LOCAL RECORD.

Wanted to Dir.—The story comes from Polk county that an old man whose mind had become deranged had prophesised that the Lord had informed him that at the hour of 10 o'clock a mon Saturday, June 18, 1892, he was to die. The old man was so thoroughly imbued with the idea and so convinced of his truth that he wrote notices to that effect in rhyme and posted them around in the neighborhood. At the appointed time a number of his neighbors gathered at his home to see the climax of the affair in which he was to shake off this mortal coil and go to that bourne whence no traveler returns. As the minutes flew by, as minutes will do, he called attention to the approaching hour, watching with a sort of fiendish glee the lapse of time. But through some unforseen cause 10 o'clock passed and he was still alive and somewhat disappointed and proceeded to excuse himself by saying the Lord didn't know when 10 o'clock was a fill alive and somewhat disappointed and proceeded to excuse himself by saying the lapse of time.
