PRAYER MEETING.—A prayer-meeting will be held at the Court House, on Saturday evening of this week.

Meteorological Table.

Through the politeness of Professor S. P. Barrett, we are enabled to lay before our readers the following table showing the range of the Mercury for the week ending Nov. 21st, 1874, at Baker City, Oregon:

Table with 5 columns: Day, 7 A. M., 12 M., 5 P. M., 10 P. M. Rows for Sunday through Saturday, and weekly averages.

Snowed on Saturday and Sunday, 21st & 22d 5/8 inches. Total snow this season to the 22nd, 7 1/2.

Curiosities.—In the Banking House of J. W. Virtue, of this city, can be seen two of the finest Cabinets in the State, if not on the coast. The first consists of gold, silver and copper coins of all Nations, from one hundred to three hundred years old; specimens of native gold from all the Placer Mines of Eastern Oregon; African and Alaskan Diamonds; granite from Pompeii's Pillars; flowers from the Holy Land; rare shells from the South Sea Islands; rich specimens of gold and silver ores from Mexico and South America; tin ore from Cornwall, England, &c., with mammoth fossils of other ages, and petrified wood of all kinds. The second Cabinet is Mr. Virtue's "Centennial Cabinet," and being filled with specimens selected for the Great International Exhibition, at Philadelphia in 1876. In this will only be received specimens of ores from the Mines of Oregon—pieces should be at least of four pounds in weight. On each piece is labeled the name of the mine, owner, value per ton, &c. Already a large number of specimens have been contributed, among which can be seen beautiful specimens from Connor Creek, Eye Valley, Hogen, Powder River, Cabel, Virtue and J. W. Johnson & Co.'s Mines. No one can examine these Cabinets and not be convinced by what Eastern Oregon abounds in great mineral wealth, and only awaits development to make it the richest section on the coast. Travelers, prospectors and others seeking investment, should not fail to examine these Cabinets, where they can obtain full particulars pertaining to the mines and the facilities for working them. Mr. Virtue takes pleasure in giving all the information in his power to those who seek information.

CITY ELECTION.—At our City Election on last Friday the following named persons were elected. For Trustees—G. J. Bowman, J. A. Field, J. H. Parker, S. B. McCord and S. Green; for Treasurer—Sam. Ottenheimer; for Recorder—R. H. Cardwell. All Democrats except S. Green, although not a Democrat, is a first rate man. For the office of City Marshal there was a tie, but Wm. Constable received two majority to count none but the legal votes, and as a matter of justice and of right the Trustees, who have to decide this matter, will give the office to Wm. Constable.

SPRING AND BLANKS.—Persons wishing space to exhibit anything they desire to bring before the World at the Great Centennial Exhibition of 1876 can obtain the same by applying to the Centennial Commissioner, Mr. J. W. Virtue, at his Banking House, in our city, who also has all kinds of blank necessary to be used in connection with the Exhibition, which he will be pleased to supply to any who apply. Oregon, and especially Eastern Oregon which is so rich in minerals, would make a good showing at this national exhibition.

Hon. J. W. Wisdom and family returned to their home in our city, from Salem, on Monday evening. John is satisfied to be home again.

P. DE ROO, M. R. C.

From and after January 1, 1875, we have to pay the postage in advance for all of our papers that we send through the mail to subscribers. We have a large number of subscribers who are one, two and some even three years in arrears for their paper. To such we will here say that we do not in the future intend to furnish them the DEMOCRAT for nothing and pay their postage for that privilege. We claim the right to publish a list of those who are more than one year in arrears and the amount due, and when we do this we shall place such accounts in the hands of a proper person for collection. We are tired of, and ashamed to do any more, and intend to let others do so for us, with cost added. We will not pay postage for those who never pay for their paper.

Snow.—During the later part of last week snow fell in our valley to the depth of about five inches, and the atmosphere was quite cold. On Sunday night the wind changed to the south and brought rain with it, which soon carried off the snow. On Tuesday, at the time this item is being put in type, the sun is out in full force and all nature presents the appearance of early and beautiful spring, but there is no telling how long this state of things may continue—appearances are deceptive.

LADY'S BOOK.—We have received the December number of Godey's Lady's Book. It is the standard magazine of the United States for ladies, and should be found on every lady's center table. We will send an alist of names for this valuable magazine within a few days so that their subscriptions will commence with the January number. All those wishing us to send on their names will let us know the fact by the 10th of December.

FINE PIGS.—J. J. Ecoffey of our city, has several pair of full blooded Berkshire pigs, the mother of which took the premium at the late Union County Fair, which he will sell at reasonable prices. Go and look at the pigs—they are beauties.

Thanksgiving Dance.—There will be a Dancing Party at the Bedrock Hall on tomorrow [Thanksgiving] evening. The ladies of the Episcopal congregation will set a good supper at the residence of Mrs. Thos. Henderson, where those wishing can enjoy a Thanksgiving supper. Everybody are invited to attend.

Mr. Arginsinger, of Fulton Co., New York, is on a visit to his brother of this city.

There is to be a grand ball at Green's Quartz Mill, at Eye Valley on next Friday evening. This is the opening ball—everything is to be free.

BUSY DAY.—One day last week Pap Levens sold goods to the amount of sixteen hundred dollars. He is kept busy all the time putting up and shipping goods to the surrounding towns and mining camps. Pap keeps good goods and is doing a good business.

Sam. Ottenheimer is selling lots and slathers of goods cheaper than they have ever before been sold in this market. If you do not think this is so, call and price his goods.

J. B. Parker, of Wingville, is spending a few days in our city. He cannot do without the DEMOCRAT for himself and also has it sent to his mother, in Kentucky.

We are under obligations to R. Alexander, the gentlemanly clerk at Bamberger & Frank's, for favors extended to this office.

Eddy Boyd left for Walla Walla last Sunday morning. He is to become a student of Dr. C. H. Mack, the Dentist, who returned home at the same time.

THANKSGIVING.—Gov. Grover has appointed to-morrow as a day of Thanksgiving.

BORN.—On North Powder, Nov. 1874, to the wife of Walter L. Riggs, a daughter.

Lieut. Gov. Smith, spoken of in our dispatches, is the son of the late Delazon Smith, of Oregon. His name is Volney Volks Smith. Although he is a nephew of ours we do not sustain him in his course in Arkansas.

The Supreme Court of the United States decided, Nov. 16th, that the act of the Legislature of Utah, giving common law and chancery jurisdiction to the Probate Courts of that Territory, is opposed to the organic law, and is therefore null and void.

J. B. White (Ind.) is elected to Congress from the Ninth District of Kentucky.

COLD WEATHER.—The Walla Walla Union of Nov. 21st says, "During the week we have had the coldest weather of the season, thus far. There is no snow in the valley, but there is plenty of it in the mountains, and that is one reason why the air in the valley is so cold. Every night it freezes quite hard, but as yet the ice has not been more than one inch in thickness on still water. During the day the sun shines generally, but not warm enough to thaw the ground or melt the ice. Those who have been making their calculations with a view of doing their plowing this Fall have thus far been considerably disappointed. All the early part of the season the ground was too dry. When the rain came there was but a few days of good weather and it began to freeze so hard at night that it did not thaw out enough during the day to enable the farmers to do much plowing. Unless the weather shall soon change and become more favorable Fall sown wheat will be very scarce next harvest."

EXTRAS TO PAY FOR.—The New York Sun says, now that the elections are over we begin to hear of deficiencies in the departments at Washington. Congress cut down estimates for the purpose of making a pretense of economy for effect in the political campaign just ended, full understanding that it would be called upon to vote additional appropriations to make good deficiencies.

It is said that the Post Office Department will require \$1,000,000 additional for the single item of readjustment of the pay of railroads for the transportation of mail matter. It was estimated that the money necessary for this readjustment would be \$500,000; it proves that three times that amount, \$1,500,000, will be required. Those who have read the exposures in THE SUN of the enormous postal frauds perpetrated under Cresswell will not be surprised at this news, which, however, is not pleasant for tax payers in these hard times.

But for a real, rousing deficiency, what until Secor Robeson puts in his little bill for unauthorized expenditures.

A Portland (Me.) dispatch says Speaker Blaine, in a letter to the Portland Press, in response to a paragraph on him as a probable candidate for Senator, states decidedly that he would, under no circumstances, accept the Senatorship. He says: "I am engaged by, and have accepted a candidacy and election to serve the people of Kennebec District as their Representative in the Forty fourth Congress, and from that duty I could not be turned, even were the Senatorship offered. Of that I have seen no indication." He speaks in eulogistic terms of Hamlin and frankly expresses his deliberate judgement that Maine would best consult her best interest and honor by returning Hamlin to the Senate; but denies that he has used or intends to use any influence in his favor. The Press, in editorial comments, comes out strongly against Hamlin.

The Scotchman furnishes the following illustration of the camel and goat religion of some of his countrymen. A traveller says: "Sunday morning at the hotel at Dumbarton I had just got up and rung the bell for some hot water for shaving. A waiter answered my call. "I want some hot water, if you please," I said. "And for what do you want water?" "For shaving I said." "Ye canna have hot water on the Lord's Day for sic a thing as shaving," said the water horror struck at the idea. I insisted again, but with the same effect. "Na, na," said he, "ye canna have it." Necessity is the mother of invention," said, and this aroused mine. I thought if I could arrange this order in such a way that it would not effect his religious scruples he would bring it directly. I therefore proposed that I should take some toddy, and told him to bring me the material for making it, consisting of whiskey, sugar, and boiling water. These he brought without the least demur. I gave him the whiskey, which he drank, and I used the hot water."

"A Word of Joy in Every Word."—FLEMINGTON, Hunterdon Co., N. J., June 26, 1874.—Dr. R. V. Pierce, Buffalo, N. Y.: Dear Sir—It is with a happy heart that I pen these lines to acknowledge that you and your Golden Medical Discovery and Purgative Pellets are blessings to the world. These medicines cannot be too highly praised, for they have almost brought me out of the grave. Three months ago I was laid out with ulcers and sores on my body, limbs and face. I procured your Golden Medical Discovery and Purgative Pellets, and have taken six bottles, and to-day I am in good health, all those ugly ulcers having healed and left my skin in a natural, healthy condition. I thought at one time I could not be cured. Although I can but too deeply express my gratitude to you, yet there is a drop of joy in every word I write. God's blessing rest on you and your wonderful medicines in the humble prayer of Yours truly, JAMES Q. BELLS.

When a medicine will promptly cure such terrible eating ulcers and free the blood of the virulent poison causing them, who can longer doubt its wonderful virtues? Dr. Pierce, however, does not wish to place his Golden Medical Discovery in the catalogue of quack patent nostrums by recommending it to cure every disease, nor does he so recommend it; but what he does claim is this, that there is but one form of blood disease that it will not cure, and that disease is cancer. He does not recommend his Discovery for that disease, yet he knows it to be the most searching blood cleanser yet discovered, and that it will free the blood and system of all other known blood poisons, be they animal, vegetable or mine. All the Golden Discovery is warranted by him to cure the worst forms of Skin Diseases, all forms of Blotches, Pimples, and Eruptions, also all Glandular Swellings, and the worst form of Scrofulous and Ulcerated Sores of Neck, Legs or other parts, and all Scrofulous Diseases of the Bones, as White Swellings, Fever Sores, Hip Joint and Spinal Diseases, all of which belong to Scrofulous diseases.

Christmas Fair.—The Ladies of the Women's Guild, of the Episcopal Church, propose giving a Fair on one or more days immediately preceding Christmas, at which many articles of various kinds, suitable for holiday presents will be offered for sale. The Fair will be open from day to day at 7 o'clock, P. M., and the ladies will endeavor to provide suitable and attractive entertainment for their guests. There will be sale tables and a lunch table, and in addition, various general entertainments. The object is to furnish the church.

The sales of this great vegetable remedy have been quadrupled within a single year.
