The "Royal" is shown by all tests, official, scientific, and practical, stronger, purer, and better in every way than any other Baking Powder.

If some grocers try to sell another baking powder in place of the "Royal," it is because of the greater profit. This of itself is good evidence of the superiority of the "Royal." To give greater profit the other must be a lower cost powder, and to cost less it must be made with cheaper and inferior materials, and thus less healthful and of less value to the consumer.
