Through the politeness of Professor S. P. Barrett, we are enabled to lay before our readers the following table showing the range of the Mercury for the week ending May 24th, 1873, at Baker City, Oregon:

RESIDENCE .- We this week intended to have noticed several of the new and beautiful private residences that have lately been erected in our City, but owing to want of time and space will only call attention to one of them now, that of Dr. J. The Dr. deserves credit for the good taste displayed in the building of his residence, as well as in beautifying the ground surround.

Boys should not be led into such matters by older persons, who have no respect for their own character or that of others. Our citizens will not tolerate such conduct.

Con. H. C.
