Quality

Never experiment with so important an article as the human food

It is the high quality of Royal Baking Powder that has established its great and world-wide reputation.

Every housewife knows she can rely upon it; that it makes the bread and biscuit more delicious and wholesome—always the finest that can be baked.

It is economy and every way better to use the Royal, whose work is always certain, never experimental.

There are many imitation baking powders, made from alum, which may cost less per pound, but their use is at the cost of health.

A Good Selection.

Gov. T. T. Geer yesterday appointed George L. Rees, of Albany, a member of the strte board of agriculture to fill the vacency created by the resignation of A. J. Johnson, of Scio. Mr. Johnson was a member and president of the old state board of agriculture, when the legislature created the new board, and he was appointed one of the members of the new organizatioh by Gov. T. T. Geer, his term of office expiring December 1, 1900. Mr. Rees, the new member of the board, is a prominent farmer and breeder of fine stock, residing near Albany. He is reported to be an excellent business man a good farmer and an enterprising citizen. The commission, evidencing his appointment, was issued to Mr. Rees yesterday and he will probably meet with the board on Tuesday evening, Dec. 12th, the time fixed for the annual meeting of the board.—Statesman. The selection of Mr. Rees will give general satisfaction. He is an agricultural rustler and a good man for the position.

PROSPECTIVE RAILROADS.— Three separate and distinct railroads are being projected toward the central portion of Oregon. One is the Columbia Southern which is being extended from Wasco toward Prineville; another is the Nevada, California & Oregon, which is being built northward from Amedee toward Lake and Klamath counties, in Oregon, and the third is the Sumpter Valley extension, which will be pushed from Sumpter toward Canyon City. In addition to these the Corvallis & Eastern has a line reaching eastward toward the the heart of Oregon; another road has been surveyed from near Medford eastward into Southeastern Oregon, and articles of incorporation filed for another, which was to run southeast from Portland through Multnomah and Clackamas counties.

With all these lines projected and some actually under construction, it will be seen that Central Oregon will find plenty of outlets for its commerce. At the present time the entire heart of Oregon is without railway facilities.—Telegram.

The Mite of Corvallis closes its account of the Eugene foot ball game in the following dramatic way: Tired, defeated, sleepy, yet hopeful for the future, the Corvallis people at last rested. The day so long looked for, from whith so much had been expected, was past. The rushing wind and black darkness ruled the earth, while far away in fair Eugene was great rejoicing.

BORN.

WATSON.—On Wednesday, Dec. 6th, to Mr. and Mrs. Frank Watson, of Albany, a daughter. Weight 8½ pounds. All doing well.

Corvallis in Danger.

From the Te'egram:

D. B. Ogden, assistant United States engineer, will leave for Corvallis tomorrow, to inspect the work being done by the government snagboat Mathloma, above that town.

The work consists of 800 feet of revetment which is being built to keep Corvallis from being left an inland town. Just above Corvallis, the river makes a sharp bend to the west toward Corvallis, and as soon as the city is passed turns sharply toward the east, leaving a peninsula opposite the city. In time of high water it is the tendency of the bulk of the stream to flow across the peninsula instead of around it, and if the government engineers had not interposed, it would have been a question of but a short time only until the river would have cut through here and left Corvallis out in the cold. In addition, it would have spoiled the river channel by spreading over greater space.

This was one of the earl est works undertaken by the government, and is one of the most necessary. There is a fall of 200 feet in the Willamette between Eugene and Corvallis, which is four times as great as the fall in the whole distance between Corvallis and Portland. It is necessary, in order to keep the channel from spreading out, not to allow the river to become any shorter, as the fall for a given distance would thus be increased.

A $1.75 Election.

They had an election at Philomath Monday, says the Times, and a correspondent writes that the well-known dollar and six-bit law suit was the issue. The result of the election was as follows: Mayor, Dr R O Loggan, recorder, W H Boles, marshal, E A Taylor, treasurer, C W Davis. Councilmen, first ward, E L Dixon, H Sheak; second, G W Scott, J Ward; third, J E Henkle, W A Jolly.

The correspondent says: "The only issue in the election was whether the voters should sustain the city council in its action in the suit at law which was recently tried in the justice court of Corvallis, and which is now on review in the circuit court. The result was almost unanimously in favor of sustaining the present council, Dr Loggan, the present mayor having been re-elected by a vote of 73 out of a total of 80. Every one of the old council who was a candidate, was returned by almost unanimous vote."

About $700 is involved in the suit. The case was won in the circuit court by the local men, but was appealed by Swinerton.

Long Ways Off.

NEW YORK, Dec. 7.—A dispatch to the Herald from Manila says:

Hope of ending the insurrection and halting military operations in the Philippines, which seemed so bright a few days ago, has again faded into the uncertain future. Nothing more is heard of having the rebellion stamped out in a few days. Field commanders now think that the end is still afar.

Fighting Ahead.

LONDON, Dec, 8, 5 A. M.—General Buller's arrival at Frere is held to indicate that all the preparations for an advance to the relief of Ladysmith are complete, and that stirring news will soon be received.

The fact that Lord Kethuen is announced as resuming his command at almost the same moment is interpreted in some quarters to mean that battles will be fought simultaneously in Natal and at Spyfontein.
