The Rothell Suit. From the Times: The circuit court held a special session Thursday afternoon and Friday morning the time being taken up with the trial of the case of M. V. Leeper, as administrator of the estate of J. H. Rothell, deceased, vs. W. M. Rothell and others.

The trial was before the court without a jury and from the evidence it appeared that shortly prior to his death J. H. Rothell had decided his property to his nephew W. M. Rothell. Later Mrs. Walton petitioned for an administrator of the estate and letters being granted she presented a will in which she named J. H. Rothell as administrator for an allowance. The claim was subsequently allowed by the county court and there being no property in the estate, the administrator commenced proceedings to set aside the bequest to W. M. Rothell for the purpose of getting property to pay claims. The court reserved the matter for consideration, giving parties 10 days in which to file replies.

The rain of the last week has delayed some of our farmers, but we expect that the grain crop will all be in this week. Politicians are rather quiet now but we were all disappointed in the republican nomination for governor and we are not certain that any of us will vote for him.

We don't like to be ignored and especially when we have a man of better (better) qualified than Mr. Newcome has a position given him by Judge Brock that while it is not as good as a governor and not as honorable. The judge was very careful in his choice in the selection of judges and clerks of elections and was some time in finding a suitable "gold standard" man for judge in this precinct, and we can safely recommend his wise choice. We are ready to talk and in well read. We feel our indignation, banquets, and the Catholic mercantile advocate of the gold standard.
