BAD ECZEMA ON BABY

Cured by Cuticura.

Our little boy broke out on his head with a lead form of eczena, when he was four months o'd. We tried three doctors, but they did not help him. We then used your three Curicora Remarks, and after the use of them eleven weeks exactly according to directions, he began to steadily improve, and after the use of them for seven months his head was catirely well. When we began using it his head was a sold sore from the crown to his eyebrows. It was also all over his cars, most of his head was an sold sore from the crown to his bedy. There were sixteen weeks that we had to keep his hands to hip; and had to keep mittens tied on his hands to keep his finger-nails out of the sores, as he would scratch if he could in any way get his hands loose. We know your Curicora Resmontes cured him. We feel and in recommending them to others.

There is quite a change in public sent i netit among those wh . in the be inning slarted out to promote county division. This is not only true among the taxpayers in the "Forks" but among those about Albany who ulterior purpose to subserve.
