What must be the condition of the blood when it is receiving and retaining each day two and a half pounds of poison? Nature tries to by the ticket holders. tains a great amount of waste material taken is receiving and retaining each day two and management of a Committee to be appointed a half pounds of poison? Nature tries to by the ticket holders. work off this poison through other chanels and organs-the kidneys lungs, skiu, etc.; but these organs become overtaxed in performing this labor, in addition to their natural functions, and cannot long withstand the pressure, but become variously diseased.

The brain, which is the great electrical centre of all vitality, is unduly stimulated by the unhealthy blood which passes to it from the heart, and it fails to perform its office healthfully. Hence the symptons of bile poisoning, which are dullness, headache, inapacity to keep the mind on any subject, impairment of memory, dizzy. sleepy, or nervous feelings, gloomy forebodings and irritability of temper. The blood itself being diseased as it forms the sweat upon the surface of the skin, it is so irritating and poisonous that it produces discolored brown spots, pimples, blotches and other eruptious, sores, boils, carbuncles and scrofulous tumors. The stomach, bowels and other organs spoken of, cannot escape becoming affected sooner or later, and costiveness, piles, dropsey, dyspepsia, diarrhoea, female weakness and many other forms of chronic disease, are among the necessary results. As a remedy for all these various manifestations of disease Dr. Pierce's Golden Medical Discovery is positively unequaled. By it the liver and stomach are changed to an active, healthy state, the regulated and restored, the blood and secretions thoroughly purified and enriched, and the whole system renovated and built up anew. Sold by all first-class druggists.
