

## The Prohibitionists.

Haley, Warrenton, Clatsop County; Dayton Taylor, The Dalles, Wasco County; E. O. Miller, Portland, Multnomah County; I. H. Amos, Portland, Multnomah County; F. P. Morgan, Hillsboro, Washington County; A. McElam, Milton, Umatilla County.**

It was "Resolved, That the policy of the Administration, as indicated in its protection of the liquor business in Cuba, Puerto Rico and the Philippines, is a stain on our National honor."

That the attitude of the Republican party toward the liquor-selling Army canteen should drive out of that party every loyal citizen who has heretofore voted with it.

And the democrats were condemned for not revolting on the liquor question.

Mr. E. L. Power of Lebanon now has a residence of his own, having invested this week in a pleasant place.

J. W. Peabody of Walla Walla located in Lebanon yesterday and before last evening had purchased the four acre lot of J. H. Loveall. Such men mean business.

Dr. Karl Korn of Dayton, O., is in the state looking for a location for a beet sugar factory and is raising the hopes of several places. D. Solis Cohen of Portland is one of the movers in it. A gift of 5,000 acres of land is wanted, when a factory costing \$700,000 will be erected.

F. E. Allen has sold his residence to Frank Skipton for \$1500 and will move into the Tate residence in the first ward.

### NOTICE TO STOCKHOLDERS

NOTICE IS HEREBY GIVEN THAT the annual meeting of the Albany Mining & Milling Co. will be held at the office of C. G. Burkhardt on April 28th, 1900, at 4 o'clock p. m. of said day for the purpose of electing seven directors to serve for one year and the transaction of such other business as may lawfully come before meeting. By order of the directors.  
C. G. BURKHARD, President.  
E. E. BROWNELL, Secretary.

### Mr. Tongue.

Of course Mr. Tongue was nominated at McMinnville for congress on the republican ticket. As stated by the DEMOCRAT when the first opposition to him arose it was decreed by the bosses and was bound to follow. It was a part of the work of the machine. Mr. Tongue is peculiarly a ring man, and he is just the kind of a man the politicians who manipulate conventions wanted. It was all arranged for the Linn county delegation to be elected in his interest, but circumstances arose which prevented it and a delegation in the interest of a great deal better man was elected. It was so elsewhere, and where opposition delegations were sent it was only by a scratch. In every county the men in the ring were for Tongue, and their influence was sufficient to secure the required majority on the first ballot. The people will now decide whether he shall again represent or misrepresent them in congress. The people in the valley will particularly remember the failure to secure the Yaquina appropriation. Mr. Tongue ostensibly made a showing in the effort to secure it, but there is a strong sentiment of belief that he really made little effort. From now until election day the party organs will have their hands full explaining this away, and those under the lash will fall in line regardless of their present opposition to him, while those independent enough to do their own voting will at least put in a vote that will not count for him.

Tongue represents that element in politics against which the people of the United States are generally crying and there are strong indications that the people of this district will speak in an emphatic manner on the subject.

In the Walla Walla hospital is an old and worthy pioneer from Shelton, Mason county, Wash., who is almost helpless and sadly crippled up with rheumatism says the Union. Being a brother Odd Fellow some of the members made the old man frequent and indeed welcome visits. Being informed that the ailing brother might return to his long home at any time, they asked him whether he would not like to see his wife once more. He gazed up at the ceiling for a moment and then said: "God knows I would like to see her, but to do that she would have to mortgage her little home in order to raise the money necessary, and rather than to see her with a mortgaged home, I prefer to die here alone."

A prominent member of Enterprise lodge No. 2, upon hearing this, quietly yet promptly arranged matters for the old lady to come at once. She won't have to mortgage her home, for there are good Samaritans of today, just as of yore, and of them it can never be truly said: "I was sick, and you visited me not."

Gov. Roosevelt is quoted as saying that he "wished to God we were out of the Philippines" and that President McKinley had "about as much backbone as a toy chocolate man." After this, perhaps the Republican leaders will abandon the effort to force the Governor to take the tail place on the ticket this fall in the hope of saving the Administration. If they want a hero, why don't they take Dewey. He is as softly owned up to his willingness to run at the head if the country insists. After a while, he will even put up with second place on a republican ticket.

If Great Britain went to war with Russia and fell into as many traps as she has fallen in in the South African war, can anyone tell just how serious her predicament would be?

Jim Corbett and John L. Sullivan are both said to be training hard before their phony grapple.

Senator Beveridge seems to have been paired against himself on the Porto Rican bill.

### \$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Senator Beveridge will never recover from his Porto Rican misalliance. He was the only man in all the Senate who voted for the Davis amendment and then voted for the bill without the amendment thus bowing to Hanna and the administration. Why will Senators never learn that the country will resent any enunciation of a man yielding his convictions far more than it will resent any insistence on them, no matter how unpopular they may be.

The War Department denies that it spent \$750,000 in fitting up the transport Samsen, saying that the amount was only \$250,000. But it admits that it has spent some \$4,000,000 in fitting up six other transports. Where did this money come from? Who authorized its expenditure? Certainly Congress did not. And who else has a right to direct the spending of national funds?

A Marion county man in the Salem Journal gives a republican platform as follows:

Remove bank taxes.  
Tax the Porto Ricans.  
Shoot the Filipinos.  
Damn the Dutch in South Africa.  
Pay \$545 a ton for armor plate.  
Spread civilization in the interest of the trusts.

The President recognizes the advantage that Roosevelt would bring to the ticket, but he shrinks from the contact nevertheless. He had experience with Roosevelt in the Navy Department some months ago.

The unanimity with which the Republican organs have denounced the Porto Rican bill should have warned the Senate, but it did not do so. Now the people will prepare to exact the penalty at the polls.
