### A Plethora of Statesmen.

From the Northwest Herald. Oregon has a surfeit of statesmen, many of them out of a job. They sit as though the world owed them a living and ought to pay it in nice, fat political offices. A few of them are not fit to associate with jack-leg lawyers who try cow cases before crossroads justices. They have assurance enough to sink a four-master and are particularly fond of telling the nation how it ought to conduct its financial problem. These pot-house politicians are long on oratory and short on mental pabulum. A new crop springs up every now and then like volunteer cats and couldn't be knocked down with a marlin spike.

The people should get rid of them if they expect any prosperity. They get themselves elected to the legislature and then they begin to enact more useless laws instead of erasing a lot of worthless and iniquitous statutes already on the books. It was Bismark who said when addressing a lot of farmers: "You should act together as a protection against the drones of society, who produce nothing but laws."

It is time to send men to the halls of state, and to relegate the apish society to oblivion. The late legislature of this state would be a disgrace to Fiji Islands.

The flag under which all women should march is the banner of good health. A woman owes it to herself, her husband and children to enlist under this flag. If she does not do so she will live a life of wretchedness.

Unless her husband is an exceptionally good man, he will become indifferent to her, her home will be unhappy and her children will be puny and sickly.

Ill-health in a woman may almost invariably be traced to weakness and disease of the female organs that are the vestibule of human life.

No woman can enjoy good general health who is dragged down by continual pain and the local weakness. Troubles of this description utterly unfit her for wifehood and motherhood. Dr. Pierce's Favorite Prescription gives health, strength, elasticity and vigor to the special organs concerned.

It makes a woman strong and healthy in a womanly way. It gives the nerves a rest from pain and an opportunity to build up. It makes motherhood safe and comparatively easy. It transforms weak, sickly, dependent women into happy, healthy wives and mothers.

Dr. Caswell, Esq. of Oshelton, Johnson Co., Kans. (P. O. Box 6), writes: "My wife was troubled with prostrations, or 'female weakness' for several years. She was not able to do her work, she had such bearing down pains and pain in her back. Her periods were irregular, varying all the way from two to six weeks. At those times she would have fainting spells so bad that I thought she could not live. She was attended by the best doctors in the country. They did her no good and she grew worse all the time. I thought I would try your medicines. By the time she had taken four bottles of the 'Golden Medical Discovery' and two of the 'Pleasant Pellets' she was completely cured."

Every day, a dose. Once you start, you can never stop them. That is the way with some so-called remedies for constipation. It is different with Dr. Pierce's Pleasant Pellets. They are a positive, complete and permanent cure for constipation and they don't become a habit. One "Pellet" is a gentle laxative and two a mild cathartic. Druggists sell them. Nothing else is "just as good."

It is a druggist's business to give you, not to tell you, what you want.
