

Homer Mills, of near Lebanon, returned last night from a trip to eastern Oregon. He was accompanied by Sheriff Munkers, who had been after him to Arlington, where he was arrested. Mills was indicted by the grand jury jointly with his brother-in-law, Fred W. Osborn, for the same crime. The prosecution was dropped on the ground that the crime had been committed in the city of Lebanon.

A Conflict.

From the Oregonian. A doctor residing at Lebanon, Linn county, has an order from London to ship three hundred tons of cotton bark to be paid being \$800 per ton at the railroad warehouse in Lebanon. The doctor who cut the bark to receive 25 cents per pound. The bark is to be cut in three days after the bark is taken care of about eight inches square. They are girdled, and if the weather is good, the bark will come off in three days after girdling. It comes off quite easily. But it is a death to the tree. The bark is cut in three days after girdling. The bark is cut in three days after girdling. The bark is cut in three days after girdling.

The Business Tax.

The committee on licenses have completed the draft of the new business tax ordinance which is causing so much discussion. It is substantially as heretofore, given, except that every act or carrying two or more kinds of stocks of goods shall be considered a general merchandise store and taxed accordingly. Sales do not exceed \$10,000, the tax is \$30 and over \$30,000, the tax is \$40 and over \$50,000, the tax is \$50. Licenses cannot be transferred, they expire on the first of January and the first of July and must be taken out for the full six months at the beginning but shall be secured before the 1st of next month. Two or more persons constitute a household. The tax will raise about \$100,000 for all day business in the city in addition to what is now raised. Probably an additional revenue of \$200,000 can be counted on if our business men could accept the situation.

Oakville.

Fish are plenty and the young people have plenty of time to catch them. Mrs. Mary E. Smith, of Tacoma, is visiting with her parents. Easter was observed here by the small children. They have been swinging eggs for the last month and some of them had more than they could divert while so other boys had to do without. Miss Maud Fremont, of Albany, was visiting friends here last of the month. The rainy weather has detained the farmers with their spring work. Some have not even yet plowed and but few have planted their gardens. Mr. Barton here that lays two eggs is taking a vacation. Spring term of school commenced last Monday morning. Martin Forrester, of Tangent, was in our town last week looking for a road road. Martin is in a much hurry. We don't expect to see him for some time.

Geo. D. son of Del Norte, Chahela's brother, now at Froline's livery stable, was taken out by C. E. Barrows for the inspection of Pendleton admirers of fine horses this morning. The young stallion is three years old this spring. Del Norte was also taken by Mr. Barrows, and exhibited to two dozen admiring horsemen. The stallion proves in his appearance that "blood tells" and that good breeding manifests itself in horse as well as in man. Del Norte and his brother, Chahela, are the two latest brothers in the world.—E. O.

Several members of the A. O. U. W. visited the Jefferson lodge last Saturday evening, where they were given a fine banquet. The evening previous they were at Crabtree's where they enjoyed a prosperous lodge was recently organized. Linn county is with reason building great hopes on the Bohemia mines. A prominent miner recently sold 500 acres of property in the Washington mines around Spokane for Bohemia property and says it is his best prospect for permanent and rich camp of any in the northwest. A man and his large family were in the city today on their way back from Dakota near Toledo, complaining that they had been induced to go there by the representations of a man named Panay. They are doing excellent work with very little loss while the insurgents are in the neighborhood. The 23rd U. S. Infantry have embarked for the Island Celeb, know north of the mouth of the Celeb Sea, on the island of Negros have raised an American flag and asked for American protection. It is expected that troops will be sent to the island in a few days. There will be plenty of fighting there. The Spanish could never control this island.

Cusick, of this city, has been appointed. The insurgents made threats some time ago that they would burn the city of Manila over our heads, and on the 22nd, Washington's birthday they tried to carry it out. They were prevented by showing the importance of the improvement to the valley, and Albany should be proud of it. The National Editorial Association will meet in Portland in July. During the meeting an excursion will be had up the coast. Cor. I. Albany, has been appointed. The Portland committee wish to know if Albany people desire to see the exhibition. Pure Tea FROM MANILA.

An Albany Boy Tells About the Insurgent War. MANILA, P. I., March 1, 99. Editor DEMOCRAT. As you seem to have no regular correspondent here I will endeavor to give you a few points that will probably be of some interest to the folks at home. As you are already aware on the 4th of Feb. the insurgents, who control no longer control themselves, as they do not possess the necessary arms which was the farthest extended outposts of the American forces. This is seven miles from Manila. This post was immediately strengthened by the Nebraska regiment and almost immediately all the American posts were attacked but the posts held out for 30 days. The insurgents kept up a hot fire all night. The Americans did not return the fire until they could do so with good effect. Both the positions were taken early in the evening until they were taken by the Americans. The insurgents were then charged their positions and repeatedly drove them from their positions with great slaughter. I was running their gun and I remember the terrible American right behind, playing the little game of nip and tuck and it was not until the night that the "thick" was made.
