SHATTLE, Wash Feb 19 .- For several The tariff bill introduced by Springer, and reported favorably to the house by the ways and means committee, is one of great significance. The leading and striking feature of the bill is to be found in the fact that it recognizes the rights und interests of that great body of American sitizens known as consumers. There may be 100,000 woolen manufacturers in the United States, but there are sixty-five million consumers of woolen goods. It was McKinley's pleas—

days a clever swindler, in the person of a small, middle-aged man who deals in paper money, the denomination of which he raises by pasting a large number over the originally engraved figure, has been operating in this city. The latest victim is the proposetor of the Chicago meat market, at 134 Third street posterday. The small man went into the butcher shop and bought a tenderion steak, giving what purported to be a \$10 bill in payment. He was given \$9.60 in change, and went away. The bill turned up in the clearing house today and was pronounced bogus. It had been raised from a \$2 bill.

are to provide for the interests of the tooooo manufacturers, and to utterly ignore
all the rights and benefits of the sixty-five
million consumers. Springer proposes to
reverse this vicious legislation by regarding the interests of the consumers, the
great mass of the people.

The ways and means committee will report three tariff bills to the house during
the present week. The measures to be
reported are the Springer free-wool bill,
the Bryan free binding twine bill, and the
