

THE LAST MAN.

In Sunday's Enquirer was published a short communication asking about the existence of the Society of the Last Man, a social club which was formed in Cincinnati over forty years ago, the main point being to inquire if any members of the society still lived, and if only one were still living, who that one was. In yesterday's paper another correspondent attempts to answer the inquiry, but in so doing falls into some inaccuracies which we will attempt to correct by giving a brief story of the society, who were in it at first, and how its members dropped off year by year, until the solitary one, who still remains, became the sole living reminder of the youth, and hope, and life, and ambition that inspired those breasts now forty odd years ago.

It was one Sunday afternoon the 30th of September, in the year 1832, that several young men, all of them well known here in Cincinnati, were gathered together at the studio, of Joseph R. Mason a rising young portrait painter of that time. They were Dr. James M. Mason, Dr. J. L. Vattier, Fenton Lawson, Henry L. Tatem, William Disney, Sr., and J. R. Mason. The Asiatic Cholera, the stalking phantom of death had just arrived on our shores, and was advancing up the Mississippi, and had already reached St. Louis. The country was in a fever of alarm over the pestilence that was stalking over it, and which had thus far baffled the medical profession. Naturally enough, the conversation turned upon this subject. After it had been discussed for a while it was suggested that those present should form themselves into a society to be called the Society of the Last Man. The main idea was that they should have a banquet each year, at which places should be provided for all, and that when only one of them remained he was to drink a bottle of wine which they were to provide at first meeting and seal up for use. A mahogany casket was provided for its reception, and on the night of the first meeting the wine was procured and locked up, the key hole filled with sealing wax, and the casket sealed with the seal of the society. The key was moreover, thrown away, so that by no means could the box be opened and closed again without its being discovered.

The first meeting of the society was on the night of the 6th of October, 1832. All the members were present and the ceremony of locking up the bottle of wine was gone through with. They also cast lots for the custodianship of the casket, it being agreed that it should be confined to one member for the first year, to another for the second, and so on till it had gone around. Dr. Vattier won the lot, and in his hands it was placed for the first year. For four successive anniversaries did the society meet regularly with a full membership, all of them still living, and each one making it a point of duty to be present, no matter what else might intervene.

In June, 1827, Dr. James M. Mason died, and their mystic number, seven, was broken into, and in the following October, when their banquet took place, there was one vacant seat at the board, one plate lay on the table untouched. In November, 1839, William Stanberry died, and on the following year, when they came together again, only five sat at the table and there were two vacant places. In September, 1842, J. R. Mason, the artist, breathed his last, and the following month, when the Society of the Last Man came together, there were but four of them—three vacant chairs and three upturned plates told the story. For four successive years did these four hold their anniversary banquet with out further change, the sealed casket being handed around from year to year among those who remained. In November, 1849, William Disney died leaving but three of the seven alive. In June, 1855, Fenton Lawson's earthly career was ended, and Dr. Vattier and Henry L. Tatem were the only survivors. Mr. Tatem had possession of the casket at the time and had a morbid fear that he would be the last man, and he left with it in his possession. Two months after Lawson's death he was taken sick, and in his delirium this idea obtaining possession of his mind he cried: "Break open the casket, and pour out the wine! It's worse than a fate in haunting me!" And Dr. Vattier became the Last Man.

In October, 1865, the Last Man held his first solitary banquet at his home. Seven plates were laid, and seven chairs placed round the board. The casket was placed on the table, its seal broken and its lid pried off. The bottle of wine which for twenty three years had reposed within was opened and drunk in silence and solitude by the successor of all those seven. No one was permitted to break that solitude, and the meal was eaten and drunk without the sound of a voice. And each succeeding year, on the 6th of October, does the Last Man repeat the solitary repast, he sitting with six vacant chairs around the table, with six upturned plates on the board. And while he sits there in silence and alone there come trooping around him the memories of all those who once joined with him in the merry making, and yet the heart of the old man is as young and his feelings as tender as they were forty years ago, when he little thought of becoming the Last Man.—From the Cincinnati Enquirer.

TO THE UNFORTUNATE! NEW REMEDIES! NEW REMEDIES!

DR. GIBBON'S DISPENSARY. 623, Kearney St., Corner Commercial street, San Francisco.

Established in 1854, for the treatment of sexual and seminal diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis, all its forms, seminal weakness, impotency, etc. Skin diseases, of years standing, and ulcerated legs successfully treated. DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals in Europe, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases! How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgence, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces and their broken down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians and friends attend to those who are suffering with any of these horrible, life-destroying maladies—see that they are cured for and cured before it is too late. Send them immediately to Dr. Gibbon, a physician who has made private diseases his special study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those afflicted, or those interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans.

Seminal emission—the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combated by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pains in the head, ringing in the ears, noise like rustling of leaves or rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, pimples and various eruptions about the face, hectic flushes, furred tongue, fetid breath, night sweats, monomania and frequently insanity. If relief be not obtained, should apply immediately either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails in effecting a quick and radical cure.

CURED AT HOME. Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from postage and curiosity, to any part of the country, with full and plain directions for use. Persons writing to the Doctor will please state the name of the paper they see this advertisement in. By enclosing Ten Dollars coin, in registered letter through the Postoffice, or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union. All communications strictly confidential. Address DR. J. F. GIBBON, 623 Kearney street, San Francisco. Postoffice Box 1-957. n 11y1

Ayer's Cathartic Pills.

For the relief and cure of all derangements of the stomach, liver, and bowels. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Much serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection, and have them to take, when required. Long experience has proved them to be the safest, surest, and best of all the Pills with which the market abounds. By their occasional use, the blood is purified, the corruption of the system expelled, obstructed channels of the system cleared, and internal organs which become clogged and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be estimated. Their sugar-coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution or diet or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these Pills rapidly cure: For Dyspepsia or Indigestion, Loss of Appetite, and Loss of Sleep, they should be taken moderately to stimulate the stomach, and restore its healthy tone and action. For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which impede the secretory and Excretory, but one mild dose is generally required.

For Irritation, Gout, Gravel, Pains in the Side, Back, and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change these complaints disappear. For Dropsy and Edematous Swellings, they should be taken in large and frequent doses to produce the effect of a drastic purge. For Suppression, a large dose should be taken until it produces the desired effect by sympathy. As a Dinner Pill, take one or two Pills to promote digestion, and relieve the stomach. An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

HALL'S VEGETABLE SICCILIAN HAIR RENEWER.

Every year increases the popularity of this valuable Hair Preparation, which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR-DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."
