**MISFITS.**

Astoria is just about twice as wet as Albany. Last year the rainfall there from September 1 to Sept. 1 was 89 inches. Here it was about 45. We have no kick coming except at the inopportune time when it fell.

The Guard of Eugene states that that city has already received over two hundred feet of advertising on account of the visit by the editors. That would be 2,400 inches, which certainly is worth pretty near a dollar an inch. Albany did not receive quite as much space but all that it did receive was first-class. But then we didn't have any Skinner's butte to take up extra space. The whole state has been wonderfully benefited by the experience, say \$100,000 worth as an advertisement.

A very interesting feature of the circus is the unloading of the cars and the putting up of the tents in the early morning. It is a scene that brings back one's boyhood very vividly. This morning when Main's circus arrived and afterwards there was a crowd of boys on hand to see the proceedings and take a hand in the business sufficiently to earn their way in, for which there is always an opportunity, many boys preferring to get in that way than the usual way. Youngsters belonging to our leading families were on hand. After all there is nothing to take the place of the circus for excitement and bustle.

An exchange reports that it received the following communication from one of its patrons: "Send me a few copies of the paper which had the obituary and verses about the death of my child a month or two ago. You will please publish the enclosed clipping about my niece's marriage, and I wish you would mention in your local columns, if it doesn't cost anything, that I am going to have a public sale and will rent part of my farm; also that I have a few extra calves to sell at public auction. Send me a few copies of the paper this week; but as my time is out you may at p. my paper as times are too hard to waste money on a paper."

**THE CIRCUS.**

This is circus day, W. L. Mains circus day, the only one of the year.

It arrived by train direct from Salem and was met at an early hour. The tents were pitched inside of the city limits on Ninth street out towards the old O. & E. depot. There was the usual stir and bustle and preliminary excitement.

The usual number of side attractions were on hand, reaching down to First street.

The toy balloon man put in an early appearance. No circus is complete without him.

The parade at 11 o'clock was a long and good one, one of the best ever seen here, the horses particularly being a fine lot, and there were novelties, among others the first automobile ever in the city, occupied by Mr. Main himself and family.

The afternoon performance was in progress at press time. The circus is a big double affair and is first-class and up-to-date.

One of the circus men this morning while assisting the unloading of the cars was injured in the head, but not dangerously.

**HOME AND ABROAD.**

This is circus day, the only circus of the year in Albany.

This year's corn crop will be the largest in the history of the United States.

The death of Mrs. L. G. Kline at Corvallis will cause general regret through Oregon, where her friends were many. The deceased was a member of the Rebekahs for 43 years. The remains will be buried at the Albany Jewish cemetery tomorrow afternoon at 3 o'clock.

Dr. J. F. O'Breath was yesterday elected superintendent of the state insane asylum. He is well spoken of, and cannot help being an improvement on the present official, about whom there has at least been considerable complaint. He was a member of the senate of '95-'97.

The arrest promised for today for killing Chinese pheasants occurred last evening. E. O'Neil was the offender. Deputy Game Warden Miller caught him in the act, and getting out a warrant before Justice Powell made the formal arrest last evening.

The A. O. U. W. are making a big fight to increase the membership of the jurisdiction 25 per cent and gain the prize of \$2000 offered by the supreme lodge to jurisdiction making the biggest gain within a certain time.

E. E. Nichols, the electrician, left yesterday afternoon for Warm Springs Indian Agency in Eastern Oregon where he will install the electric light plant that was recently sold by F. R. Anson, of this city, to the government.—Salem Journal.

**Got Her Man.**—The Lebanon E. A. says of the item in the Democrat about a Miss Langly hunting for a Mr. Menlo, a performer that "The man wanted is doubtless 'Prof.' Menlo, recently of the Styker Comedy company. The young man was in Lebanon Friday, and was in Albany last week (and is probably there yet) arranging to start out with a new show, the 'Turboed Specialty Co.' The young lady was in Lebanon looking for him soon after he left this place." After the item both the young man and the young woman returned to Albany, and had a meeting. What she wanted him for is a mystery, as she refused to divulge to the Chief of Police the cause of her search.

**A MINISTER'S FINE.**—The Woodburn Independent tells of it: "Marshal Miller made a complaint before Recorder Knight that Rev. C. G. Harmon had been riding his wheel on the sidewalk. The reverend gentleman, who had thoughtlessly failed to abide by an ordinance that really cannot stand squarely on its feet, by riding his wheel 100 feet on Young street, paid the recorder an imposed fine of \$2.50 last Saturday for his transgression. It is rumored that Rev. Mr. Harmon is not the only wheelman that patronizes the walks, and that there are worse evils existing in this city right under the noses of the authorities and within their knowledge.

There was another big crowd at the Wiley B. Allen music car last evening, hearing the music and seeing the diagnosis of a high trade piano by Mr. Allen. Albany people have become greatly interested and are out in force evenings. Tonight and every night this week there will be a free concert beginning not later than 7:30 o'clock. The first night Mr. Allan offered a piano at \$100 reduction to the first person who called for it before noon. Mr. Hugh Cleek now owner of the fine Isom property, who has eight children, called before nine o'clock and received the piano.
