A Severe Law.

The English peo ple look more close? to the genuinenes of these staples then we do. In fact, they have a law under which they make s laures and de stroy adulterated products that are

not what they are represented to ba. Under this statute thousands of pounds of tea have been burned because of their wholesale adult

Ten, by the way, is one of the most notorioutly adulterated articles of commerce. Not alone are the bright, shiny green teas artifcially colored, but theusands of pounds of sub-ti sites i ; tra leaves are used to swell the ball of chi a teat; ash, sloe, and willow leaves being here most commonly used. Again, sweepings from ten warehouses are olored and a 11 as ten. Even exhausted ten

i wes ga he ed from the ten-houses are kept dried, and made over and and their way into the chesp cas.

The English gov rationt attempts to stamp this out by conflues I m: but no ten is too pourf cu , and the result is, that probably apoint treasmed by any nation are those mored in America.

Level's Tex is presented with the guar an y that it is unedlored and unadulterated; In fact, the sun-care I toa leaf pure and simple. Is purity insures superior strength, about one third loss of it being required for an infusion than of the artificial teas, and its fragrance and exquisite flavor is at once apparout. It will be a revolation to you. In order that its purity and quality may be guaranteed, it is sold only in pound packages
