Anti trust leagues continue to "resolute" against them, but the republican Congress sits still and takes no action off any of the many bills introduced by democrats for their suppression .

Senator Vest thus sized up the repub liean policy, in a short speech : The prop caltion that the U. S. can held territory e a colonial possession and its people as assals is the most preposterous and danserous that has ever been advanced in the course of my public life.

What has become of Otis? With an army as large as that yet engaged on the British side in South Africa he has for months, reported nothing but lists of killed and wounded . For all the linformation sent by him, the war might be at a standstill.

Local politiciane must not run away with the idea that the national came paign will altogether swallow up local issues this fall. The democratic party stands for decent and honest candidates and will insist on them no matter how hot the national election may be.

Why does Great Britain seem more willing to make concessions to the United States in regard to the Nicaraguan canal than our own executive seems willing to accept? It is stated on good authority that Lord Saliebary is willing to agree to fortifications if he is asked. Why will not Hay ask him?

As events prove the President took the winning side in the Porto Rican debate. It may also be observed that if he decision had been contrary to what it was, the President would still have been on the triumphant side. He stayed on the fence until the vote was taken

The republicans have been forced to hold up the Hay-Pauncefote treaty surrender, to modify the ship subsidy steal, to compromise their platform pledges on the currency bill by inserting a clause looking to bimetallism and to modify the Porto Rican tariff in order to pass it. Altogether, the G. O. P. is in a tolerably bad position for a presidential year.

Mr. Byoum has been nominated as a member of the Board of Appraisers "as a Democrat", any his confirmation ig delayed by some pervase democratic senators who insist that he is a republican. Why not ask him for whom he intends to vote this fall? His answer might throw some light on his politics.

Governor Leary of Guam sends word by every ship which touches at his far away isle that he wants ice badly. He should have it by all means, but at the same time, such plaints would come from no other people under the sun except Americans. We are the only nation in the world who consider ice a necessity rather than a luxury.

The statement of Captain Concas, of the Maria Therees, one of the Spanish vessels engaged in the Santiago figh t er orders to ram the Brooklyn, sup-American fleet, and that he would have done so bad it not been for the outward loop of the Brooklyn ordered by Commodore Schley, of which so much has been said. This should ce rtainly settled the question.

Senator Butler, Chairman of the Populist National Committee, expresses the opinion that the attempt to create friction between the democrate and populists, will fall. Speaking of the nomination of Col. Bryan, Senator Butler said: "Bryan will be the choice of the three elemennis, the democrats, the populiets and the silver republicans. The two latter will meet on the same day, if present arrangements are carried out, and will, in all probability unite upon the same candidate for Vice President.

Visited Homer Davenport.

Dr. Lamberson in the Lebaron E A: This afternoon I called at the Journal office and hunted up my old friend Homer Davenport. He treated me like a king, and seemed to be as glad to see me as I was to see him. We sat down and had a good long talk about old times in Oregon, at the conclusion of which he begged me to stop over another day and Jersey and see his fine horses, dogs and birds. I was sorry toat I could not comply with his kind request. He gave me a photo of himself (a arge one), and I asked him to display some of his talent so I could remember him when I got home. He took a common stub pen, and in a few strokes he drew an Oregonian under a large umbrella, with the rain pouring down. This man has risen up on the hill of life just simply by making fring of people and things. I learn that he gets a salary of \$16,000 per year for his work on the Journal. His position don't turn his head, for he is the same Homer of old. In fact, I spoke to same Homer of old. In fact, I spoke to him as Mr. Davenport, but he stopped him as Mr. Davenport him as Mr. same Homer of old. In fact, I spoke
him as Mr. Davenport, but he stopped
me and sayscall me Homer. I will bring
the photo home with me, as I prize it
