New Registration Law.

Oregon now has a registration law and every voter in the state, before being eligible to exercise his right of the franchise, must register with the clerk of his county between the first Monday in January, and 5 o'clock p. m., of the fifteen day of May, of each year in which a general state election is held.

The law provides that every elector must register, either by appearing in the office of the county clerk, or by appearing before a justice of the peace or notary public.

Under this law registrations will be made free to the county by the clerk but it will cost 10 cents apiece where made before a Justice. The clerk, of Marion county, sets a good example as follows, according to the Statesman:

County Clerk W. W. Hall, in speaking of the new law yesterday, said that he would make an effort to register every voter in Marion county, in his office, instead of having them appear before the justices of the peace and notaries public throughout the country, which latter course would in each case involve an expense of 10 cents to the county. Mr. Hall claims that nearly every voter comes to the county seat once every six months, and he is satisfied he can handle the work in his office, thus reducing the cost of the operation of the new law.

The P. O. Robbers.

There were probably three of them, small men who had been hanging around Albany for several days. After leaving Albany Sunday morning they went south. At Cottage Grove they stood a man up and knocked him down and passed on without being captured. At Roseburg they tried to sell some of the jewelry answering the description of that stolen. It is possible they may be headed off before reaching the Siskiyous. These are the present indications according to current rumors and reports on the streets.

THE CHALK TALK.—An entertainment appealing both to eye and ear. An illustrated lecture, the illustrations being swiftly executed before the eyes of the audience and "accompanied," as the Boston Transcript says, "by a running fire of humorous comment and apt happy narrative."

The Chalk Talker—Mr. Rosecrans, was formerly cartoonist on the Boston Journal and is a frequent contributor to both the literary and pictorial columns of such periodicals as Life, Truth and others. He is regarded by discriminating critics in the east as one of the cleverest Chalk-Talkers and public entertainers on the platform today.

And freight will always be high until vessels can come here loaded with goods of some kind for the people of this country. As they can now carry freight but one way, they are compelled to charge nearly double their former prices. See?—Salem Independent.

The DEMOCRAT has an opportunity of getting rich by taking stock in a Boston shoe house in payment for advertising. Another scheme to get some advertising for nothing. On every hand the newspaper man is beset with temptations, and it takes scheming to keep ahead of the people who would like to get ahead of the newspaper.

The largest purchases of hops at Salem this year were made the last three days by Jacks. Carmichael & Co., who bought 1000 bales for 10@10½ cents per pound. Only a few lots have so far been hauled to Salem.

OREGON SCHOOLS.—The report of superintendent Ackerman shows the following:

During the last school year the average length of time the schools were open in this state was 5⅔ months. During the preceding year the average over the whole state was 5⅝ months. In 1898 there were 2013 school houses in the state; in 1899 there were 2051, or an increase of 38. As the reports show that 66 were built during the year, it is to be presumed that 28 were abandoned or destroyed. There are now 79 log school houses, 1956 frame, 15 brick and one stone. The number of persons in the state between 4 and 20 years of age in 1898 was 130,750; in 1899, 132,408. Of these, 32,624 were not attending any school in 1898, and in 1899 the number was increased to 35,552. In 1898 the the total number of teachers employed was 3693; in 1899 the number was dimished to 3675.

Weddle Better.

Sheriff Munkers and Deputy Attorney Whitney returned last night from Sweet Home. Dr. J. A. Lamberson reported that Albert Weddle, stabbed by J. P. Hahn, was improving, and while his case looked serious there was a possibility of his recovery. The wounds were not as many as had been reported, there being only two stabs, one in the abdomen about an inch in length and not very deep and the other in the leg, none in the face as stated. Had the one in the abdomen been bandaged at once as it should have been the intestines would not have protruted and the wound would not have been so dangerous. Among those who helped attend Weddle before the doctor arrived was Geo. Rolfe who was with the Lospital corps at Manila.

The particulars of the affair are confusing and somewhat mixed. Five or six men were in Hahn's store when Weddle went in with his bill. Hahn was behind the counter and Weddle in front. When Hahn insisted on the $4 account of Weddle's brother being taken out of the bill a live quarrel ensued with name calling. Hahn ordered Weddle out of the store two orithree times. Not going he went around the counter at the end towards the door and struck him in the face. When Weddle got his breath he began fighting and it was kept up till the two men were outside of the door with Weddle's arm around Hahn's neck. Then it was that Hahn got his knife out of his pocket, opened it and stabbed Weddle twice. It was said that the men present made no effort to stop the contest.

The Saving of Money

by the use of Royal Baking Powder is considerable. Royal is economical, because it possesses more leavening power and goes further.

Royal saves also because it always makes fine, light, sweet food; never wastes good flour; butter and eggs.

More important still is the saving in health. Royal Baking Powder adds antidyspeptic qualities to the food.

There is no baking powder so economical in practical use, no matter how little others may cost, as the Royal

Imitation baking powders almost invariably contain alum. Alum makes the food unwholesome.

The convention adjourned with the new president in the chair, to meet next year at a place to be elected by the executive committee.

AMONG THE FILIPINOS.

A fair sized audience of Albany people last night were given as near the reality of a fight with the Filipinos as it is possible to experience, without crossing the Pacific. The lecture of Capt. H. L. Wells, of Portland, with nearly two hundred fine views presented the war with the Spaniards whom our soldiers crossed the ocean to fight and then with the Filipinos, as experienced by the 2nd regiment of Oregon, in a very life-like manner. The Captain is a good off-hand talker and his views are remarkable for the actions they present, many of them having been taken by a camera fiend right in the fight, the man stopping, taking a snap with his camera and then with his gun. For instance one of the views gives them as they had crossed the rice field at Malabon and were driving the Filipinos from the trenches, and many others showed them on the firing line in actual battle just as snapped by the camera. The Filipino with all his sneaking proclivities and cowardice stood out in bold relief and as his character was developed by the lecturer to the DEMOCRAT man he presented a mighty big pill to swallow as a fellow American citizen. In connection with a picture of the business house of Manila the statement was made that 90 per cent of the business of the island is done by Chinese, the very people whom for years we have been trying to exclude from these Pacific coast states.

The address and views were not overdrawn, for they were facts, and they certainly presented the Oregon regiment in the light we know they deserve, a splendid body of brave, well disciplined soldiers, who did their duty towards putting down these treacherous pagans.
