Weak Children

How sad it is to see weak children-boys and girls who are pale and thin. They cannot enjoy the sports of childhood, neither are they able to profit by school life. They are indeed to be pitied. But there is hope for them.

Scott's Emulsion

has helped such children for over a quarter of a century.

Your doctor will tell you it is both food and medicine to them. They begin to pick up at once under its use. Their color improves, the flesh becomes more firm, the weight increases and all the full life and vigor of childhood returns again. At all druggists; 50c. and \$2.00.
SCOTT & BOWNE, Chemista, New York.

NERVITA MEDICAL CO.

Clinton & Jackson Sts., CHICAGO, ILL. For sale by Fred Dawson

The death of General Lawton is a great blow to the American army in the Philippines, Lawton was one of the beet generals there, and was popular among the soldiers. The loss of Otia would not have been felt.

The reports come from the Philip pines about the Filipinos being scattered and wandering in small squads of forty or fifty, are evidently canarde. Everything goes to show that they have no trouble on occasion to get a few thousand men together. There have un doubtedly been some big mistakes made in the manner of fighting the Filipinos .

There are young men in most every community who have some of the spirit that incited young McDanial to murder the young lady with him, about which the Portland papers have been full for several months. Every respectable young lady at the first sign of too much familiarity in the young man with whom she associates should drop him. It is time the rascale who can not be gentlemen in private were sent out of respectable soc-

McDaniel, the Portland murderer deserved banging if anything. Whether he intended to strangle the girl to death or to only frighten makes no difference. Seven of the jurymen said on the first ballot that he should be hanged. Five said he should not. The five truled, and fifteen years in the penetentiary is the result. There will be tome satisfaction in his having the opportunity to contem plate his crime in the dreary jyears *bat shall follow. The case suggests the need of a change in the jury system so that at least three fourth shall convict.

Now it is declared that not a third of the resources of the Boers have been service for Albany, and you can have used in the war. If this is true the Englieb have a berculean tack before them, and they might as well as not seek a compromise of an emphatic character. Their defeat in the Transvaal means far more than that itself is concerned. All Europe is waiting to take advantage of her failure to conquer the Boer. Even her victory is fraught with danger for her, for it may mean an alliance against her on account of the junholy character of the war. England has put her feet in it in a very serious manner. It will take a'l her resources and the use of her beet minds to get out of the predicament.

The scarcity of money in Wall screet nearly caused a panic. Isn't it just what we have been demanding for several years, more money. The increase of money is not in keeping with the increase of our resources, and instead of contracting our curaency it should be increased. The free coinage of eilver would have a better effect in this line than anything else that could be done at the present time, besides benefitting a great industry. The eyes of the republican party have been opened on the tariff question, and you cannot hear a sound about high tariff any more. It will be the same way on the subject of giving enlyer the same rights and priv-

It is a great privilege to make some one happy during these holidays that come but once a year. People should open their bearts at least once in the year, unbending themselves so as to feet the great pulse beat of the world. It is as well a privilege to remember one's immediate friends in a manner that shall bind the ties that are too apt to be essily loosened anyway. The Christmas eason is one which should enlarge the hearts of mankind and make man bet" ter. Anything which has a tendency to take away the selfishness from a man's nature is a good thing for the world. This ought to do it if any thing will. If a man keeps his purse strings entirely tied this season of giving, the must be hopelessly lost. The spirit engendered now should go with one during the entire year that follows, radiating the life and easting its influence daily, not disappearing like the rainbow.

Those people who have been hoping for an early reduction of war taxes' will flud litt'e comfort in the report of the commissioner of internal revenue. In that official's annual report to the secretary of the treasuary, be gives the recelpts for the year as \$273,484,573, which is an increase over the previous year of \$102,617,000. Notwithstanding this enormons increase Commissioner Wilson urges the ammendment of the revenue law so as to require the stamping of receipts for individual deposits in banks A cit izen cannot even be allowed to draw bis money out of the bank for his own use without paying tribute to the war against the Ptilippines. Still the telegraph companies and the express companies, which have derived large benefits from the war, are exempted from the burdens which are placed on the individual citi-

Speaking of the Mormon conference in Salem the Jornal says that one of the speakers confined himself mainly to generalities, but did advance one of the ideas which seem to distinguish Mormonism from all other doctrines claiming the name of christianity, and which seems to sustain] the charge of grossness and beastiality. That is the doctrine that God is a material being like a man, with all of mans passions, a being, in fact, greatly resembling the gods of the o'd Grecian mythology. He quoted from the Bible in support of this theory, claiming that God must have body, parte and passions like a man, or He could not feet love and it could not be true that He created man in his own image,

American Beauties

There are none fairer or sweeter the world over. Unfettered and untrammeled the American woman queens it as does no other woman in the world. Yet her

ambition are often times her undoing. She attempts too much. Her health is undermined. And when health goes beauty goes also. The use of Dr. Pierce's Golden Medical Discovery re-establishes the health. It cures diseases of cures diseases of organs of digestion and assures perfect assimila-tion of food and tion of food and the proper nour-ishment of the body. It in-creases the blood supply and elim-inates the impur-ities that clog the system and

very energy and ambition are of-

cloud the complexion.

Mrs. Mary E. Lewis, of Tanner, Gilmer Co., W. Va., writes: "Dr. Pierce's Golden Medical Discovery, 'Favorite Prescription' and 'Piessant Pellets,' cured me when doctors and other medicines failed. For fifteen years I suffered untold misery. I had given up all hope of ever getting well. I could not lie down to sleep, and everything I ate would almost cramp me to death. Was very nervous and could hardly walk across the room. I only weighed minety pounds when I commenced talking these medicines six years ago; I now weigh one hundred and forty pounds and am having better health than ever before. After being sick so long I have changed to be robust and roy checked. I have taken fifteen bottles each of 'Prescription,' 'Discovery' and 'Pellets.'" cloud the complexion.

Dr. Pierce's Pleasant Pellets act gently but effectively. Women value them.

A Linn County Invention.

A land roller invented by James, W Newman, of Plainview, Linn county, is now on the market. It is owned by Roberts & Newman, and its sale will be pushed. Mr. Jas. Marks, of this city, has been appointed agent and will introduce the roller. It commends itself at a glance, being so constructed as to adjust itself to the inequalities of the ground and permits the turning of corners and the return angles at the ends of the rollers with facility. It consists of three rollers the return angles at the ends of the rows with facility. It consists of three rollers so adjusted as to run readily on all kinds of ground doing the work easily and effectively. The invention is unquestionably a fine thing and is something farmers generally will see the merit of and no doubt secure for the better farming so much needed.
