

Advance of the Pipe Brigade.
Retreat of the Cigar Cohorts.

Yes the Pipe is coming to the front as never before. The high price of good cigars is helping drive them out of use. Millions of smokers use

Blackwell's

Durham Smoking Tobacco.

The most popular Brand in the market. Smoked for over twenty years and its fame is still growing—Quality always the same.

BLACKWELL'S DURHAM TOBACCO CO.,
DURHAM, N. C.

THE MISSION OF THE BELL.

On the 4th of July, nearly 117 years ago the bell which had been consecrated at Philadelphia in the year 1776, was taken to the city of New York, and on the 10th of July, it was rung for the first time since its consecration. The bell was taken to the city of New York by the way of the Erie Canal, and on the 10th of July, it was rung for the first time since its consecration. The bell was taken to the city of New York by the way of the Erie Canal, and on the 10th of July, it was rung for the first time since its consecration.

THE CHINESE IN THE UNITED STATES.

The Chinese in the United States are generally refusing to register under the Gray law. A case touching the constitutionality of the law is pending before the Supreme court of the United States. Secretary Carlisle has issued the following instructions to United States officers:

TREASURY DEPARTMENT,
WASHINGTON, D. C., May 4, 1893.

The time within which the Chinese, laborers, required by the act of May 3, 1892, to procure certificates of residence, will expire on the 10th of July, 1893. It is evident from the partial reports made to this department by the collectors of internal revenue that in some of the States and territories large numbers of such persons have failed or refused to make application as required by the law. It is therefore necessary to issue the following instructions to United States officers and collectors of internal revenue, and to the collectors of the United States:

1. That you are to issue certificates of residence to all Chinese laborers who apply for them, and who are able to show that they are bona fide laborers, and who are not in violation of the laws of the United States.

2. That you are to refuse to issue certificates of residence to any Chinese laborer who is not able to show that he is a bona fide laborer, or who is in violation of the laws of the United States.

3. That you are to report to this department the names and residences of all Chinese laborers who are in violation of the laws of the United States.

4. That you are to report to this department the names and residences of all Chinese laborers who are not able to show that they are bona fide laborers.

5. That you are to report to this department the names and residences of all Chinese laborers who are in violation of the laws of the United States.

6. That you are to report to this department the names and residences of all Chinese laborers who are not able to show that they are bona fide laborers.

7. That you are to report to this department the names and residences of all Chinese laborers who are in violation of the laws of the United States.

8. That you are to report to this department the names and residences of all Chinese laborers who are not able to show that they are bona fide laborers.

9. That you are to report to this department the names and residences of all Chinese laborers who are in violation of the laws of the United States.

10. That you are to report to this department the names and residences of all Chinese laborers who are not able to show that they are bona fide laborers.

THE SALMON RUN.

WILMINGTON, O., May 3.—A cyclone of terrific proportions struck this beautiful city about 3 o'clock this afternoon. It rained a little about 2 o'clock and gave the appearance of clearing off a few minutes, when an ominous cloud appeared on the western horizon. The cloud attracted little attention, but the few who watched it, saw two clouds come together just west of town and form a rapidly revolving circular cloud, which struck the town in its western and traveled directly eastward, taking in the business portion of the place and leaving the wake of destruction. A lamp and a few articles were but as straws, and few were left standing that encircled the storm, wind and rain were found included in the weather-board of the houses.

After Penney.

WASHINGTON, May 3.—Editorial comment on the Penney case is being made by the press. The New York World, under the heading "Governor Penney's Insult," says: "Was it any wonder that Governor Penney, of Oregon, called himself a democrat. He is not the kind of person who respects the honor of his party. The president's message to Governor Penney was similar to communications made to other states respecting the Penney case. It will not appear Governor Penney's rudeness."

Portland, May 3.—The force in the Portland registration bureau was kept quite busy yesterday, about 50 Chinese having presented applications for registration. The office closed at 4 o'clock, and the 14,000 Chinese in this district who have not yet taken their oath of citizenship will be tried by one of the nine judges in the country May 12. Our minister has asked the president of the United States not to arrest any Chinese in this country because they did not register until the 10th of July. The president has graciously said: "Let this be your motto, and you will not be arrested."

ANOMALIES OF OUR PRIVATE PENSION SYSTEM.

Thomas F. Dennis, a pension bureau expert, describing private pension abuses in the May Forum, says that in the Lillid congress a western member introduced a bill to pension a widow, and zealously sought a favorable report from the committee on invalid pensions, who on investigation found that precisely the same bill, introduced by the same member, had been reported in 1889, and that the beneficiary had been in comfortable receipt of her pension for more than a year. In 1892 a northern member introduced a bill to restore pension to a soldier's widow. An exact duplicate of this bill had become a law in February, 1891, and the intervening year had been spent by the pension bureau in endeavoring to ascertain her post-office address. The member blushing admitted that he did not know the beneficiary and had no recollection of the matter; "and this is the pension granted by the list congress to Sarah A. Phelps still awaits a claimant!"

A New York daily paper, taking up the idea conveyed in Filanman's exciting story, "Omegs," the last days of the World, has inquired of the editor of the Chicago Tribune as to what he would do if science were to predict tomorrow that the end of the world would arrive within the next thirty days. The answers are various and curious, and heighten the interest which is felt in the second part of Filanman's great novel. It is a question which every man and woman should ask himself: "What would you do if within six weeks the end of the world were certain? Probably no one of us has ever appeared in an American magazine has been more elaborately illustrated by more distinguished artists. Larson, Sauter, Vogel, Meule, Koehne, Goussier, and all contribute to the explanation of the text.

A clever story of another kind is that of the new English novelist, Gilbert Parker, in the same number. "American Society in Paris" is an article of another kind, but one which will interest all who have had occasion to make even a short residence in the French capital. The contents of the magazine are so full of interest and so full of success in producing it. Its May number, almost simultaneously with the daily papers, an elaborate description of Professor Gray's marvelous invention, the Teletograph, which reproduces the handwriting, or the work of the artist, simultaneously, thousands of miles distant from the place where the original is written. The contents of the magazine are so full of interest and so full of success in producing it. Its May number, almost simultaneously with the daily papers, an elaborate description of Professor Gray's marvelous invention, the Teletograph, which reproduces the handwriting, or the work of the artist, simultaneously, thousands of miles distant from the place where the original is written.
