G. W. Willis and son Rockie returned last evening from a trip across the Cascades, returning by the McKenzie route. He is the most active, energetic and progressive superintendent we can hear of in the state."

The following from the Trenton, Mo. Republican refers to a gentleman who has been in the city several weeks the guest of Mr. J. A. Weaver: "Mr. C. O. Parker has selected a location at Lebanon, Oregon, where he will move his family and engage in business. Lebanon is a small town of about 1,200 people about thirteen miles southeast of Albany, at the terminus of a branch of the Southern Pacific railroad, in a good agricultural country, and not very far from the mining region. Mr. Parker has been a resident of Trenton for over twenty years, in the employ of the C. R. I. & P. railway, and has always enjoyed the confidence of the railway company and the people of the city. Trenton can ill afford to lose such citizens as he and his most excellent family. They associate in the best of society, and will be greatly missed in the social circles, in the church to which they belong, and in the works of charity, in all of which they were live members. As they have decided to change locations, the Republican joins their many friends in wishing them abundant success in their new home. The good people of Lebanon will find them valuable acquisitions to their village. May prosperity attend them."
