Poisoned to Death.

A healthy liver secretes each day about two and a half pounds of bile, which con-tains a great amount of waste material taken from the blood. When the liver becomes torpid or congested, it fails to eliminate this vast amount of noxious substance, which, therefore, remains to poison the blood and be conveyed to every part of the system.— Hence the symptoms of bile poisoning, which are dullness, headache, incapacity to keep the mind on any subject, impairment of memory, dizzy, sleepy, or nervous feelings, gloomy forebodings and irritability of temper. The blood itself being diseased, as it forms the sweat upon the skin, is so irritating and poisenous that it produces discolored brown spots, pimples, blotches and other eruptions, sores, boils, carbuncles and scrofulous tumors. The stomach, bowels, and other organs become affected, sooner or later, and costiveness piles dropes described the store of later, and costiveness, piles, dropsy, dyspepsia, diarrhœa, female weakness, and many other forms of chronic disease, are among the necessary results. As a remedy for all these manifestations of disease, Dr. Pierce's Golder, Medical Discovery, and the second statement of the second statement o little son John. Pap is now back Golden Medical Discovery is positively unechanged to an active and healthy state, the appetite regulated and restored, the blood and secretions thoroughly purified and enriched, and the whole system renovated and built up anew. Sold by Druggists.

Wood. - We want, and must have, some wood at this office; also flour, as though they were present and personally superintended the management.
