The total importation of goods on the free list in 1801 was \$366,238,661 while the free list importation for 1890 was \$265,-668,639. The increase of importations of free goods for 1890 was \$100,-570,032. The total importations of dutiable goods for the year 1890 was \$523,641,-780 and in 1891 the amount was \$478,658,-436, showing a decrease in 1891 over 1890 of \$44,983,324. The increase of which the Journal boasts is in the importations of free goods while there has been an actual decrease in importations of dutiable goods of \$44,983,324.
