Brigham Young's Ultimatum to His Wives.

From one of his recent Sermons.

I wish my women to understand that what I am going to say is for them as well as others, and I want those who are here to tell their sisters, yes, all the women in the community. I am going to give you from this time to the 6th of October next for reflection, that you may determine whether you wish to stay with your husbands or not, and then I am going to set every woman at liberty, and say to them, "now go your way." And my wives have got to do one of two things, either round up their shoulders to endure the afflictions of this world, and live their religion--that is, polygamy-or they must leave; for I will not have them about me. I will go into heavens alone rather than have scratching and fighting about me .--I will set all at liberty. What, first wife, too? Yes, liberate you all. I want to go somewhere or do some-thing to get rid of the whiners. I do not want them to receive part of the twill sell all the right, title and interest of said Louis Rappee and T. P. Let every man thus treat his wives; keeping raiment to cover his hody and say to your wives take all body, and say to your wives, take all that I have and be set at liberty; but if you stay with me, you shall com-ply with the law of God in every respect, and that, too, without any murmuring or whining, You mustfulfill the law of God in every re-

manufacturing establishments to a town is pointedly illustrated in an incident mentioned by Dr. Morse before the St. Louis Farmers' Club. He said: A few years ago a gentleman, having invented an improvement in mowing machines, proposed to the citizens of Canton, Ohio, that they should loan him \$10,000 to manufacture them at that place .-They did it, and that one manufactory was the nucleus around which the following have gathered: Two longing. immense agricultural implement manufactories, one of plows exclusively, one of stoves and hollow ware one of paper, one of mower knives, one of saddlery and harness, two of furniture, one of horse rakes, one of farm wagons, oue of cultivators, one of wrought iron bridges, one of soap of wrought iron bridges, one of soap besides a large number of others, and all costs. more or less extensive. Those numbered are not small concerns, the machine interest alone supporting 2,500 people. The town has trebled in population, quadrupled in wealth and people, satisfied with the experand people, satisfied with the experiment, are still pushing forward in that direction. These facts were given in 1867. If we had the facts up to this date, a still more important growth would doubtless be shown, because it is like rolling a snowball —the larger the ball the more rapidly it accumulates.—Pittsburg American Farmer.

DR. GIBBON has the pleasure of announ-cing that he has returned from visiting the principal Hospitals in Europe, and has resumed practice at the Dispensary, 623 Kear-ney street, corner of Commercial, where his old patients and those requiring his services

may find him. The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

HORRIBLE DISEASES! How many thousands of persons, both male and female, are there who are suffering out a miserable existence from, the effects of secret indulgence, or from virus absorbed into the system. Look at their pal-lid, emaciated and disagured faces and their broken down constitutions, disqualf fying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians and friends attend to those who are suffering with any of these horrible, life-destroying maladiessee that they are cared for and cured before it is too late. Send them immediately to Dr. Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs.... It is important to those afflicted, or those interested in the welfare of their friends, to be careful of the many pretended' doptors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans.

SEMINAL WEAKNESS. Seminal emission—the consequence self abuse. This solitary vice, or depraved sexual indulgence, is praticed by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pains in the head, ringing in the ears, noise like rustling of leaves or rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, pimples and various eruptions about the face, hectic flushes, furred tongue, foetid breath, night sweats, monomania and frequently insanity. If relief be not obtained, should apply immediately either in person or by letter, and have a cure effected by his new and scientific mode of treating this dis-ease, which never fails in effecting a quick

and radical cure. CURED AT HOME. Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon

youth. Thin hair is thickened, fall ing hair cliecked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follieles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will present the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often 'so uncleanly and offensive. Free from those deleterious substances which make some preparat tions dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.
