graham, aged eleven years, who fills the position on the schooner "Juno," which plies between Scottsburg, on the Umpqa river, and Coos bay.—Statesman

A PRETTY THOUGHT.—The other evening the long eared reporter for this paper, just as the glorious King of Day was going down like a ball of fire through the firs that stand as sentinels on the crest of the hills back of town, heard a little girl say to a playmate, "Let's bid good-bye to the sun and tell him to say good morning to the people in China." Rather a pretty thought for a mere child.—Portland Welcome.

RIGHT TO THE POINT.—The council at its meeting ordered an ordinance drawn providing for the fining of minors who simply enter a saloon. This is taking the bull directly by the horns and will do more to keep liquor away from minors than any provision that could be made. The move is a good one and the ordinance will undoubtedly pass at the next meeting.

THE WATCH FOUND.—A few days ago the DEMOCRAT mentioned the stealing of a watch from Mr J K Hisey, at the Russ House. The matter was placed in the hands of detectives, resulting in the finding of the watch in a Portland second hand store. The identity of the thief was pretty well established and it was thought he would be captured within a day or two.

No resolution has yet been adopted offering to turn over the Evangelical churches in this conference to Lord Woolsey Bowman—and never will be.

The above is from the Salem Journal, and a long account of an anti-Bowman mass meeting there shows that most Salem people, as well as the Journal, are decidedly anti-Bowman.

COME HERE.—The unmarried women of Massachusetts have $29,000,000 on deposit in the savings banks of their state, says the Boston Woman's Journal. An Albany young man, who has been watching for something of the kind, says he will marry the whole crowd if they will come to Albany.

BOARD OF TRADE MEETING.—A special meeting of the Board of Trade was held Saturday evening pursuant to an announcement in the DEMOCRAT. The matters of propositions for a starch factory and a tannery were considered and the Secretary was directed to correspond with the parties interested in reference to them. To establish a tannery a joint stock company is wanted with a capital of $20,000.

THE EXCURSION.—Quite a large excursion party went to Corvallis Saturday evening to attend the presentation of Evangeline in Jow's new opera house. They were accompanied by the band. An enjoyable trip was reported. Evangeline, a play for bald heads, traditionally speaking, was greatly appreciated.

CHANGE OF OFFICERS.—Mr R H Miller having resigned as treasurer and asst-secretary of the Gold Mountain and Dry Gulch Consolidated Gold and Silver Mining Company, Mr Claude Gatch, was elected treasurer and Seth R Hammer secretary to fill the vacancies till the annual stockholders' meeting.—Journal.

CONSIDER THIS.—By calling at Jas F Powell's you will see a large and fine stock of vegetables and fruits just received by steamer, consisting of fresh oranges lemons, cabbage, cauliflower, onions, celery, ripe cherries, and choice fruits of all kinds.

A SILVER WEDDING.— Sunday was the 25th anniversary of the marriage of Mr and Mrs L E Blain. The employees of Mr Blain remembered the event by presenting the happy couple with a silver token in keeping with the silvery nature of the anniversary.

CARD OF THANKS.—The undersigned desires to thus publicly return his sincere thanks to the many friends who, in the hour of sadness and bereavement, rendered such kindly aid and assistance during the sickness and burial of his wife.
GEORGE BLAKE.

DRUG STORE FOR SALE.—In a growing town; also a large list of city and country property. For particulars inquire o Guiss & Hedrick, over First Nat. Bank.

New embroideries, flouncings, lace flouncing in cotton and silk, black and cream. Laces in imitation point, also new designs in black and white lace, including Vandyck and Eifel Tower. New ruchings.
SAMUEL E YOUNG.

DR. PATTON, the specialist on female and private diseases, in Blumberg's Block. Office hours, 10 to 12, 2 to 4 and 7 to 8. Consultation free. Residence 3rd and Montgomery.

5 cans Golden Star tomatoes for 50 cents at C Meyers, and all other canned goods cheap for cash.

A CRAZY BOOM.—"At South Bend, on Shoalwater Bay, there are about 300 people; there are twenty-five real estate offices, some of them nicely fitted up; all that is talked of there is buying and bonding and sales," said a man to an Astorian reporter. "Land anywhere around the mouth of the Willapa river, where it empties into Shoalwater bay, is held at a fabulous price. Charley Sale, who used to run on one of Flavel's tugs, had 300 acres over on the north side of the river; he sold it a few weeks ago for $60,000. The deeds were made out to a son of T F Oakes, the Northern Pacific man. That is an indication of the price that land is held at in that vicinity. W B Adair has 13 acres some distance up the river, for which he paid $275 an acre. A few months ago a mill hand working in the mill at South Bend found that there was an 80 acre tract adjoining the mill holdings. It was a jagged cliff, covered with brush and trees, and apparently valueless; no one had ever thought enough of it to file on it. He proved up on it the other day and sold it for $80,000."

SCIO PRESS SQUIBS.—Tom Cornell, now one of Albany's big real estate men, was in this city Tuesday.

E Seifert has moved his gallery from Stayton to this city and is now located in the Bilyeu brick.

Harry Chipman is now in charge of the O P roundhouse at Albany. As Harry is a new married man it just suits him.

Wash Phillips is out with a new buggy, the only one of its kind in these parts. It's a daisy, you bet.

Mr Goins has established the rules and prices to govern the electric light business. They are furnished cheaper than in any other town in the state.

Born, near this city, May 5th, to the wife of Riley Calavan, twins, a boy and girl. Mother and children doing well and Riley is happy.

A WESTERN EDITOR has invented an infernal machine which he places in an envelope and sends to those who "refuse" the paper after taking it five years without paying for it. The machine explodes and kills the whole family and the fragments that fall in the yard kill the dog.

The above from an exchange is a sample of the course taken by some newspapers to frighten delinquent subscribers into "paying up." There are men in the world who will pay their butcher bill but won't liquidate for their newspaper, and savage duns only tickle them. The DEMOCRAT long ago quit dunning through its columns. The above course, though, would be a very just one in some cases.

BOARD OF TRADE MEETING.—Mr W F Seaver, representing the Salem Board of Trade, met a few members of the Albany Board of Trade last Tuesday. The meeting was adjourned until Saturday evening when a committee from Salem will meet with the Board in the Council chamber and consider the matter of advertising the Valley. A good scheme for the Board now would be to send a man to Portland, for at least a few months, to meet the thousands of immigrants constantly arriving there. There is a first-class man in Albany for the purpose, one thoroughly reliable, and it is to be hoped something will be done in the matter.

A WEEK'S BUSINESS. — Postmaster Thompson Monday furnished a week's record of the business of the office, something done all over the United States. As it was only a temporary affair he forwarded the record without keeping a duplicate, hence we are unable to give the figures, except on 2 cent letters. There were over 3600 of these, weighing 85 pounds, and the week was a very quiet one. Besides these there was a good record of postals, drop letters, etc. In Astoria, which will get carriers, the number of 2 cent letters was 4936, weight 108 pounds, being only a little ahead of Albany. In Corvallis it was only half as much.

A WATER WORKS SCHEME.—Several monied men of Albany are contemplating a scheme, which, if it materializes, will prove of great advantage to Albany. It is nothing less than a new system of water works. The plan proposed is to run a large pipe from Waterloo to this city, probably a 12 inch pipe, and furnish cheap water for residence and lawn purposes. The fall from Waterloo is 140 feet, so that an immense force could be secured for fire purposes as well. The distance by bee line is about sixteen miles. The cost would not be great, so that the plan is entirely feasible.

ON A TRAIL.—Judge Shaw and the county commissioners started for Gatesville last night to meet the officials of the railroad company and make arrangements for the opening of the Minto trail, which has been usurped to some extent by the railroad company. It is believed that a friendly settlement of the matter can be reached. The people up there may rest assured that Judge Shaw and our commissioners will do all in their power to restore their rights, and compell the corporations to respect the laws of the state.—Journal.

CROP PROSPECTS.—An Albany man who has been out through the country, says fall wheat looks fine; but spring wheat is an uncertain quantity. He saw farmers harrowing where the dust was so thick one could hardly see the outfit. Farmers who were prompt, though, got their spring wheat in on time. Some of it has failed to appear; but it is looked for during the month. Apple, pear, cherry and prune trees are all right and promise a bountiful harvest; peach trees, though, were considerably injured and we will probably have to buy Southern Oregon and California peaches, ahem.

FOUND GUILTY.—Oscar and Doy Cole, who were arrested last week for assault on Angus Graham, at Millers, were tried before Justice Humphrey and a jury, the trial eliciting considerable interest. O H Irvine appeared for the state and G W Wright for the defense. After being out only a short time the jury brought in a verdict of guilty and the justice fined the defendants $20 apiece and costs, the costs alone amounting to $70.35.

BY ALL MEANS.—An Albany man with an eye to the beauty, as well as to the substantial upbuilding of the city, suggests, now the court house property is to be generally improved, that a ten foot cement walk be built around it. A suggestion worthy of consideration. These walks are being built very cheap now and the value to the city and county of such an improvement would be far above the cost. At the same time one around the school house would add wonderfully to the appearance of things. If one enterprising citizen can build 247 feet alone the city ought to be able to stand a block

ALL STYLES of business, however, on the river and sound seem to be doing well. If we do not mention the canneries, there are the pineries, tanneries, fisheries, eateries, drinkeries and town lotteries. I do not know how the real estate men in Astoria are, but certainly their lots, many of them, at least, lead an upright life.—Bill Nye.

Bill might have added that some of them lead a very low life; but his hands seemed to be full paying boiled oyster bills and he neglected it.

AN OLD RESIDENT.—Mr W H Dodd, who has been residing in Missouri for several years, is in the city. Mr Dodd was in the hardware business in Albany for several years, along in the seventies, and the old timers tell about the immensity of his muscle, which, from Mr Dodds well preserved appearance we judge to be undiminished.

SURGICAL OPERATION.—Last Tuesday Dr Maston, assisted by Dr Davis, removed portions of both bones from the forearm of Albert Woodmancy, who resides near Scio, and who had his arm broken at the wrist about three years ago. The arm has been a running sore ever since and the bones removed were so diseased that there was no hope of the sore healing up.

FIX IT UP.—The cemetery should be put in good condition for decoration day whereas it presents a very unbecoming appearance at present. It is to the interest of Albany to see that it be greatly improved.

A HORSE PICTURE.—A picture of the Oregon Wonder, owned by Rutheford Bros, [at Marion, Or, appears on the placard of a San Francisco horse cure ad, which gives its mane as 82 inches long, foretop 70 inches long, tail 100 inches long.

RAILROAD RUMORS.—A gentleman arrived in this city yesterday afternoon having come from Yaquina City on the early train, says the Salem Statesman. He reports it to be the general talk at that place concerning the movement on foot with the Oregon Pacific and Southern Pacific companies wherein the former's road will become the property of the latter. He says that two extra trains came into that city on Monday night about midnight having the officials of the road on board, and that all hands in the shops were doing extra duty in repairing and arranging the machinery. As to the above rumor being perfectly correct he was not prepared to say, it might be stated that there are always plenty of rumors afloat about the Oregon Pacific railway company—many more in fact than of any other line in Oregon. As a general thing, however, no reliance can be placed on what is heard about the road unless it comes direct from the officers. Col T E Hogg, president of the company, is a hard man to down, and when he says the company is going to sell out t. en there is a whole lot of truth in it. He and his brother W M, are invincible workers when it comes to constructing this line across the valley and on east to a connection with some eastern road, and it is not likely that they will retire from this work until this object has been accomplished, and they can get on their private car at Yaquina and ride clear across Oregon without leaving the Oregon Pacific's rails.

CORVALLIS.—A gentleman representing an Eastern woolen mill company visited Corvallis last Thursday and Friday and looked over the ground carefully with a view to establishing a large woolen mill in Corvallis.

During the week ending yesterday, every postoffice in the United States has been keeping a record of the amount of business done at their office, which is to be forwarded to Washington. It was a very quiet week in Corvallis, yet there were 1972 letters mailed, 111 postal cards, 151 pounds of newspaper, and 8 pounds of merchandise.

The case of State of Oregon vs Arch McKinley, in which J W Will was private prosecutor, attracted the attention of the Justice court the fore part of last week. It seems defendant has been selling sewing machines for Mr Will and the trouble grew out of the division of the profits. The evidence went to show that the business was very lucrative and the jury evidently didn't blame Mack for trying to get more than his share of the spoils under the circumstances, for they returned a verdict of not guilty and recommended that the private prosecutor be taxed with the costs.—Times.

RAILROAD ITEMS.—Crook county's wool crop will soon commence moving in earnest toward The Dalles—not to Albany over the Oregon Pacific.—Prineville News.

The Oregonian takes the item and makes it read better, as follows:

Crrock county's wool crop will soon commerce moving in earnest toward The Dalles—not to Albany over the Oregon Pacific, as it will do in a year from now.

It will be remembered that the promise was made last fall that the crop should come to Albany; and it probably would but for the severe winter, and even now the ground is hardly in a condition for work at the front. The following from The Dalles Times-Mountaineers should be a new incentive for the Oregon Pacific to push matters: "Engineers are out locating a route for The Dalles & Goldendale railroad, the survey of The Dalles, Prineville & Southern will be commenced next week. An agent of an Eastern syndicate is here to receive propositions for building both roads."

CROOK COUNTY.—Within the past few days we have conversed with men of capital who say they will guarantee a subsidy of $10,000 with an additional amount of $10,000 in the way of depot grounds and rights of way to induce the building of a railroad through this place.

On Wednesday afternoon Robert Rowan, senior member of the firm of R Rowan & Son, quietly passed away at the residence of his son, W H Rowan, after a lingering illness of two months.

The trial of Wm Page in the next term of circuit court of Harney county, for the killing of Bill Brown, creates considerable interest here, as both parties were well known in this county, both having lived here a number of years.

The stock inspector has inspected the sheep in the northeastern part of the county, and finds that the loss of sheep in that part of the county out of a little over 100,000 head was 31,000.—Review.

A COOL PLACE.—There is one place in Albany that will always be cool, no matter how torrid the weather becomes. The cold storage room of the Albany Ice Co. is the place. The temperature is kept at 36 to 40 degrees above zero, a very nice temperature to be comfortable in. The demand for space is already beyond the capacity of the room. Albany has been made the distributing station for Winehart's beer, and there is continually one to two car loads of the beverage stored there. Fruits, meats and perishable goods generally will be stored there during the warm weather. The Albany Ice Co now has stations at Eugene, Corvallis and Grants Pass, with others being arranged, and will have its hands full the coming summer meeting the demands of the trade. One cent is very cheap in Oregon for ice, being a great reduction from the old prices, so that everybody can afford to keep cool.

A MARION CO. MATTER.—T C Shaw and Commissioner Cornelius went with the O P officials to Gatesville yesterday. There were present President Wm. Hosg, Wallace Nash and Abraham Hackelman. The object of the meeting was to examine the damage done by the building of the railroad to the county road known as the Minto trail. A trip was made in a private car over the entire portion, and after fully examining the whole thing the officers of the railroad promised to repair all injury done the highway, and where necessary to build the same anew in such a way as to make it entirely satisfactory to the people of Marion county. The court has appointed Don H Smith, of Gatesville to look after the county's interets, and the work will be done within a month.—Journal.

LOCATED.—The site for the Home and Hospital, funds for which are being raised in this city by the Ladies Aid Society, has been located, and will be a block in Goltra's Park addition, adjoining the proposed street car line, near the south part of the addition. S E Young and Dr M H Ellis are the donors, the block being one of their section of the addition. The donation is a generous one. The Home will no doubt form a neucleus for a nice settlement of residences.

Bills ordered paid: Electric Light Co., $194.50; Deyoe & Robson, $112.32; Jas Ewing, $33; Robt Brown, $24; John Chiswell, $9; J W Reece, $6; Jesse Doughten, $9; John Maxwell, $74.16; N J Henton, $200.

WEATHER CROP BULLETIN NO. 9.

Of the Oregon State Weather Bureau, co-operating with U. S. Signal Service, Central Office, Portland, Oregon, for the week ending Saturday, May 10th, 1890:

WEATHER.

The high temperature of the previous two weeks continued up to Wednesday of this week, when it fell, being more near the normal; the temperature fell to near the frost point, but owing to the cloudy weather no frosts are reported to have occurred.

During the week rain fell in all sections of the state, being felt copious except in the Willamette valley. Nearly two inches fell in Jackson county, an inch in Douglas and Josephine, generally less than one quarter of an inch in the Willamette valley, and in Eastern Oregon from .10 to nearly .75 of an inch. Rain has been needed, and more would prove beneficial; present indications are for more rain.

The amount of sunshine has been about the average. Thunder storms were experienced in Southern and Eastern Oregon on the 2, 3, 4, 5, 6 and 7th instants.

CROPS.

The weather conditions have been very beneficial to crops of all kinds. Spring sown wheat especially needed rain and in those districts where it was most needed it fell. Unusual as it may appear in the Willamette valley the soil is very dry and in sections hard. While all crops are growing, yet good, general rain would prove to be very beneficial. The subsoil is generally very moist yet, but small seeds, spring sown grain and the like need surface moisture. The cooler, cloudy weather that has prevailed the latter few days has proven very beneficial. Grasses are heading out in sections, alfalfa has a good stand. The grass is generally reported to be in good condition. Crops are growing finely and rain is needed, is reported from all sections. On the 8th general rain prevailed in Eastern Oregon, which will tend to lessen the possible injurious effects of the warm dry weather.

RIVERS.

The warm weather has rapidly melted the snows in the mountains all streams in Oregon are rising, but no danger is apprehended. The Willamette river at Portland has risen six feet during the week and the current is swift. The Powder, Grande Ronde, Umatilla, Umpqua and Rogue rivers are rising. The Columbia risen and is now on a slow steady rise.

B. S. PAGUE,
Observer U. S. Signal Service.
Assistant Director Oregon Weather Bureau.

CRAWFORDSVILLE.

Rev J R Kirkpatrick, accompanied by his daughter, Miss Belle, visited J F Moses and family last week. Rev K. will preach here on the Saturday night before the first Sunday in June.

Mr Akin, who purchased a farm near Crawfordsville a few weeks since, has sold to Mr Fox, lately from Wisconsin, which leaves Mr A again on the lookout for a farm.

Mr Peter Bither was in town this week. He says he is intending to lay off his farm on the prairie into town lots, to be called "Bither's addition to Seattle."

Lumber teams are beginning to travel and there will soon be a great rush to the mills and lumber yards.

Mr Zarbrough, wife and son from Texas have located here. They like this country, and we are pleased to have people of their appearance and apparent qualities locate among us.

Mr John Wright and Miss Sarah King were married on last Wednesday evening at the residence of the bride's father, Rev Mulkey of the Christian church officiating. They have acted sensibly by going to housekeeping at once, having purchased a home for that purpose. They have many friends who wish them a happy and prosperous journey through life.

Crawfordsville has not yet had its boom, but why should it not come? We have a fine farming country, excellent stock ranches, mills, timber and water power, health and good society. What else is required to produce a healthy boom?
WESLEY.

OAKVILLE.

The population of this place is increasing, a son of Charley Brown's arrived on the 7th. He seems to be well pleased with the country, as much of it as he has seen.

The friends and neighbors of Johnson White gathered at his residence on the afternoon of the 10th, this being the anniversary of his marriage. Mr W has been married 25 years, and has a family of eleven children, seven boys and four girls; seven were present at this anniversary. Among those present were Mr N P Briggs, wife and daughter, Corvallis; Mrs Emma Cameron, Corvallis; Mr W H Crawford, wife and family, Oakville; Mrs R A Bamford, Oakville; Mrs S P Williamson, Oakville; Mr D E Junkin and wife, Oakville; Mr W L St John, Oakville; Miss Anna Mohr, West Oakville; A Y Smith, Oakville, and others too numerous to mention. Of the many presents I haven't space to give all but will give a few: Set of silver teaspoons, Mrs C Hamilton; pair silver napkin rings, Mrs A M Acheson; set silver teaspoons, Mrs N P Briggs; glass salt server and glass pepper server, Mrs Emma Cameron; silver picture frame, Miss Luella Stockton. After a fine wedding supper consisting of oyster soup, four kinds of pie, and perhaps twelve kinds of cake, we were entertained by the musicians. Three generations of the White family. Mr John White, aged 82, played the violin; Johnson White, his son, aged 48, played the piccolo, and Guy White, son of Johnson, the guitar and mouth organ.

BARGAINS IN ASTORIA.—The enterprise of the Astoria people in raising $200,000 in twenty-four hours to bring the Southern Pacific railroad to that city has given a wonderful impulse to business at that point. The Columbian says: "The real estate market responded quickly to the enlivening touch of the railroad subscription," and the Astoria papers bristle with the stir and undertakings in progress there. The Oregon Land Company of Albany and Salem has for sale some choice locations in North Pacific addition to Astoria, and as prices are rapidly advancing, the earliest investor has the best show. Now is the time to make money.

DESIRABLE FRUIT FARMS.—Those ten acre fruit farms in Sunnyside, four miles south of Salem, will make a good living for any diligent orchardist. The profit on prunes is $200 an acre, and on berries the return is five fold. The soil and situation at Sunnyside are peculiarly well adapted to fruit culture and the man who owns a ten acre farm in that tract has a good living in his hands. The Oregon Land Company of Albany and Salem has a few more of those fruit farms for sale.

IN MEMORIAM.

May 7th, 1890.

The writer has been requested to extend their heartfelt sympathy to the bereft family of Mrs Wilson, by rendering a few lines for them to their mother's memory. The deceased was born in Scotland, Feb. 1744; came to Oregon in 1876. After about two months of continual suffering she gently, but willingly, passed away on Saturday morning, May 3d. The bereaved family have the sympathy of all. A large procession followed the remains to their last resting place, about two miles east of Munkers, Sunday morning.

Our mother dear has left us,
Yes, has left us all alone;
But her willingness to leave us,
Proves to us where she has gone.

Tho' she has gone from our sight,
To that heavenly home above,
We think of her by day and night,
And try to live as she has done.

She has gone to a home bright and fair,
Where no pain or sorrow can enter [there;
Trials and temptations we'll try to bear,
So when life is o'er we'll meet her there.

Yes mother dear, by God's helping hand,
We will look a'head to that evergreen [shore;
Oh, how sweet it will be in that happy [land,
When the pearly gates open and
You meet your dear ones four.
—ORA VAUGHM.
