> To TRA DRINKERS .- Brobably three fourths of the teas consumed are "Green Teas " Unpleasant as the face may be, the bright, shiny green so familiar to us all is not the natural color, but is due to the facing or glazing of the tea with Prussian blue, Indigo and

other mineral colors. That coloring hides the effects of poor teas is undoubted; but is it healthful, and does it not call udly for the importation of a brand of pure, uncolored, unman-Ipulated tea?

It was this condition of affairs that prompted the placing of Beech's Tea before the public. Being the absolutely pure, uncolored leaf it is different in color from any you ever used. It dra wa a canary color of a selightful fragrance that is a revelation to tea drinkers, and its purity makes it more economical than the artificial teas, less of it being required per cup. Editors Democrat ; Allow me to call the attention of the City Council to an unmitigated nuisance which exists here, and which I am satisfied does not exist in any other city of the same size in the state on the coast, and that is the burning of straw and other refuse in the public streets, compelling merchants to close their doors and pedestrians to go round a block rather than encounter the nuisance.
