Washington Letter.

(From Our Regular Correspondent.)
WASHINGTON, Sept. 11th, 1899.
"End the war in the Philippines speedily, or the result will be disastrous to you and to the republican party." That is the sum and substance of what is being daily dinned into the ears of Mr. McKinley, not by his opponents, but by leading republicans, who know how unpopular that war is becoming all over the country. Mr. McKinley is gradually becoming convinced that the reaction in public sentiment concerning his Philippine policy, predicted more than a year ago by Col. Bryan, is at hand, and once fully convinced, there is no telling what he may do, for this country has never had a president who feared the public sentiment of the country as much as Mr. McKinley does, or who tried so hard to make his official acts meet its approval, regardless of his own opinion.

The most striking thing connected with the hearing on trusts, by the Industrial Commission, was a daring and somewhat scandalous attack upon Vice-Chairman Phillips of the Commission, who is connected with an independent oil company in Pennsylvania, by officials of the Standard Oil Trust. Mr. Phillips denied the charge that he had been mixed up in an offer to dicker with the Standard Oil Trust, but the charge left a bad taste in everybody's mouth, and is not calculated to add anything to the prestige of the Commission, which isn't any too great at best.

Senator Stewart is a fine specimen of stalwart radicalism in all his views. He never trims any question, and conservatism is unknown to his mind. He has got it in for France for several reasons, the latest of which is the second conviction of Dreyfus, and says that country really has no government at all and that we should break off diplomatic relations until France gets a government. The senator threatens to offer a joint resolution to that effect when Congress meets; also a bill repealing all official recognition of the exposition at Paris, next year.

The administration appears to be still determined to leave Gen. Otis in supreme command in the Philippines, although Secretary Root is understood to have recommended a change, and to favor sending Gen. Miles over there. There is politics in this determination, and it isn't the sort of politics that reflects any credit upon Mr. McKinley. The Hanna crowd are afraid of Miles now, and he should go to the Philippines and do what Otis has so signally failed to do, they would fear him still more. They know that Otis is not likely, under any circumstances, to develop popularity enough to make him a political rival of Mr. McKinley. That is why they wish to keep Otis in command, notwithstanding the overwhelming evidence from all sources, of his unfitness, not to call it by a harsher term. The agent of the non-partisan Associated Press, in a long letter from Manila, just published, after going into details, showing the failure of Otis, sums up by saying: "The secret of the whole trouble here is that the government has left a small man to deal with a most delicate problem, requiring broad statesmanship. Everyone agrees that Otis is honest, and that counts for much in a position affording such chances for dishonesty, but everyone agrees also with the most remarkable unanimity, that he has bungled affairs from the beginning."

I catness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

"No Quarters"
There is no sense in trifling with disease. Death is a foe ready enough to overpower poor humanity at the least opportunity without our adding anything to the deadly chances by uncertainty or inaction. Death is not the sort of an enemy to dilly-dally with, nor give the slightest quarter. He should be bayoneted to the earth with a sure and vigorous thrust.

There is just one medicine which can be counted on with absolute certainty to overcome the deadly assault of wasting disease and restore the rugged, masterly power of perfect health. The "Golden Medical Discovery" of Dr. R. V. Pierce of Buffalo, N. Y., creates that keen digestive and nutritive capacity, which makes healthy, nourishing red blood, and keeps it pure and alive with bounding vitality. It nourishes, vitalizes and builds up every organ and tissue in the body; tones the liver; heals the lungs; strengthens the heart, and restores complete energy and cheerfulness.

"I had been troubled for several years with spells of liver complaint," writes H. N. Dransfield, Esq., of Sweet Springs, Monroe Co., W. Va. "I tried Sarsaparilla. I was getting worse all the time. I had a weakness in my left side and pain in the stomach after eating; nerves weak, and no energy for anything. I took Dr. Pierce's Golden Medical Discovery, and began to mend from the start. I soon felt like a new person. I am now enjoying splendid health and have a splendid appetite, good digestion, and also a peaceful, quiet mind."

Dr. Pierce's thousand-page book, "The Common Sense Medical Adviser" contains over two hundred reliable prescriptions, with directions for self-treatment of all such diseases as are curable without a physician. Anatomy, physiology and the laws of reproduction are explained, with over seven hundred illustrations. One copy, paper-covered, sent absolutely free for 21 one-cent stamps, to pay cost of mailing only. Address, World's Dispensary Medical Association, Buffalo, N. Y. For a handsome cloth binding send 31 stamps.
