MATTHEWS & WASHBURN.

An education

THAT CAN BE USED EVERY DAY is the kind that pays. Scores of young business men, and hundreds of book-keepers and stenographers of both sexes, attribute their success to a course at the Portland Business College, Portland, Oregon, or the Capital Business College, Salem, Oregon. Both are under the management of A. P. Armstrong, leave same courses of instruction. Business, Shorthand, Typewriting, Penmanship and English Literature. Write to either for joint Catalogue and specimens of penmanship.

AN INTERESTING SHOW.—The entertainment given last week by the Famous Elliotts and the Imperial Japanese Chrysanthemum troupe, was probably the most enjoyed of anything ever in Albany. The performance was marvellous from beginning to end, and interspersed with some comedy that was full of spirit, nothing like anything ever seen in our city. Robby Mack in his song and dance was heartily enjoyed. The Japanese troupe, consisting of a number of young men, was a revelation, and one could hardly believe their eyes. No such treat in this line was ever offered in Albany before. As the facts are explained in our issue of last week, the troupe of the Japanese, in wire walking, climbing the oblique rope, in jugglers, balancing, contortion, and one could hardly believe their eyes. No such treat in this line was ever offered in Albany before. As the facts are explained in our issue of last week, the troupe of the Japanese, in wire walking, climbing the oblique rope, in jugglers, balancing, contortion, and one could hardly believe their eyes. No such treat in this line was ever offered in Albany before.

DR. HILLER'S COUGH CURE. Cures Colds, Hoarseness, Croup, Bronchitis, Pharyngitis and Pleurisy, and all other ailments of the Throat, Lungs and Chest. Cures Croup in Infants. Try this.

ALBANY SATISFIED.—Albany business men show a disposition of fairness in their willingness to assist in procuring a recount of the whole state of Oregon. But the newspapers of that city are rather opposed to making the recount so general. They would prefer that it should not include Albany. For instance, of Linn county, that's all right, brethren; the rest of the world won't be too hard on you when the true enumeration of Albany is made known. Five thousand will be a very good thing, and you need not be ashamed of it. Thank you, truly, for the recognition of faulty work in the rest of the state. Journal, might here we will remark that the Democrat does not believe the faulty work was principally in Salem. In fact 3,000 will cover the population of that city. Anything over that is merely bluster.

A BITTLE-HEADED POSTMASTER.—Some days ago a communication, signed "Camper," written at Newport, complaining of miserable mail facilities, in securing delivery of daily papers at Newport, appeared in the Democrat. The ordinarily dull eye of the bittle-headed postmaster caught the communication, and, seeing a young man in the shape of a letter, being the author, he took occasion to talk in the most insulting and ungentlemanly way to her about the quality of the mail. In question, had no more to do in preparing or writing the communication, than had the postmaster himself. This bittle-headed conduct of the postmaster is an additional proof of his unfitness for the station he fills, and the people there, in justice to themselves, should petition for his removal.

A HUNGRY BEAR.—One day last week the boys in Gimbleville (Hiller's saw mill) heard a pig squealing and upon examination they found the pig was being devoured by a large black bear. Messrs. Wm. Herman, Dan Agee, Phil Jones, John McCullister, Ed Grimes and Lon McCullister started out after it. A shot from Mr. Agee's rifle wounded the animal, as they traced the bear quite a distance by the blood with torches, but could not get sight of it again. However, they saw Mr. Dan Green's dogs by snoring him away. It is not often that the bear ever comes down to the mills in the Alps from the hills. —Grants Falls Courier.

FROM THE MINES.—W. F. Read, C. E. Brown and others have returned from the Santiam mines, more elated than ever over the prospects of the future. The outlook is very bright, and the most sanguine expectations are expressed as to the future of the mines. The leads found are rich ones, remarkably so, and only require a little more to produce the richest result. Mr. Bingham, an old miner, who returned with the party, and who has some experience of one with him, pronounces the Albany mine about the richest seen in his experience, and has no doubt at all of rich results when worked.

HARRISBURG.—The first wheat stored in May & Sanders' warehouse this season was that of John Boserman. The grade A, 1, and the average yield 25 bushels per acre.

Miss May Woodbury will leave for Portland this week, where she has accepted a position in the public schools for the coming year.

A fellow by the name of McGrath living about two miles east of town started for parts unknown Wednesday, and was successful in reaching his destination. He leaves several creditors in Harrisburg. —Cor. Pilot.

AN OLD STORY.—Four boys of Glendale went shooting last week and left one of their number to watch near a deer-lick while the other three skinned around. They came back together and while in some other place, their watching companion mistook them for a deer and fired a load of buckshot into the party. Two were slightly injured, but the other was struck on the knee cap and will probably be crippled for life. —Eugene Register.

SHOULD BE STOPPED.—There is a considerable complaint made the Democrat office about parties who come to the city, in fact a great many, setting their sprinklers so as to throw the water across the sidewalk, compelling pedestrians to wade in the street. This is a great evil which should by all means be stopped. It is an obstruction of the sidewalks which the city officials should stop, particularly where it is done as a practice, and not a mere accident, as might happen by an increase of force in the pipes.

NEW LAKE DISCOVERED.—Capt M. W. Hunt and the party he accompanied on the trip in the Cascade, returned last evening and report a most delightful trip. Among the spots they discovered a beautiful little lake in the mountains, which they had never heard before and consequently consider it a new find. It is situated about 10 miles west of the "Fingered Jack," a familiar mountain peak to those who have crossed to or from Prineville, and is a short distance north of the point on the Oregon Pacific railroad where Contractors Hunt and Bennett had their camp headquarters. It did a good deal of work three years ago. The lake has beautiful, grassy shores, and is not surrounded by the thick underbrush and scrub growth characteristic of almost all the mountain lakes. It is furnished by the snow water from old "Jack," in clear, cold and deep, and has no fish that the hunters could discover, but perhaps the fish here being and concealed themselves from the party. The country is a Bowman lake, in honor of one of their number. —Salem Journal.

SENSELESS TALK.—John Robinson's circus drew the largest gathering into the city Monday that was ever inside the city. The party consisted of many more than were represented, also representatives of Del Norte county, Cal. The Court-house was the scene of a meeting of July celebration, a camp meeting of a crowd from all parts of a county together in the city. The party was a very large one, and it is believed that the party met here last Monday, shook hands and exchanged a few words which had not met before. The party was a very large one, and it is believed that the party met here last Monday, shook hands and exchanged a few words which had not met before.

ALBANY SATISFIED.—Albany business men show a disposition of fairness in their willingness to assist in procuring a recount of the whole state of Oregon. But the newspapers of that city are rather opposed to making the recount so general. They would prefer that it should not include Albany. For instance, of Linn county, that's all right, brethren; the rest of the world won't be too hard on you when the true enumeration of Albany is made known. Five thousand will be a very good thing, and you need not be ashamed of it. Thank you, truly, for the recognition of faulty work in the rest of the state. Journal, might here we will remark that the Democrat does not believe the faulty work was principally in Salem. In fact 3,000 will cover the population of that city. Anything over that is merely bluster.

THE O. P. AGENTS.—Col Hogg and party are in San Francisco, and will soon be in Albany. What they will do is merely speculation. Several rumors are afloat, and it is quite possible that they will return to the Union Pacific. Col Hogg has reportedly said that he will never sell out any of his shares in the company, and he has said that he will not be a part of the company's office this week, but failed to show up. —Eugene Register.

LEBANON.—Dr. Nequa, of Albany, has bought the interests of Messrs I. and J. W. Banta in the Eastern hospital, which was probably to be run as an adjunct of the St. Charles in the future.

Wm. Reed brought to this office Thursday a large black bear. It was a fine specimen of the animal, and was taken from his blackberry patch bearing blood-sucking berries in every stage of development. It was a fine specimen of the animal, and was taken from his blackberry patch bearing blood-sucking berries in every stage of development.

THE SPIRIT OF PROGRESS shows no signs of flagging in the city. It is a fine specimen of the animal, and was taken from his blackberry patch bearing blood-sucking berries in every stage of development.

VALUABLE PROPERTY.—The Cusick Addition to Albany has just been thrown on the market and will be sold at such prices and terms as will enable the speculator to make good money. This property lies on the corner of Goltra's Park, and is high and slightly overlooking the city and surrounding country. It is a fine specimen of the animal, and was taken from his blackberry patch bearing blood-sucking berries in every stage of development.

WE HAVE HAD THE THREATS MADE BY L. W. Clark and W. H. Greenwood up to Nov 15th, 1889. Duplicates can be had from the Democrat office. We have also had 15,000 negatives made by ourselves, from which duplicates can be had at cost. We carry the only full set of views of this state and an enlarged work of lowest rates for first class work. We shall be pleased to send you a copy of our own book, next door to Masonic Temple.

THE TRANSITION from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable cure has been effected in the case of Mr. J. H. Cusick, of Albany, Oregon. The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable cure has been effected in the case of Mr. J. H. Cusick, of Albany, Oregon.

THEY HAVE.—A subscriber to the Democrat calls attention to the fact that the most persistent objection to the Mills tariff bill, urged by republicans, was, that it made no reduction on woollen goods, and asks if what some party has not increased the duty on woollen goods in the McKinley bill. It is true that people were getting the exact facts about the matter. The average rate of all woollen goods under the present tariff law is 68 per cent. The Mills bill reduced this rate to 42 per cent. Notwithstanding this considerable fact, the Oregonian and other republican papers persistently represented that the Mills bill made no reduction of tariff rates on woollen goods. Thousands of honest minded people all over the country supported Harrison because they believed this to be true. They were badly deceived and they are now finding it out. As to the changes in rates on woollen goods made in the McKinley bill, it is proper to say that it increases the average rate of duty from 68 per cent, under the present law to 91 1/2 per cent, under the McKinley bill. Think of it, farmers. Think of it, labor people. The duty on hats and blankets by the McKinley bill raised from 73 per cent to 81 per cent. And this is how farmers and labor people are looked after in this bill. We do not hear republican papers complaining that there has been no reduction on woollen goods. What was almost criminal for Mills to do may be done with impunity by McKinley.

TONY NOLTER AFTER THE BAT.—It is with unfeigned pleasure that we join, with others, in welcoming Mr. A. Noltner back to the field of journalism. Mr. Noltner is an experienced journalist, writes a keen, trenchant pen, is thorough and devotedly democratic, and will add much to the forces that, in a few brief years, are to make Oregon a truly democratic state. We take the following from Mr. Noltner's satulatory published in the World of which he has just become editor: "I have always been of the opinion that no one can serve his country in a better way than by laboring and bringing to the people the principles of democracy. The past year has demonstrated the incapacity of the republicans more than ever. A reckless and profligate congress has squandered the surplus of the people; it is endeavoring to create further burdens on the people through unnecessary taxation and to enrich the rich; it is side up disorder and confusion, for no other purpose than party expediency; corrupt the ballot box, and it will win the will of the people. Had there ever been any doubt in my mind as to the revolutionary tendency of the republicans, such tyrants as Reed and his followers would have removed the suspicion on this subject. The democratic party and its principles are correct. They will win in spite of the corruption and cunningly devised scheme of the corrupt politicians, and the World will endeavor to do its best to bring about the triumph of the democratic party. It is my desire and hope that my old friends will give the support they are so ready to give to the World's weekly newspaper in this cause."

YES, TOO EARLY.—Although it may be rather early and too warm to discuss the presidential question, yet we are glad to notice that democratic newspapers in all sections are favoring the candidacy of Governor David Bennett Hill of New York. This is pleasing, as the R. I. Democrat was among the first to call for his nomination. It was the first newspaper in the United States to name Grover Cleveland for presidential candidate and we sincerely hope Governor Hill will be selected. He is a sound democrat and is the only man who can unite and harmonize all sections. —R. I. Democrat.

IT IS TOO EARLY TO DECIDE UPON PRESIDENTIAL CANDIDATES, but it is not out of place to call public attention to the distinguished democratic governor of New York. He is a man of great ability, a great organizer of political elements, and one whom democrats need not be ashamed of. But somehow the people have not lost sight of a very busy lawyer in one of the law offices in New York city. Grover Cleveland continues an object of wide spread attention.

THEY ARE SECURED.—J. Hale Sypher will be remembered as one of the carpet baggers of Louisiana who helped steal the presidency from Tilden in 1876. He has been up to Washington city recently at the invitation of the republican party to help them to convince republican senators that it is a bad thing to pass the Force bill. He says the move to pass the bill has already alarmed the business men of the north. Hear him: "You can see it working everywhere now. The loss of dollars is threatened against the people of the North, and immediately the North becomes covetous and those having profitable trade relations with the South are alarmed. The question that is being asked is, 'What will you do?' The South is effectively in slave days, and it will keep there."

HAIRSHIPS OF A MINISTER LAVE.—The folks who think republicans flourish on the fat of the land are especially required to read the following extract from a letter received at this office from a Virginia Baptist preacher: "I have not a bushel of corn, a peck of flour nor five pounds of meat in the world, and I have not a dollar to buy with, and my church are not able to pay me for my work." He does not ask for help—nothing was further from his thought—but if anybody desires to brighten his life he will undertake to see that the sunshine falls upon his home. —E.

THE TRADE IN SHELLTON PONIES has grown steadily for the last five years. Nearly a thousand are now imported annually. They are only imported between May and December, and the trade is now at its height. A good pony will bring from \$40 to \$50, though some blooded stock is now being imported for breeding purposes at much higher figures. A Michigan farmer has succeeded in breeding ponies so small that they are only fit for children's playthings, some of them only forty inches high.

A COMFORT IN A SICKROOM is a wooden bed-rest, which, when placed behind the pillows, enables the patient to sit up easily. Another contrivance which I have seen answered admirably is a very long net, the ends of which were fastened to the bed-posts, and, being passed behind the patient, and containing the pillows, formed a secure means of resting him when sitting up.
