FROM PRESIDIO.

The Albany Boys Make a Statement to their Friends.

Presento, July 21. To our Albany Friends:

We would beg leave to state our reasons for mustering out at this place Fully appreciating the desire of our parents and friends to have our home coming and muster out in their own state and home, we, by investigation found that a sum equivalent to \$35.00 could be obtained in lieu of traveling expenses. and not one by being mustered out at, this place. Now, to a private who has been spon the pay of \$15,60 per month, D. R. N. Blackburn has lately been and being forced to pay out the major portion of this petty sum for actual wants of life, it is needless to say, that Aug. 10.

The following c minittees were apquirements to outfit us as citizens. The state of Oregon, contrary to other states who have sent vo'unteers into the field of battle, has set aside no appropriation or moneys whatsoever, equal to this amount, and feeling the need of money to bridge us over the period of idleness, which will come before we can find a position to make our way independently, we deemed it expedient, not knowing that the executive committee of the Relief corps of Oregon had made strangements to provide the volunteers with positions upon our return, we accepted the governments offer of being mustered out at this place. We beg further to state that the

place. We beg further to state that the reception contemplated for us was misrepresented by those in authority.

While at Manila upon the eve of the return to our native land, we were given the privilege of a vote us to the place of muster out. Not receiving even a conrectulatory telegram or message from gratulatory telegram or message from our native state we had no knowledge of any reception or provision for the vol-unteers upon their return, and knowing that upon their return, and knowing that upon muster out at this place we would receive the sum above stated, we so voted for 'rrisco. What word was sent to Oregon as to the 'status quo' of the vote we are not in a position to state, but venture to say that it was misrepresented to the state of Oregon. Upon our e trance to 'Frisco harbor we were surprised to learn that such an elaborate prised to learn that such an elaborate reception was planned for us in Oregon. We were not aware that any appropriation equivalent to our traveling expenses had been provided for. And upon the supposition that we were to go to Oregon and lose this sum of money, caused the cry to be raised "muster out at 'Frisco."

at various times to censure us for incidents which were not in our power to change, such as the censure for lying idle change, such as the censure for lying idle in Manila while the fighting was being pressed against the Filipinos. We have striven at all times to acquit ourselves to the glory of the state, foregoing indulgences which would reflect upon the name of Oregon volunteers. How well we have done this let our record speak for ltwf. Have we received any recognition of this? During our darkest hours of battle and privation has the state sent us a message to cheer us, a other states have done? Have they informed us of preparations made for cur formed us of preparations made for our reception? No! With the exception of one company we would not have reached our individual homes any sooner by muster out at Portland. In view of these facts we chose to be made citizens at this point. Since our sojourn at the Presidio we have received letters and papers decrying our actions in this matter, inferring that we wanted no reception at the hands of the Oregon people, choosing hands of the Oregon people, choosing rather to be amongst strangers than friends. Not so! It has been represented to us that our reception in Oregon would follow our muster out and return to our native state as a body. Each and every one of us are more than eager for the embrace of dear ones at home. And to eccive this censure grieves us in the expositions of the Figure 1 of the Figure 1 of the Figure 1 of the Figure 2 of the

ent upon parents or friends at home.

Waiting eagerly for the command to homeward march, we will try to preserve our health and name for the glory of the state which launched us into the

of the state with a rena of warfare.

Very Respectfully.
