BAD ECZEMA ON [illegible]
Head one Solid Sore. Itching [illegible] Had to Tie His Hands to [illegible] Cured by Cuticura.

Our little boy broke out on his head with a bad form of eczema, when he was four months old. We tried three doctors, but they did not help him. We then used your three CUTICURA REMEDIES, and after using them eleven weeks exactly according to directions, he began to steadily improve, and after the use of them for seven months his head was entirely well. When we began using it his head was a solid sore from the crown to his eyebrows. It was also all over his ears, most of his face, and small places on different parts of his body. There were sixteen weeks that we had to keep his hands tied to the cradle and hold them when he was taken up; and had to keep mittens tied on his hands to keep his finger-nails out of the sores, as he would scratch if he could in any way get his hands loose. We know four CUTICURA REMEDIES cured him. We feel safe in recommending them to others.
GEO. B. & JANETTA HARRIS, Webster, Ind.

Cuticura Resolvent
The new Blood and Skin Purifier, and greatest of Humor Remedies, cleanses the blood of all impurities and poisonous elements, and thus removes the cause, while CUTICURA, the great skin cure, and CUTICURA SOAP, an exquisite skin beautifier, clear the skin and scalp, and restore the hair. Thus the CUTICURA REMEDIES cure every species of itching, burning, scaly, pimply, and blotchy skin, scalp, and blood diseases, from pimples to scrofula, from infancy to age, when the best physicians fail.

Sold everywhere. Price, CUTICURA, 50c.; SOAP, 25c.; RESOLVENT, $1.00. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.
☞Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations, and 100 testimonials.

BABY'S Skin and Scalp purified and beautified by CUTICURA SOAP. Absolutely pure.

PAINS AND WEAKNESSES
Of females instantly relieved by that new, elegant, and infallible Antidote to Pain, Inflammation, and Weakness, the Cuticura Anti-Pain Plaster.

LOCAL RECORD.

THE REASON.—The Railroad Commissioners gave as their reasons for reducing freight rates on the S. P., as follows: "We find that the said freight rates, schedules and classifications, made, used and employed by said company on its lines in the state of Oregon, are unjust and unreasonable, and more than a fair compensation for the services rendered or to be rendered in the transportation of freight on its said road," and they then issued the following imperious order: "You will, therefore, at a day not later than September 1, 1891, cancel and annul all rates, orders, tariffs, classifications and rules in force on your lines in conflict with the above findings, and put into force and effect the schedules, tariffs and classifications as revised and modified by this board."

F J Miller, Secretary of the R. R. Commission, is in the city today, and gives the DEMOCRAT a schedule of the proposed freight charges. They do not affect Albany much, as our rates are already down, owing to O. P. competition. Following are the rates to East Portland under it: Grain, flour, feed and mill stuff, 9 cents per 100 lbs; green fruits in car loads, 15 cents per 100 lbs, in less than car loads, 18 cents; vegetables, 13 cents, reduced 2 cents; wood, soft, by car load, 5; hard wood, 6; lumber, 7½, former price 10; horses or mules per car, $36; cattle, hogs and sheep, $28. The price to Lebanon is 1 cent more, $4 more on horses and $3 more on cattle. There will probably be a contest over it.

SERVED HIM RIGHT.—Grant's Pass did the right thing a few days ago, and set an example other cities should follow. The character mentioned in the following will be readily recognized by Albany men, several in particular: "Ned Parker, known all over the coast as "Big Jack, the Prince of Fakirs," and by other terms, was arrested on Friday for aiding and maintaining a lottery in this city. Ned is a big man—weighs 290 pounds, and wears a stove pipe hat. His business is conducting a lottery as an auxiliary to selling pens. He sells about half a dozen pens for a dollar and the buyer has the privilege of trying his luck at drawing an envelope out of a box said to contain banknotes and blanks. He was held to appear here next February in the sum of $50 which he deposited. He had intended to take in Medford and Ashland, but changed his mind and decided to go north. He had been arrested in Roseburg a day or two previously for the same offense. He wore the air of an injured innocent who had been abused and persecuted by a mercenary community and an over zealous district attorney."

SCIO.—Last week J C Simpson purchased 900 bushels of oats, of the new crop, at 35 cents per bushel.

W A McGhee was in town Tuesday in the interest of the Pacific washer.

Mrs G F Crawford, of Albany, is visiting at the residence of her daughter, Mrs T L Dugger, of this city.

Mrs Geo Humphrey and children have been spending a few days this week at the paternal residence in Albany.

D Bridges, of Shelburn, sold last week to J H Geddes one lot for $40, and 4 lots and 4 acres to W J Wiggs for $300.

Wm Bilyeu was brought before the recorder last Saturday morning on a charge of giving beer to a minor and fined $25. It is but justice to William to state that he was at home in the arms of Morpheus, when said minor got the beer, but it was his saloon and he had to pay the fine just the same.—Press.

EUGENE.—The Corvallis Times says that town is the largest in the state without a steam fire engine. Eugene has none.

This morning two distinct ovarian tumors weighing 28 pounds, were removed from Mrs S M Yoran, by Dr A Sharples, assisted by Drs J Smiley, Casper Sharples and John Harris. It was a very difficult operation, but the lady at this writing has rallied from its effects in a wonderful manner.

E M Corbus visited the Myrtle creek mines last week and brought back with him a bottle containing $7 50 worth of gold. This was obtained from six pans of dirt taken from six places.—Eugene papers.

GONE TO LEBANON.—The Weekly Advance, the Farmers Alliance paper recently started in Eugene by Alexander & Adams, was moved by team to the town of Lebanon, Linn county, Wednesday, where we understand its publication will be continued,- for a time at least. This is the third paper that has failed in Lane county during the past two months. Namely, the Springfield Gazette, Junction Pilot, and lastly the Advance.—Guard.

ANOTHER SUSPENSION.—The Grays Harbor Times, published by Ted Piper, once of Albany, has suspended publication, and Mr Piper will take the plant to Seattle. He has been offered positions on the Seattle Post-Intelligencer and Oregonian, and will accept one of them. Mr Piper is a good newspaper man, but Grays Harbor's big boom did not materalize and there was little left there for an editor to build hopes on.

A NEW ENGINEER.—Tuesday's Portland Daily Telegram says: Lieut Knerckbecker, C. E., has arrived in this city from Seattle. He goes to Yaquina Bay for the present to relieve Gwyn A Lyell, assistant engineer, in charge of government works there. Mr Lyell is to go to the Siuslaw and make a start of the works at that point, as indicated by recent telegraphic orders from the engineer department at Washington.

THE HARVEST.—On account of the cloudy weather farmers are pushing their harvesting at full speed, and threshing outfits even get bids for the first service of the separator. Wheat is turning out in fine shape, and if gotten to the warehouses in good condition will be a big thing for farmers.

DIED AT CORVALLIS.—J H Nicholls one of Benton county's prominent citizens died at Corvallis last Wednesday He had been apparently well the day previous; but Wednesday morning he was stricken with apoplexy and died in a short time. He was a resident of Corvallis for seven years. He was a member of the A O U W and G A R.

A CREDIT TO ALBANY.—One of the finest pieces of cassimere ever seen in Albany is on the counters at L E Blain's. It is a web of that staple goods manufactured by the Albany woolen mills, and compares with the best samples of the same style of cloth imported from Europe.

ONE ENJOYS
Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation permanently. For sale in 50c and $1 bottles by all druggists.
CALIFORNIA FIG SYRUP CO.
SAN FRANCISCO, CAL.
LOUISVILLE, KY. NEW YORK, N.Y.

IMPROVING THE WILLAMETTE.—The government snagboat has been doing good service in the neighborhood of Corvallis for several weeks clearing the channel of snags and putting in wingdams. The boat is in charge of Capt. Raabe, who has been on the upper Willamette for twenty-one years and is familiar with every snag and shoal. He began work at Harrisburg and has removed over 300 snags between there and Salem. Capt. Raabe is so familiar with the upper river and is so interested with its improvement, that no doubt the appropriation has been spent to the best possible advantage. The river is very low at present and the effective work of the snagboat will no doubt make boating better this far up than it has been for a long time.—Corvallis Times.

THE HARRISBURG SCANDAL.—Referring to a previous article, without any names, under the head, "The Harrisburg Scandal," the Eugene Guard says: "Now we are able to fill in the names. The crime was committed in Junction precinct and the parties to it were Hon J P Schooling, of Harrisburg, and Mrs Elizabeth Howard, who lives below Junction. Schooling was arrested last evening by constable J W Majors, of Junction, on the charge of adultery, on complaint of Geo W Howard, the lady's husband. He was released under $1000 bonds to appear Monday before Justice C W Starr, of Junction, for a preliminary examination. After the crime was committed the lady went to California, but has now returned. We are informed that she admits the crime."

A TRAMP WITH MONEY.—Monday evening deputy U S marshal Watrus arrested a supposed vagabond for selling liquor to Indians. The vag had been here since Saturday and slept in the brush on his blankets. Yet on his person when searched at the county jail were found some $50 in currency, two certificates of deposit for $100 each on the First National Bank of Moscow, in favor of John Lucy, a check book of the same bank and a receipt for a note in John Lucy's name, the whole amounting to $539. The prisoner of course gave his name as John Lucy and it might be that he is tramping about the country for economical reasons, yet there is a suspicion that he might have stolen the wealth found on his person.—Pendleton E. O.

DICK FLAHERTY WON.—There was a pretty little trotting race yesterday out at the fair grounds race track between three horses now in training there. They were A S Beggs' "Dick Flaherty," Bright & Cox's "Rosemon," and George Good's "Thookydeeds." It was for the best two in three, and in the first heat only Rosemon and Thookydeeds were started. The former took the heat, time 2:55. In the second Dick Flaherty won the race by a neck, over Good's pacer; time 2:45. The little trotter was shut out. Beggs issues a challenge to Thookydeeds for the best two in three, race to be on the fair grounds early in September.

A THIEF CAUGHT.—The following dispatch from Ashland, tells of the capture of a thief, who possibly is the Harrisburg robber instead of a California man: Marshal Smith arrested a man today with a lot of jewelry, evidently stolen, in his possession. He gave the name of Scott, and had in a small flour sack, which had the brand of the Tehama county, Cal., mill on it, about a half dozen gold and silver watches, and numerous charms, chains and rings. The officers are holding the man, awaiting some information as to where the property was stolen from. The man said he secured the jewelry in California, but would not say where.

AT BLUE RIVER.—The men who recently took a small stamp mill into the Poorman mine in the Blue river district, have had trouble in getting bolts to put the machine together, those used before the machine was taken apart being carelessly lost. They have got to build a long flume and saw out lumber for the same by hand, so it will probably be two weeks or more before they will be ready to operate. There are ten men working in the Poorman mine and they have tunneled into the hill nearly two hundred feet and some rich ore is brought out. The tunnel is six feet square and requires no timbering except in one or two places.—Register.

A GUN ACCIDENT.—Ira Adams was brought to this city last night, from Turner, near which place he was hunting yesterday and had the misfortune to shoot himself in the hand and wrist. He was climbing a fence near the camp ground and had stood the gun against the fence, while he climbed over. In getting over the fence his foot slipped, and, coming in contact the hammer of the gun, discharged it. The load struck him in the left hand and wrist, and made a painful wound. The injuries are such that the hand will have to be amputated, and, as the wrist is also badly torn and shattered, several inches of that will have to be taken off.—Statesman.

HE COULD RUN.—The horse race last Friday was won by the Bellinger boys. It was a close run, and both horses were put to their best speed. Another race followed between horses owned by Polk Thomas and Schultz, the Albany butcher. Polk had a soft snap—in his mind. And, say! The way that old stoveup, spavined, knock-kneed cuitan of Schultz's did run, "surpasseth all understanding." If that butcher was to bring a saw horse over and want to run it, Polk wouldn't bet much on the race.—Press.

THE BRIDGE.—Mr R Wakefield, of the Portland Bridge Company, is in the city looking over the field, and making preliminary arrangements for the building of the bridge. Two pile drivers have been ordered this way; but work will not be begun for two or three weeks, probably, other than the locating of the piers by the engineers. In the mean time work is being pushed at Cleveland, O., on the steel part of the structure, and really nothing is gained by beginning work until everything is ready.

HOLDING WHEAT.—An exchange says wheat will be held for a dollar a bushel this year by many farmers. Well, there has never been a year yet when wheat was not held for a dollar by at least a few farmers. This year is an auspicious one for holding wheat, at least, a reasonable length of time; but, it is well to remember the fact, that the farmer who sells before the first of December is the one who makes the most money in the long run.

SEVERE WOUND.—W B Blanchard was carrying a scythe on his arm Friday, says the Brownsville Times, when he slipped and fell from the porch of his residence, falling upon the blade and receiving a deep and painful cut below the knee cap. A number of stitches were taken in the wound and Mr Blanchard is resting as easy as the circumstances will permit.

WANT A STEAMER.—The question of purchasing a steam fire engine was discussed at the meeting of the council last Monday night. A proposition has been made by the citizens of Brownsville, to purchase our present hand engine, Young America, and there is no doubt that Corvallis will have a steam fire engine in a short time.—Gazette.

PASSED THE HAT.—Two well dressed musicians gave horn duets on the streets last night, good performances. When first seen people wondered what was up, thought a patent sale was coming, or something of a high toned order. "Surely," they said, "they can't be hat men." But they were, doing it in regular order. Why not. The hat is passed for the lecturer and numerous other such things, why not for strolling musicians, even though of the dudish order.

THE FAIR.—Linn county farmers should take exhibits to the state fair. This county has never done much in this line, why should it not be heard from. Some valuable premiums are offered, and there is no reason why they should not be secured for the banner county of the state. Oregon people should make the fair a credit to the state, and every section should do its part.

SOCIAL AND PERSONAL.

THURSDAY

The photograph man is in the city.

J G Crawford and family went to Yaquina bay this noon.

T F Smith, of Green county, N Y., has been in the city looking for a location.

Mr Cass Humphrey, of the state printing office, came up this noon for a days visit.

Branard Montanye has been confined to his home with typhoid fever for a couple weeks.

Mrs W H Raymond left this noon for Portland, to join her husband, the well-known insurance man.

Mr Durham, ex-superintendent of the Oregon Pacific, was in the city today with his wife and daughter.

G W Harris, the miner, has been in the city a few days. Mr Harris pins his faith on the Santiam mines.

The bicycle Chas Sears rode from Corvallis to Albany, Tuesday, was a Victor, instead of a Columbia, as stated yesterday.

Deputy Chas Scott is out after Miller, the escaped jail bird. Clues were obtained yesterday, but not enough to secure him.

Mr Cleveland and daughter, of Portland, father and sister of the young man drowned near Scio, a few weeks ago, have been in the city today.

Roe Hodges and son Lewis and Dave Hamer left this week for California with 150 head of horses. They expect to get $50 to $60 per head for the animals.—Prineville News.

Attorney General Chamberlain has been at Corvallis, looking into the affairs of the Oregon Pacific employes. Judge Shattuck will hear the case, in the absence of Circuit Judge Pipes.

Parkhurst & Loyd, the Pacific Union Insurance men, having completed the rerating of Albany, went to Oregon City this noon. Most Albany rates will remain as heretofore, a few will be lowered, and some raised.

E S Barrows, the insurance man, arrived home last evening from a trip to Wisconsin, and seemed delighted to get back among his Albany friends. Though at one time he was only two hours behind his daughter, coming from Denver, the fortunes of travel brought him here twenty four hours later.

This morning Robert Burns turned over the office of the Union Pacific railroad company in this city to A J Bizell, of Victoria, who will now serve that company as agent. In a few days Mr Burns will leave for Portland, where he will act as agent for the company.—Walla Walla Statesman. Mr Rawlings, of this city has already succeeded Mr Bizell.

James J Charlton arrived in Albany this morning from New York, where he is now a student in the law office of Alexander & Green, one of the leading firms of the city, if not enjoying the largest practice, employing thirty clerks alone. Mr Charlton will remain about a month, and left on the afternoon train for his father's home in Santiam precinct, where he will spend most of the time.

FRIDAY.

R. R. Commissioner Colvig and daughters, were in the city today.

Mrs Saltmarsh and children returned to Portland this noon, after a visit of several weeks with Albany friends.

Mrs P W Parker, recently drowned at Clatsop, was a sister of Mrs Johnson, wife of the president of the state university.

Surveyor Warner came in from his home at Albany on Monday, to resume his work of surveying at the Siletz.—Toledo Post.

Mrs J H Upham left on the last overland for San Francisco, Calif, where she will spend two or three months visiting relatives and friends.

Mr J Norcross, who was stricken with appoplexy at Albany, is still in a serious condition, but J P Gilmore heard Monday that he was improving a little.—Ashland Tidings.

A C Strang, Archie Mason, C G Tisker, and Hal D Patton, of Salem, are in the city. Mason & Strang are here on account of the opening of bids for the building of sewers under the new system being established.

Dr Littler, of Albany, has been in town for a week past. He is a very good dentist and is liberally patronized here, he being the first good dentist that has been here for some time.—Crawfordsville cor. Times.

Misses Mary Woods and Maggie B Little, two prominent school teachers in the Sacramento schools, having been in the field there for a good many years, are in the city the guests of their old friends, Mr and Mrs Tweedale, who will probably accompany them on a trip to Victoria.

Judge O N Denny left last night for Grant's station, he having received a dispatch informing him that his mother, who is visiting a daughter near Grant's, was lying at the point of death. Mrs Denny is 80 years of age, and there is but slight hopes of her recovery.—Oregonian.

Clark Braly and family arrived here Friday evening from San Diego, Calif. Mr Braly will reside here or in this vicinity in the future. He has concluded that Southern California is not what it is cracked up to be, and prefers the green clad hills of old Yamhill to the rocky and desolate crags and sandy plains of the south.—McMinnville Reporter.

Judge L Flinn, Dr O C Awbrey and Jack Smiley went to Yaquina bay today. Since the Clatsop and Ilwaco accidents the number of excursionists to Yaquina has greatly increased from Portland. People wishing a safe bathing place are realizing that Yaquina is the proper resort to visit. It is destined to be the great resort of the northwest.

SATURDAY.

Dr McAlister is lecturing at Coos Bay.

Mr Cavender, the gentlemanly editor of the Brownsville Times, was in the city today.

Prof Sibbits, of Harrisburg, has been engaged as band leader at Gervais, and will move to that city.

Ira Adams, of Turner, who had his hand amputated at Salem, on account of a gun accident, will receive $1700 in cash on an insurance policy carried by him.

Mr A B Seal, of Albany, one of the jolliest commercial men of the coast, paid this city a visit one day last week. He makes friends wherever he goes.—Hillsboro Democrat.

Governor Pennoyer went to Mehama today to join his family. Mrs E N Condit and daughter left for the same place. S S Train was on the train for Coe, J W Gardner for Gatesville and J W Brown for some other point.

Miss Minnie Colwell, the popular accountant at Gilbert Bros' bank, is rusticating at home for a few days with an attack of the mumps, says the Salem Journal about a former Albany young lady.

Mrs Hughes and son, of San Francisco, were in the city today and left on the noon train for home. The husband of Mrs Hughes, a daughter of Hon Allen Parker, has recently been on an ocean trip to Alaska. He is a steamboat captain.

Pomeroy, Wash., is very fortunate in having an editor for Mayor. The idea is a good one. Rev Mays in the Independent says: Every newspaper in the state that has expressed an opinion on the subjet (and many of them have) has paid a compliment to us on becoming Mayor of this city. Only one rag keeps up a bark at us.

A large number went to the Bay today. Among the passengers being Miss Protzman, E L Thompson, Harry Woodin, of Portland, Mrs O P Coshow and family, W H Garrett, Mrs Lile, Mrs Hyman, Miss Lyda Galbraith, Miss Laura Vance, Miss May Rideout, G W Simpson, W H St John, Mrs Dana Burmester, Miss Marshall, Mrs W T Hearst and daughter, Will Campbell, Gene Lorimore, Geo C Stanard and family, of Albany, and Dr Foley, of Lebanon.

LARGEST LUMBER MILL IN THE WORLD.

Port Blakeley, Wash., claims to be the location of the largest lumber mill in the world. In 1890 this mill turned out 69,000,000 feet of lumber, over 28,000,000 laths, and a large amount of other stock.

The history of this plant is interesting. In 1864 the capacity of the Blakely mill was 30,000 feet a day, shipped mostly to San Francisco, but the following year the firm began to ship to South America, later to England, and eventually to the east. Australia was the best customer for many years, but the trade with the Hawaiian Islands is important, that with South America is increasing, with a considerable demand from China and Japan. The total cut for 1889 was 63,554,000 feet, of which 34,998,581 feet were for foreign shipment. Recently a whole cargo was consigned to Liverpool and two for Belfast. The inquiry from England is for the best quality, and a vessel is now loading for Cardiff, filling an order for 1,000,000 feet, the bulk of which is measured out in heavy timber, 16x16x61, and reached 24x24x90. This is a costly cargo, the logs alone costing $15 per 1000 feet, and the cargo running up to $12,000, to $15,000.

The mills will turn out from 300,000 to a possible 400,000 feet a day, employing two engines of 575 horse power each, two of 250 each, two of 200 each, and ten smaller ones for incidental purposes, making about 3000-horse power. The chief machinery consists of two double rotary saws, two re saws of sixty and seventy inches, two gang saws and eleven trimmer saws, two lath mills and five planers.

These figures convey to the experienced the extent of the operations, but to the layman they are not so wonderful as the magnificent system by which huge logs are caught up and whirled into line, cut up into planks by the resistless serrated teeth of fine steel saws, turned over, trimmed, chopped off into lengths and issued from the open mouth of troughs in the shape of beams, rafters, posts, staves and laths, snatched up by gangs of men and piled upon trucks or shot down into the holds of ocean-going vessels.

Across the sound from Seattle may be seen a white column of smoke by day and a pillar of fire by night. For over twenty years has this fire been fed by waste from the mill, and in that time a small forest of lumber has been consumed. There enough wood is destroyed to supply annually a large city with kindling, but so plentiful and cheap is wood on the sound that it does not pay to ship it and it is burned as the only means of removing the otherwise cumbersome refuse.

LOWER-PRICED STAPLES.

Nearly all the beneficiaries of the McKinley tariff who have defended it in the *World* lay much stress upon the cheapness of calicoes, cotton cloth, steel rails, and other protected articles, compared with the prices of twenty or thirty years ago, and claim that the reduction is due to the stimulation of domestic production by the tariff.

This is almost as absurd as the kindred claim that the great crop this year, and the increased price due to a foreign shortage, are to be credited to the republican party.

Low cost is due to improved methods of manufacture and to the development of the science of transportation. Every reduction in price here can be more than matched by a reduction in England. If our cottons, calicoes and rails are cheaper than they were twenty years ago, they are still more costly than those of Great Britain. Otherwise why do we require a 60 per cent tariff to keep out foreign competition? Why does England beat us in the South America trade?

Prices that are low with a tariff, would be low without it.

The Mississippi canvass for the two United States senators from that state has reached such a stage that the re-election of George to the senate is now conceded by the supporters of Barksdale. The nominations for members of the legislature show that sixty-six are for George and Walthall, and twenty-three for Barksdale and Lewis Only twelve more are required to elect George. Senator Walthall some time ago wrote a letter in which he declared that he did not care to serve a second term, but the feeling between the two factions was so strong and the canvass was so warm that no attention was paid to Mr Walthall's request, and at the various primaries votes were cast in favor of the re-election of both George and Walthall. Now that the senatorial question is practically determined, a movement has been inaugurated by the friends of Major Barksdale to unite the two factions of the democracy by the substitution of Barksdale for Walthall. The chances are, however, that the proposition will not be accepted, as Barksdale favors the sub-treasury scheme, which has been rejected by the democratic state convention.

Despite his expressions of continued confidence in the efficacy of tin-plate duties, Mr. McKinley's belief in the virtues of high protection in this respect seems to have suffered some change in the last twelve months A year ago he said on the floor of the house that there were four mills in the country which could "at once" be adapted to making tin plete and could produce about four thousand tons a year. Now he tells the Ohio convention that we are only making a little of this commodity, but that it is surprising, all things considered, that we should yet be making any. It will be still more surprising if the people see within the next five years the 4,000 tons of domestic tin-plate which was promised them "at once."

A dispatch from New York city says:

An interesting bit of political gossip in connection with the meeting of the democratic state committee was that the Albany county democrats had wiped out their anti-Hill county organization. The nomination of D Cady Herrick for the supreme court bench and his certain election will prevent him from continuing in the party leadership, and this faction is to be utilized to unite both sides of the party under the leadership of Hugh Riley, whom Governor Hill recently appointed to succeed the late William L Miller as judge of the court of claims. It is understood the ticket arranged is as follows: For governor, Roswell P Flower; for lieutenant governor, William F Sheehan; for secretary of state, Frank Rice; for comptroller, Frank P Bell; for treasurer, Elliott Danforth; for attorney general, S W Rosendale.

The farmers alliance of Maryland has endorsed the democratic nominee for governor.

Mothers!
Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhoea and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mothers' friend. 35 doses, 35 cents.

A BRIGHT OUTLOOK.

Smith M Weed, the veteran democrat, and friend of Samuel J Tilden, has been interviewed by the New York *World*. When asked about the governorship of New York he said: "Well, I don't know as I have much to say about politics, but from the outside it looks as if the republicans were having a desperately hard time to get a candidate for governor. But then I don't know as they should concern themselves so much about the matter, for it will not make much difference who they nominate. The next governor is pretty sure to be a good democrat. As to his personality, the indications now are that it will be Mr Flower. Mr Chapin is also a candidate, and would make a good governor. Mr Flower, however, has the support of Hill and Murphy and is favored by Tammany, so he will probably get the nomination."

"What is your opinion of the presidential possibilities?"

"They are very uncertain things, and possibilities is a good word, for all things are possible and none is probable in prognosticating the result of presidential elections. I don't know what Mr Hill is going to do. If Campbell wins in Ohio, he, of course, will be a factor in the contest. Campbell and McKinley are both good fellows and strong fighters. They will have a good square fight out there on the tariff question. How it will result I do not know. Ohio has always been a close state, with a decided preference for republicans."

"What about the republican nomination?"

"Oh, Mr Blaine will be nominated, I have no doubt, if he will accept. It rests entirely with him. After Blaine, Harrison stands as good a chance as any one. Mr Harrison is honest and has done the best he could, but he is a narrow-contracted chap; and right here," continued Mr Weed, as he lighted a fresh cigar, "I want to enunciate a principle of my creed, and that is that there should be no second term for any president. Few, if any, presidents can withstand the blandishments of second terms. Just as soon as they begin to make nominations with a second term of office in view they depart from the principles of good government and bad results are sure to follow. The term of the president's office should be lengthened and a second term prohibited."

"What is your opinion of jewels that have recently been dropped from the republican casket?"

"The few dropped don't bring up the average much I assure you," said Mr Weed, with a smile. "Clarkson and Quay are two of a kind. The republicans are a hypocritical set anyhow. They drink and are temperance men; they run Sunday-schools and monkey with bank stock at the same time. Yes, sir, Wanamaker ought to have been bounced long ago. He should have stepped out at the time when those advertising circulars were sent to all the postmasters. If Mr Wanamaker did not do this it was done by his partners and with his consent. Harrison has made some very good appointments in his cabinet and some very poor ones. Proctor has made an excellent Secretary of War. Tracy in the Navy, too, has been a good man."

"What is the outlook for the next presidential election?"

"Everything now points to a victory for the democrats. If Mr Harrison is the republican candidate it will be simply a walkover. Mr Blaine, of course, would make a better fight. As long as the senate is republican, however, there can be but little democratic legislation. And the worst thing the republican party ever did was admitting those small states just to get votes in the senate. More votes are required in New York to elect an Assembly than are necessary to elect two senators and a representative in Nevada. Idaho with 100,000 people is on a par with New York's 6,000,000 in senators. Of course the senate should be a conservative body, but republicans are taking the course to defeat this intention of the constitution Suppose the democrats should divide Texas up into states the size of Nevada or Idaho. The admission of small states is doing great injustice to big states."

The four-masted ship Shenandoah, the finest and largest sailing vessel that ever flew the Stars and Stripes, reached San Francisco on May 25, after a voyage of 126 days from New York. Her fastest run was thirteen knots an hour for twenty-four hours. There is only one larger sailing ship afloat, the French five-masted steel ship France, now on her way from Valparaiso to San Francisco. Faster time than the Shenandoah's has been made often between New York and San Francisco, but by much smaller ships. Her length is 299.7 feet, her breadth 49.1 feet, and her depth 28.8 feet, and she spreads 11,000 yards of canvas. Her net tonnage is 3258.47 tons. She will return to New York with a load of barley.

A new industry is gaining headway in the topics, by which bananas are dried for shipment. The fruit in drying loses one-third of its weight, and when dried readily sells at sixteen cents a pound. The dried fruit can be transported over bad roads without injury, and it retains its flavor. The cost of producing bananas is very little, as a bunch weighing fifty pounds, requires as a total outlay for clearing, purchase of land and every other expense necessary, even to boxing for the market, the small sum of fifty three cents—the result of an actual test in the island of Trinidad. When one considers that the productiveness of the banana is forty-two times that of the potato and 131 times that of wheat and that when once planted it needs little care, the profits of the industry will be readily seen.

Take Care! There is Danger!
In allowing inactivity of the kidneys to grow through neglect. The deadly shoals o Bright's disease and diabetes will wreck the goodly bark of health if it is allowed to drift rudderless upon them. The bladder, too, if inactive, and judicious medication does not speedily direct the helm toward the port of safety, will be whelmed by the quicksand of disease. In selecting a diuretic, let your choice fall upon Hostetter's Stomach Bitters, which stimulates the renal organs without irritating and exciting them, two effects to be apprehended from the unmedicated stimuli largely resorted to. These have a tendency to react prejudicially. The Bitters invigorate the kidneys and bladder, in common with the nerves and digestive organs, and so afford lasting aid. It also affords dual assistance in preventing and curing intermittent and remittent fever. Biliousness, constipation and rheumatism it also subjugates.

Do not buy your boots and shoes until you see the piano at Klein Bros, and as well have examined their large stock of goods.
