The Democrat.

The Oregonian is remarkably hot unde the collar, because, (as its editor claims to believe) the state board did the tax payers of Portland injustice in not reducing the assess" ment made in that county. The Denocrat would like to see fair dealing in taxation . t is a cardinal teact of democratic faith that axation should be equal, and Portland hould be treated fairly. The presumption s that the state board dld right in the mater. But the Oregonian is estopped from omplaning. Some years ago when Linn ounty was assessing mortages at par, Multnomah was assessing them at 50 cents on the dollar. The Oregonian raised no protest a. ainst this injustice to the people of Linn coun as to say (so we are informed) that Linn county was the father of the mortage tax law and tha we ought to bear that burden as a punishmen for passing such a law. But we do not be_ some property is assessed higher than it could now be sold for, but this is as true of Linn and other countles. It was manifest injustice on the part of the board to raise th value of town lots in Linn county to per cen The trouble in Multnomah county was, tha y escaped much of their taxes by means o arge deductions for indebtebness. Now they can not escape. The Oregonian was-alway in the lead waging heroic wasfare agains the law allowing deductions for indebtednes and the mortage tax law. It secured th vise people to be law abiding citizens.

And now a convention of wool growers is to meet in Salem short'y to make forma protest against the passage of the Wilson tariff bill. To many thoughtful people, the price of The Forum has hitherto been prehibitory; indeed all the great Reviews have been too high in price for the masses of intelligent renders. But now the number of readers of thoughtful literature -men and women who wish really to know what is going on in the world outide the narrow limits of particular sects and parties-is great enough in tho United States to warrant so revolutionary a reduction in price. The Forum discusses important subjects, but it is not dull. The literature of contemporaneous activity is, in fact, the most interesting of all literature. American citizenship implies that a map shall know the opinions of the foremost men and the latest great achievements in every direction of artivity.
