**A Pioneer of 1845.**

**OBITUARY.**

A. S. Knox was born in Lycoming county, state of Pennsylvania, on the 11th day of December, 1825, and resided in that state until 1836, when his father moved to the then territory of Iowa and found a home in Des Moines county. Here the subject of this sketch obtained a good common school education, the best the schools of that period afforded. In 1845 the father conceived the idea of seeking a home "Where rolls the Oregon," and with him, to conceive was to execute, and in the early part of that year we see the family facing the West with the fixed purpose of building a home in the beautiful Willamette valley. The journey was successfully made; and in the fall of 1845, we find Mr. Knox, Sr., with his young family engaged in building a home at the foot of one of the most picturesque and solitary mountains or battes in Oregon, situated some four miles from the city of Albany, since then known as Knox Butte.

In 1850, A. S. Knox was married to Mary A. S. Parrish, of Marion county, Oregon, and soon thereafter located upon and made his home on a donation land claim situated on the Santiam river some ten miles east of Albany; here the best part of his life was spent. In 1870, owing to impaired health he moved to San Jose, California, and made that his home until his death, which occurred June 1, 1899, at the age of 74 years. He left surviving him his wife and adopted daughter, (no children having been born to him to bless and soothe his declining years.)

Mr. Knox was an enterprising, energetic citizen and assisted materially in developing and building up the grand country we now occupy. He was progressive in his ideas, liberal with his means and generous to a fault, many a weary and hungry emigrant enjoyed his and his excellent wife's hospitality. He leaves a record more durable than granite, written on the tablets of memory of his acquaintances and friends, of being a kind neighbor, generous friend, an honest citizen and a man among men.

The ranks of the small army of pioneers, men who laid the foundation of our social and governmental fabric are rapidly crossing that river from whence no traveler ever returns. Let us emulate their virtues and, revere their memory.

May his sleep be soft and sweet and his awakening be one of joy and gladness.

J.

U. S. Senator J. B. Foraker of Ohio, says:

We seem to have a harder job on our hands in the Philippines than we anticipated. I don't believe the newspapers are getting all the news received at the War department, but I know nothing of it personally. If more men and money are wanted, Congress will provide means. The war is not popular, though.

A crow, that had been the mascot of the volunteer companies in the Spanish war, a few days ago ate some of the canned beef brought home from Honolulu. Its days of crowing and mascotting are over.—Ex.

He prayeth best who loveth best  
All things both great and small  
For the dear God who loveth us,  
He made and loveth all.

Already on the island of Cuba there have been 2,000 saloons established by Americans. This is one of the things the United States does to build up a country it gets under control. Before anything else almost it fills it with saloons, and other things come lagging on. And yet there are people who wish to annex some of these pagan islands around the world just so we can convert the heathens. They need it certainly, but it is noticeable that the devil is just about the first to land with his rum and does more injury in a year than can be over-ruled in twenty. A more effective way might be to convert first and annex afterwards.

The report is that there is a secret effort being made in Cuba to establish a monarchy there is indeed a starting one. Securing freedom for the Cuban that he might have a monarchy would be rather hard for this great republic to consent to. The probability is that there is nothing serious in it. It may be just a political scheme to keep the island under the control of the United States as long as possible.

It is now divulged that the campaign fund of the republicans in 1896 was at least \$3,000,000. It will need to be more the coming campaign and probably will be.

**Beware of Ointments for Catarrh that Contain Mercury.**

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

**When Baby's Ill.**

When the little loved one is sick, when his brow is fevered, his pulse rapid, his features pinched with pain and there are great blue circles under his eyes, the mother hovers about the bedside, and with anxious eyes tries to read the meaning of every expression upon the physician's face.

A woman may save herself almost all of this worrying about her children if she will but take proper care of her womanly health during the period of gestation. A child born of a mother who is thoroughly healthy in a womanly way will almost unfailingly be healthy and robust.

Pierce's Favorite Prescription acts directly on the delicate and important organs that bear the burdens of maternity. It makes them well, strong and vigorous. It heals all internal ulceration and inflammation. It stops debilitating drains. It fits for motherhood and insures a healthy child. Thousands of happy mothers have testified to its merits. No honest dealer will urge you to take an inferior substitute for the little added profit it may afford him.

"A lady told me that Dr. Pierce's Favorite Prescription was good to take when with child," writes Mrs. Annie Simpson, of No. 13 Chelmsford Street, Lawrence, Mass. "I was suffering terrible pains, and was unable to get about the house without being in misery. I began taking Dr. Pierce's Favorite Prescription and the first bottle greatly relieved me. I took three bottles before my baby was born, at which time I suffered very little. The baby has been healthy since birth, and is now three months old and weighs fifteen pounds. When my older child was born I suffered terribly. I don't know how to thank Dr. Pierce enough."

They don't simply give temporary relief, but are a permanent cure—Dr. Pierce's Pleasant Pellets for constipation. They never gripe. One little "Pellet" is a gentle laxative and two a mild cathartic.
