Exciting Runaway.

A very exciting runaway occurred yesterday afternoon about 5:15 o'clock, in this city. Mr. Ulyses G. Hale and a lady friend were returning home along Fifth street after a team from Mitchell's stables, when one of the tugs dropped down when opposite the residence of Mrs. Walter Monteth. The horses, immediately began kicking and running. To add to the danger the tug came down and the horses ran madly from side to side of the street. When opposite the rental school building the buggy was tipped over and the occupants thrown out upon the sidewalk, while the team ran on turning to ward the stables, near which they were stopped. It looked as if the occupants were certainly severely injured if not killed, but fortunately they received only a few bruises, not a bone being broken. It was a narrow and thrilling escape.

He reports times better in the north than in the southern states so far as present business goes. People everywhere are talking politics. Above all others the name of Dewey was heard. Everything was Dewey. Mr. Garland came home by the southern route.

Miss Anthony, residing across the river, had a runaway experience this afternoon. She was attending to her horse in the rear of Sternberg's store, when the animal took it into his head to leave and did so, running away, smashing the buggy seriously.

The South Dakotans will pass through Albany sometime tomorrow morning, at what hour is not yet known.

The big Prineville races began last Saturday. A race meeting in that city is generally a fast affair. Prineville though is a different city from what it was twenty years ago.

As arranged at the meeting held the first day of July last, council met at the hall of Fairmount Orange, Saturday, Oct. 7, 1899, Hon. J. H. Scott, presided.

The usual opening exercises were gone through with, when roll call of delegates showed the following granges were represented: Charity, Fairmount, Grand Prairie, Harmony, Sand Ridge and Tanager.

The question, "What effect has light literature in the home on the character of our boys and girls?" was taken up and discussed by Messrs. M. B. Shannon, Romne, Mary Walker, W. E. Olin and Leeper, and by the following gentlemen, A. D. Hale, C. H. Walker, A. L. Bridgeman and W. B. Case. This question was continued for fuller discussion at the next meeting, which will be held with Harmony grange, 1st Saturday in November.

The dinner provided by the ladies of Fairmount grange was greatly enjoyed by all, being superb, substantial and satisfying.

The hall was beautifully decorated with evergreens and flowers, and the secretary's desk was well laden with a fine display of fruits and vegetables.

The afternoon session was opened with a song rendered by Mrs. Luper, Mrs. Sedgewick and Mr. Holmes; then came a solo and encore by Master Palmer.

Questions selected for the next meeting were: 1st. "Should supervisors be elected at the regular June elections, or at a special election in early spring." Leaders, J. H. Scott, H. M. Palmer and G. L. Rees. 2d. "What can the individual members of the P. of H. do to promote a more friendly feeling among farmers, without as well within the grange, and thus build up a stronger brotherhood?" Leaders, Prof. Horner, Bert Luper and C. H. Walker.

Under good of the order remarks were made by Thos. Freeman, H. M. Palmer, L. B. Luper, C. L. Shaw, H. J. Reese, J. Clem, G. L. Rees, and J. B. Morris. Much enthusiasm was manifested, and steps taken to make the coming year a successful one for the grange interests.

There was a good attendance, and Fairmount grange nobly did its part in making the meeting a success; and the beautiful autumn day was well spent ere adjournment was taken, to gladly meet again.

SOME IMPROVEMENTS.—Several improvements are being made out around the depot part of the city. A side track is being built in front of the regular track just north of the depot, in order to accommodate the many passenger trains that frequently congregate here at the same time. On the other side the C & E have begun arrangements for the erection of a line freight depot in place of the old one. The new building will be placed on the north side of the track at a more convenient place for drays.

It was reported that Lin Tong, the Chinese druggist, had officiated in the case of a child birth at Mrs. Terburn's wherein the child was found to be badly cut, without a license for practicing. The deputy district attorney investigated the matter and failed to find evidence to justify an arrest. As nearly as can be learned the cuts on the child's head were made by a pair of shears in the hands of a woman and not by Lin Tong, who denies having attended to the case professionally, though it is possible he was at the house. He says he advised them to get Dr. Hill to attend to the matter. The child is reported to be doing well.

One of the plans under consideration for the entertainment of the Washington boys at the Seattle reception is to give them a smoker. All kinds of edibles and drinkables will be served, but no intoxicants. General Charles King, Captain Coghlan, governor, senators and representatives will be present at the banquet, and other men famous for their after dinner speeches. It will be modeled after the smoker given to the sailors of the Olympia in New York.

Owners of cement walks will confer a favor on Ex-councilman Frank Farrell if they will not make their walks quite so slippery, else he will be obliged to take to the streets until his game leg gets well, or until he succeeds in trading his crippled limb for Nick Sprenger's best one, negotiations for which are pending.

The Pacific coast has one thing which has obtained a national reputation and deservedly so. That is the California Syrup of Figs. Starting on this coast its sale has spread over the entire world. The newspapers have done much to assist in this, but it is a fact that the splendid quality of the medicine itself is what has made its popularity remain, a medicine recommended by physicians and used by well people as well as by sick people.

TUESDAY

Go Ahead, Mr. Reed.

Astoria News, Oct. 7:

Fish Commissioner Reed made an inspection of the fish ladder at the Willamette Falls yesterday. He is of the opinion that with the expenditure of about \$500 the fishway can be made to serve the purpose for which it was built more effectively. However, nothing in the way of improvement will be done until the condition of the appropriation to that end, made several years ago is ascertained. No work will likely be done on the ladder this fall. Only a small amount of the money appropriated by the state toward the construction of the Willamette falls ladder has yet been expended. An examination of the ladder shows that at present there is not enough water coming over the ladder to allow salmon to ascend, but since Chinooks are not running now it makes little difference. Some blasting will have to be done in one or two of the rock beaches so that the rests for the salmon may be broken.

About a Bridge.

The Linn county court does not intend to spend any more of the peoples money on the Stayton bridge than the situation calls for. There having been considerable controversy between the courts of Marion and Linn county over the matter we give the order of the Linn county court in full:

The communication from the Marion county court, requesting this court to join them in rethinking the entire structure known as the Stayton bridge, together with the report of a commission of viewers selected by said court, coming on for hearing at this time and after due consideration of said request and report of viewer, and after a special and careful examination of said bridge by every member of this court, together with the assistance of Mr. Frank Miller, of Albany, an expert in bridge construction, who gave each timber a close and critical examination, which examination revealed to this court and Mr. Miller nothing indicating serious decay of any of said timbers, indicating any possible danger to public travel or to safety of said structure, save and except one timber known as the Southeast main brace of the main span of said bridge, which brace is found to be decayed and mashed up 4 or 5 inches on the end that rests on sills at top of the pier. This brace is very defective, and this court has repeatedly requested the Marion county court to join us in replacing the defective brace with a new one, but have been met with a refusal at each request. And it further appearing from the report of the above named commission of viewers that they estimated the cost of repairs on said bridge to be \$3,950. And it further being not the policy or practice of this court to expend \$3,950 or any other such sum extravagantly, uselessly or without reason. Therefore it is considered, ordered and adjudged by this court that we will not appropriate \$3,950 or any other sum whatsoever to the repairing of the Stayton bridge, at this time, save and except the sum necessary to assist in replacing the end brace to main span heretofore referred to, and again, we especially request the Honorable Marion County Court to join with us in this latter necessary repair, that the safety of the structure and public travel may be preserved and that a copy of this order be filed immediately with the County Clerk of Marion county, Oregon.

On Saturday there will be a running match between Koyce's horse, Richardson's Pat Murphy and Miller's and "other races too numerous to mention."

The admission will be 15 cents. Ladies free.

If the management wish to have our citizens interested in fast horses attend they will have the running contests come off without such jockeying as was done at Lebanon, recently.

The Mormons.

From the Salem Journal.

Elders J. B. Stoney and Geo. Brunst, of the church of Jesus Christ Latter Day Saints, went to Albany today, where they will hold meetings this week. Geo. C. Peck, President of the Salem conference, has been released and returned to his home at Gentle Valley, Idaho. Two elders are working at Dallas, F. D. Bennett and Loren I. Taylor. Elders Ezra T. Campbell and Peter Nelson are working in Clackamas county, at Oregon City. A conference is to be held at Salem the latter part of October, when the President of the Northwest, F. S. Bromwell, of Parker, Idaho, will be here. He has under his direction about 150 elders in four states, Washington, Oregon, Montana and Idaho. At the Salem conference several apostles of the church may be present.

This looks as if they were working for a foothold in Oregon, but they certainly will not get much of one.
