Opinions of Otis.

The lows soldiers who have just ar ived have some very amphatic opinions bout Gen. Otie. Here are a few :

Private A. B. Evans, Company I-Our troops are good fighters, and when given a chance they whip the Filipinos numercifully. Liwton has hemmed in large bodies of hostile natives several times. Each time when he was about to attack them from all sides and capture or kill their whole army he received ordere from Otis to retreat. That is the gind of management the troops in the islands have to contend against. Otis is incompetent, but that is not his greatest fault. He doesn't want to end the rebel-

Private B, Kopp, Company I-We have enough men in the Philippines to whip three times the number of native that Aquinaldo has under his standard. The Filipinos flee like sheep before the charges of the American troops. Whenever our men have been allowed to fight they have accomplished comething. General Otis is the one man responsible for our long and costly, but fruitless, campaign. It is he who compelled our men to fall back when they had the enemy at their mercy. It seems that Ouis has no intention of ending hostilites. He is a combination of all the qualities which should not be tound in a soldier. Feeling is so high against him now that he is afraid to leave his palace.

Corporal F. G. Bassett, Company I-A year's fighting in the Philippines has captured town after town, fort after fort only to evacuate them and recapture them. No wonder the troops in the itlands are becoming discouraged: The mismanagement in the Phinppine campaign was criminal. Many a brave soldier lies in a Philippine grave, because of Otis' incompetency and gross mismanagement. I can not understand why he has been allowed to hold his position when he has proven so manifestly that he is unable to quell the insurrection. If Utie would only allow the other commanders in the islands a free rein the war wouldn't last a month. He nof only Saturday, Oct. 28 at 2 p. m. war wouldn't last a mount. but he won't allow anybody else to accomplish anything. Conditions are going from bad to worse. The Filipinos are growing more confident daily as they believe that the United States are unable to conquer them. I am certain that Otis will never end the war. It leagainst his interests to do so, and Otis never works against his personal interests. Miles is the man who we must send to end the warf withcut any more waste of lives and time.

W. A. Fleming, Company I-I am glad to be in sight of land not controlled by such a bigoted egotiet as Gen. Otis. He and he alone must answer for our lamentable condition in the Philippines. He has too big a job on his hands. He has not the brains to cope with the situation. Miles, Lawton or Wheeler could have ended the war long ago.

Corporal A. J. Frey, Company H-Old "geil-in-hand" Otis has almost come to tatoes delivered at twenty-five cents per bushel, just as they come from the field, the end of his tether, I hear. Well, I am had better see me, or drop me a note timent of every soldier who ever served under him. Some Generals not overburdened with ability have obtained the confidence and respect of their men. Otis has neither the confidence nor respect of his men; His mame is mentioned with an oath. The men hate him worse than they do the Filipinos. For the honor of our army I hope that

> Private J. C. Wright, Company F-Most of the boys over in Manila want to see General Miles sent there. The best we got from Otis was lots of hiking and hard work that bore no fruit, for the reason that when we could have demolished the Filipinos orders came from the commanding general to hold back. We were not at Malabon, but the regiments that were there say that it would have been an easy matter to surround the en emy and strike a decisive blow. What is wanted most in the Philippines is a vigorous man in charge.

Sergeant James Carroll, Company G-What, Otis! Don't mention the name of that man to any free-born soldier. There is not a man in his regiment who would serve under him, if he could do

anything else; Private Charles Myers, Company B. On several occasions if we had had the right man in the right place there would have been nodoubt as to the result. We could have gone right up against the niggers and made them quit for evermore. The trouble was that Gen. Otia would not let us do this. He wouldn't let us fight. General Wheeler would have been s good man to lead us; so would have General Lawton; but we never had a chance to display our merit under either General. We just had to stand at arms under Otis and take every insult that was offered to us.

The famous extinct volcano of Popocatapet, Mexico, has just been bought by an American syndicate, of which Senator Clark, of Montana, is one of the leading spirits. The price paid for the mountain was \$500,000 in gold. The new company will at ouce construct a cow-wheel railroad to the summit and begin working the sulphur mine deposits on a large ecale. What woman in all the wide world would not be glad to be a tandem for two happy, healthy, prattling babies?

When Nature whispers the assurance

sweet assurance in a woman's ear that soon a listle stranger will come to caress with baby fingers

her check and neck, she makes the fondest preparations for its arrival. Everything that a woman's dainty taste can imagine is provided for the new-comer's wardrobe. Nothing is overlooked save one thing, and that one thing is the most important. Too many mothers forget that baby's strength and health, its ability to withstand the usual ailments of childhood, and its vigor and welfare, as a man or woman, are dependent upon her own health and physical condition during the period of prospective maternity. If, during that critical time, she is weak, sickly, nervous and despondent, because of troubles peculiar to her sex, these conditions are bound to have their influence upon her baby's health. Neglect of these conditions invariably means that baby will be weak, puny and peevish. Dr. Pierce's Pavorite Prescription is an unfailing cure for all troubles of this nature, and it will reinforce a woman's bodily and nerve strength so that she can safely undergo the trials of maternity. It gives health, strength, vigor, clasticity and endurance to the organs specially concerned in motherhood. It gives bodily and nervous hardihood to the child.

"After using fifteen bottles of your 'Favorite Prescription' and a few vials of your 'Pleasant Pellets,' I am entirely cured of uterine trouble. I had suffered for nearly three years," writes first. P. W. Fogrel, of 373 Highland Ave., Newark, N. J. "I had such terrible bearing down pains that I could hardly walk. My back and head sched, had terrible cramps in my legs, was very nervous at times, and felt miserable. With my first child I had to be chloroformed and the child was delivered with instruments. I took the 'Favorite Prescription' with my second child, and instead of suffering for two days, I was in labor only an hour and a beautiful child was born. I was able to leave my bed the fifth day. I commenced your medicine about four months before confinement. My baby is three months old sow, and is a fine, big, fat baby. I am in very good health; have no more pains or aches. I would
