SALEM - OREGON

MAKES a specialty of Sunnyside fruit tracts near Salem. Will sell 5, 10 or 20 acre lots at \$50 to \$60

Crawford-Paxton. RELEADING PHOTOGRAPHERS, Albany, Oregon.

LOCAL RECORD.

AN INDIAN BOY.—The Journal says: O G Savage, the farmer at the Harrison Institute, Chemawa, was in Salem today en route to Albany where he went to bring back one of the rescued Indian students. The wanderer is aged about fourteen and left the school on Wednesday morning. He had been in the Albany local that evening and rode the blind baggage a portion of the distance when the trainman discovered him and gave him a berth on the inside. Arriving at Albany, the city marshal took the little rascal in charge and then summoned the superintendent at Chemawa, who detailed Mr Savage to go after him. The boy is partly deaf and has been in the Oregon state school in the city the past year.

The boy was taken to Salem this morning and brought back and taken to his mother, who is picking him up near Lebanon. He was formerly of the Warm Springs and was the laker care of a white by Councilman Wheeler. Two plugs of tobacco stolen from Watson indicate that he was undoubtedly the first of the boys who broke into Watson's, Emerick & Baker's and Schreiner's, doing so because he was hungry and wanted something to eat. He is deaf and dumb.

A BUS HOR VAND.—A visit to the hospital of Dr H A Davis last Wednesday revealed an important industry within the midst. The largest number of people ever working in Harriburg under one management was there employed. More than a hundred engaged in the field and about the premises, and already many hundred pounds of the hops are ready for the market. We believe Davis to be the most extensive hop grower in Oregon. He has this year seventy-five acres in cultivation, which is considerable of an increase over the average of any previous year. Mr Davis estimates the present crop at about 900 or 1000 pounds to the acre, in all about 67,500 pounds—probably a safe estimate. Judging the price at ten cents a pound, the crop will sell for \$67,500. Although the yield is estimated at about one-half of the average crop, the hops are of excellent quality. The acreage of three or four acres the entire field is free from lice.—Harriburg Courier.

LEBONON.—Wm Royce of the paper mill had a leg broken last Saturday. Dr Booth reduced the fracture. The injury is not serious and the patient is expected to be up in a few days. It is now more than a month since the ditch was completed and many of the most important buildings in its construction are unpaid. The Free Methodist of Sodaville are expected to have a church building in the near future. They have bought a part of the old public school building in Lebanon and will erect a new one on the site. The church is to be of brick and will cost about \$10,000. The building is to be of brick and will cost about \$10,000.

EVERETT WILLIAMS.—The four-year-old son of A G Williams, has four great-grandmothers, and three great-grandfathers. He was born on the 12th of August, 1888, and is now two days old. Grandmother Beatty and Grandmother Beeler are aged 85 and 84 years respectively. A new, strong, never-failing fountain of sparkling soda water was recently discovered at Watson. As the water is third spring discovered at that place, there is no reason why people should longer go to other places for soda water. An OLD HUNTER.—An old trapper out in the Silver Creek falls district was in Salem yesterday afternoon collecting from Marion county the bounty due him for killing a wolf and four coyotes. The bounty offered on wild cats is \$2.50 each and the value of a coyote's scalp is \$2.50. The trapper has \$25 in his inside pocket. He is one of the old-time trappers, such as used to hunt the Pacific slope in the days of the Hudson Bay company. He knows how to bait for every kind of winged creature and four-footed beast that makes the skin its home or roams the forest.—Statesman.

PECULIAR ACCIDENT.—The Register tells of the following threshing accident: One man named Chaffar met with an accident near Junction City a few days ago that came near proving very disastrous. He was feeding Harley's muck's threshing and got hold of a bundle that had a piece of iron in it. He felt the iron as the bundle left his hands going into the cylinder, and grabbed to get it, but was too late. It went into the cylinder, where it was broken into several pieces and thrown back with terrible force. One piece cut off the end of the thumb, one struck over the eye and inflicted a bad bruise, and several other pieces cut his face badly. It was fortunate that he was not killed.

KILLING JAPS FOR MARKET.—Albany Democrat: "A box of 52 Chinese pheasants were shipped to Portland yesterday, and another one of about the same number today." Such work as the above will call for more prohibitory legislation to protect these birds.—Engage, Guard, Correct. The pheasants were shipped by a 1200 acre farm in Eastern Oregon he watches very zealously. Four of the finest bird dogs in the country scared the life out of the Celestials. Local hunters, who want the birds for home use are at their wits' end.

ARE WE AWAKE.—Just hear this from the Statesman: The bustling city of Albany will soon be connected with the Central City and the other cities of the valley by telephone. The council has granted privileges for creating poles and stringing wires, and very soon the instruments will be connected and the electric current turned on, when the talking machines will be in motion. The wires are already up leading across the new bridge at Linn's canyon. Salem correspondent.

FOREST FIRES.—Forest fires in the Cascades beyond Niagara are causing considerable damage to property, and are rapidly spreading in every direction. A man from there last evening reports that West Maple, among other places, is completely burned out, even his house going. Should the trees of the Cascades ever present the spectacle of those of the Coast range, timber claims will not be very valuable along the O. P. front.

WHEAT THIEVES.—Wheat thieves have been operating among Peoria and Oakville, and the citizens there are liable to call out the O. N. G. if continued. A few nights ago seventy-four sacks of wheat was stolen from the field of Walter McFiee, and other amounts from a few other fields.

HALF OF A FARM SOLD.—Mr F M French has just sold for the McCoy estate 120 acres of their Oakville farm, for \$30 an acre, to Mr Patterson, a new and thrifty farmer, just from Kansas. This is the right price for good farm land, a good indication to see 120 acre farms laid out.

TO THE LADIES OF ALBANY.—Those desiring dress making done will please call at Miss Ida Brush's shop.

A large stock of pruning shears and grafting tools, the best made, just received at S' west & Co's. Now is the time to use them.

Bargains at Read's.

SOCIAL AND PERSONAL.

THURSDAY
Hon George Herman is in Roeping. A genuine, jovial, chimney sweep, as far as a pig, was in the city today. L. Senders returned last night from Portland, having just returned in health. Mr E Hoyer, of the Salem Journal, went to the Sanjam this morning for the benefit of his health. Mr W H Watson and family, of Sheed, and Miss Lily Lovett, of Albany, went to the Hay today. A B Seal and family leave tonight for their home in St. Francisco, taking with them the best babies of a host of friends. Harry Conner returned today from the lower Sanjam. His wagon broke down, a blacksmith shop being his destination. The Democrat is informed it was due to a copy of the 'Export edition' of the Engineering and Mining Journal, which furnishes indispensable proof of the charge against the manufacturer until he was forced to concede an increase of ten per cent. It was granted. Congress was 'developing' the industry, you know. Five years later in 1890 the manufacturer was still 'developing' the industry, and he asked Congress to increase the duty to 25 per cent. Congress being in the 'fostering' business very cheerfully raised the duty. The manufacturer kept on 'developing' until 1898 when he went up to Congress with the plea that he was trying to 'develop' the first infant industry, and he asked Congress to increase the duty to 35 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 40 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 45 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 50 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 55 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 60 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 65 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 70 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 75 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 80 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 85 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 90 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 95 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 100 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 105 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 110 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 115 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 120 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 125 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 130 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 135 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 140 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 145 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 150 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 155 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 160 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 165 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 170 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 175 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 180 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 185 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 190 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 195 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 200 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 205 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 210 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 215 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 220 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 225 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 230 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 235 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 240 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 245 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 250 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 255 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 260 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 265 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 270 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 275 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 280 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 285 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 290 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 295 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 300 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 305 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 310 per cent. Congress being in the 'fostering' business proceeded at once to 'develop' the industry, and he asked Congress to increase the duty to 315 per cent.
