

A Colorado Peculiarity.

In a recent number of the Colorado Sun we find a big bug story. The writer of the article vividly describes the modus operandi of the blood-colored vermin. In this portion of southwestern Colorado we will wager our old hat that there isn't nary a single bed-bug to be found. We are surprised to hear of such a case. But we suppose it is all true—don't doubt it. Just so. Read and believe, just as you please, what follows here: The poet what's his name feelingly remarks, "What is home without a bed-bug or two? or words to that effect. Colorado is peculiarly the home of the bed-bug. California may boast of its fleas a foot deep in some localities, but who ever saw a procession of bed-bugs a mile long—the procession we mean—except a Coloradoan. He was boarding at a small back foundry in Evans, and every night while he was saying his prayers the bugs would draw up in battle array on the bed and wait till they heard Amen! which was the signal for their onslaught. At last he got tired of having his substance consumed in riotous living, and it was then he played a very low down on those low-down vampires. He boiled brimstone and treacle together, made a circle on the carpet in the centre of the floor, placed inside of it a sheet and pillow, as though he was going to sleep there, and then sat down and waited. The enemy started out of the bed, up the wall, across the ceiling, and began propping down on the sheet by millions. When the last of the procession had straggled into the circle the boarder left them there and went to bed. This is a true story.

A friend of ours recently started out on an electioneering tour throughout the Territory. He soon returned looking the shadow of his former self, and exhibiting a strange tendency at intervals to rub himself thoughtfully and swear. He said it was bedbugs, and not jim jams that troubled him, and another friend who knew the hotel where he stopped the first night said it was very likely. By dint of great effort and repeated inquiries we managed at last to get a fragmentary description of what he insisted on calling a night of horror. It appears that the bugs were not only very numerous but quite large and exceedingly hungry, and drove him from his bed inside of fifteen minutes by the watch. He lay down upon the sofa about eight minutes and sat up in the rocking chair a little longer. By this time the attacking force had disposed of itself all over the room, and whenever he would move off in a new direction the bugs would nudge each other to keep still till he got fixed, and then they would everlastingly go for him. Finally he emptied the water pitcher into the wash bowl, placed the latter on the floor and stood up into it till morning.

A smart Aleck from Indiana arrived at a hotel in the mountains and refused to register, on the ground that he didn't want every bed-bug in the house to know the number of his room. Whereupon a disreputable boarder remarked: "Stranger don't you be alarmed; they keep runners down at the depot, and a reception committee in every room—you can't get away from them this side of the grave. About an hour later the stranger came down stairs inquiring his way to the cemetery.—San Juan Prospector.

Rev. R. M. GWINN.—Our people are always anxious to hear of an absent friend; especially one who has been endeared by religious influences, love, and true devotion. The active work, zeal and kindly influences which always surrounded Mr. Gwinn while pastor of the M. E. Church of this city, are fresh in the minds of the people and will be brought up on the mention of his name with pleasant recollections. He was not only an organizer in church society but remarkably successful as a church builder. The fine brick church edifice in our city now nearing completion, is due to his active, ardent work in raising the money, nearly all of which was in hand or subscribed before he left. His removing to another field of duty gives him only another opportunity for work. The following slip, which we cut from the Millerstown Review, will show the labors he is engaged in, and will be read with interest by his many friends in this city:

"Our new, beautiful and greatly needed church is rapidly nearing completion. It is already weather-boarded, roof on, floor laid, stoves up and one coat of plaster on. The altar, windows and doors are nearly if not quite done.

The pastor, Rev. R. M. Gwinn, whose labors have been so unceasing, feels hopeful and quite confident that it will be ready to dedicate in four weeks. This faithful Brother deserves great credit for his persevering and laudable efforts in raising the money needed to keep the work going on. His tact and energy in pushing forward this noble enterprise to so rapid a success amid untold discouragements, cannot fail to awaken the gratitude of all who are interested in the good and improvement of our town.—Boise Statesman.

The Louisiana Returning Board, after spending nearly two months in manipulating the election returns, have at last reached a result and counted in a Republican majority in the Legislature. The infamous means by which this result was reached, says a cotemporary, is

shown in the fact that the board counted out twenty-two Conservative members of the Legislature who were honestly elected, and in the case of one candidate who had received a majority of 9,500 declared his Radical competitor elected by 1,500 majority. That the usurping Kellogg ring have received assurances from the Administration in Washington that they would be sustained by the Federal Government and upheld by its full power in this outrageous work, is evident. In fact, the work of the Returning Board was delayed until that assurance could be received, and the preparations made to enforce it. The result shows that Grant will stop at nothing to retain his hold, and that of his friends upon the throats of the Southern people. What he is doing and is ready to do in Louisiana he will do in any other State if the need or the opportunity arises. That Grant is determined to force the people of Louisiana into an open resistance, is no longer a question of doubt. This purpose is boastfully acknowledged by those who stand nearest to him in Washington. He hopes to goad the people of Louisiana to a point where they will make an armed resistance to the Federal officials at New Orleans, and thus give him an opportunity to declare war, in the hope that when this happens the resistance will spread far enough for him to claim that the rebellion has been revived, and thus fire the North. This is the trick to divert attention from his deeds. It is a last desperate resort to recover his hold upon the people and secure the coveted third term. The conservative citizen should see to it that they are not caught in the trap set for them, and thus unwittingly prolong the very evils which they are now complaining of, and in an aggravated form.

New York, Jan. 7.—The following address was issued: To the citizens of New York: To-day's Associated Press dispatches of the events which took place in our sister city of New Orleans present the most marked attack upon the rights of American citizenship which has ever been made since the establishment of our government. A legislative body of our sister State peaceably assembled, has been broken into and dispersed by Federal troops, acting under orders from the President of the United States. To give expression to the outraged feelings which every citizen of a free commonwealth must experience at a crime, happily in this country so unparalleled, against the underlying principles of our Government, we ask you to assemble, irrespective of party ties; at Cooper's Institute on Monday evening, January 11th.

William C. Bryant, William H. Wickham, William M. Everts, William B. Duncan, August Belmont, Manton Marble, Whitelaw Reid, C. A. Dana, Sydney Webster and others.

WASHINGTON, Jan. 7th.—Senator Gordon has sent the following general reply to numerous telegrams received by him from New Orleans:

"To Governor McEnery, Lieutenant Governor Penn, R. H. Marr: I congratulate you on your forbearance in every wrong, and if arrests and handcuffs are resorted to, still forbear, and your rights will be vindicated by the American people. You cannot better subservise the interests of Louisiana of the South generally and of liberty, than by continued forbearance, even unto death."

WASHINGTON, Jan. 3.—It is rumored here to-night that very serious complications are likely to arise between the United States and Spain growing out of the Virginian affair and other insults offered to the American flag by Spanish cruisers on the one hand, and the filibustering expeditions from this country to Cuba on the other. It is said that the Spanish Government has given evasive and unsatisfactory answers to the repeated demands of our Government for a final settlement of the Virginian matter, and that very recently our Government has received very offensive messages from the Government at Madrid which certainly increase the difficulties of arriving at an amicable adjustment of the questions at issue between the two Governments. A prominent member of Congress is authority for the statement that this Government is fully alive to the critical situation of affairs and is quietly preparing for the worst.

Prominent officers of the army have very recently expressed an opinion that the Government was apprehensive of serious trouble with Spain, and was making preparations accordingly. The failure of the Secretary of the Treasury to announce to day a programme for the sale of gold during the month is referred to as proof that the Government is preparing for some expected trouble. The late hour at which these rumors are started renders it impossible to ascertain from official sources whether they are true or false.

Charley Drain, of Douglas county aged 13 years, sends us the following obituary notice of an old pet in his father's family: "Our old mare, Ellen, is dead. She was born in Chicago, Illinois, in the spring of 1844; she was used as a saddle and carriage animal in 1846; she hauled a peddler's wagon through the States of Illinois, Missouri and Iowa until 1852 when she was brought to Oregon by Charles Drain; she swam the Missouri, Green, Columbia and many smaller rivers; she and her mate, which is still living, brought the family carriage from Iowa to Oregon she raised 17 colts, her sons, daughters, grand-daughters, etc, now num-

ber over 100. On the morning of the 29th of December, 1874, she refused to eat for the first time, over 30 years, and died of pulmonary consumption Jan. 1, 1875. After a long life of usefulness never refusing to pull or carry her rider, she shall be buried, and the place marked as her grave."

THE TWO BREATHS.—So far as pure air is concerned, some hints are given by Canon Kingsley which may be useful even to the poor, or to employers who care for the poor. He describes what he calls "the two breaths," and their effects. The two are, of course, the breath you take in—which "is, or ought to be, pure air, composed, on the whole, of oxygen and nitrogen, with a minute portion of carbonic acid"—and the breath you give out, which "is an impure air, to which has been added among other matters which will not support life, an excess of carbonic acid." He then points out that this carbonic acid gas, when warm, is lighter than the air, and ascends; and, when at the same temperature as common air, is heavier than that air, and descends, lying along the floor, "just as it lies often in the bottom of old wells or old brewers' vats, as a stratum of poison, killing occasionally the men who descend into it." Hence a word of admonition is addressed to those who think nothing of sleeping on the floor; and hence, as "the poor are too apt, in times of distress, to pawn their bedssteads and keep their beds," the friends of the poor are entreated never to let this happen, and to "keep the bedstead, whatever else may go to save the sleeper from the carbonic acid on the floor."—Chambers' Journal.

Domestic "sauce" is kept in family jars.

PRIVATE MEDICAL AID.

QUICK CURES AND MODERATE CHARGES!

DR. W. K. DOHERTY'S PRIVATE MEDICAL AND SURGICAL INSTITUTION

No. 519, Sacramento Street,
Corner of Leidesdorff Street, a few doors below What Cheer House,
Private Entrance on Leidesdorff Street.
Established expressly to afford the Afflicted sound and Scientific Medical Aid, in the treatment and cure of all private and chronic Diseases, Cases of Secrecy, and all Sexual Disorders.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of Diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness and all the horrid consequences of self-abuse, gonorrhoea, gleet, stricture, nocturnal and diurnal emissions, sexual debility, diseases of the back and loins, inflammation of the bladder and kidneys, etc.; and he hopes that his long experience and successful practice, will continue to insure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He cures no mercury, charges moderate, treats his patients in a correct and honorable way and has references of unquestionable veracity from men of known respectability and high standing in society. All parties consulting him, by letter or otherwise, will receive the best and gentlest treatment and implicit secrecy.

To Females.

When a female is in trouble, or afflicted with disease, as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility, and all other diseases peculiar to females, she should go or write at once to the celebrated female doctor, W. K. DOHERTY, at his Medical Institute, and consult him about her troubles and disease. The Doctor is effecting more cures than any other physician in the state of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All married ladies, whose delicate health or other circumstances prevent an increase in their families, should write or call at Dr. W. K. DOHERTY'S Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the state, however distant, who may desire the opinion and advice of Dr. Doherty in their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred and confidential. If the case be fully and candidly described, personal communication will be unnecessary, as instructions for diet, regimen and the general treatment of the case itself (including the remedies) will be forwarded without delay, and in such a manner as to convey no idea of the purport of the letter or parcel so transmitted.

Consultation—By letter or otherwise FREE. Permanent cure guaranteed or no pay.

Spermatorrhea.

Dr. DOHERTY has just published an important pamphlet, embodying his own views and experiences in relation to impotence or Virility; being a Short Treatise on Spermatorrhea or Seminal Weakness, Nervous and Physical Debility, consequent on this affection, and other diseases of the sexual organs. This little work contains information of the utmost value to all, whether married or single, and will be sent FREE, by mail, on receipt of six cents in postage stamps for return postage.
Address, W. K. DOHERTY, M. D.

TO THE UNFORTUNATE!

NEW REMEDIES! NEW REMEDIES!

DR. GIBBON'S DISPENSARY.
623, Kearney St.,
Corner Commercial Street,
San Francisco.

Established in 1854, for the treatment of sexual and seminal diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, seminal weakness, impotency, etc. Skin diseases, of years standing, and ulcerated legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals in Europe, and has resumed practice at the Dispensary, 623 Kearney street, corner of Commercial, where his old patients and those requiring his services may find him.

HORRIBLE DISEASES!

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgence, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces and their broken down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians and friends attend to those who are suffering with any of these horrible, life-destroying maladies, see that they are cured for and cured before it is too late. Send them immediately to Dr. Gibbon, a physician who has made private diseases his special study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those afflicted, or those interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans.

SEMINAL WEAKNESS.

Seminal emission—the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing with morbid certainty the following train of morbid symptoms, unless combated by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pains in the head, ringing in the ears, noise like rustling of leaves or rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, pimples and various eruptions about the face, hectic fevers, rawed tongue, fetid breath, night sweats, monomania and frequently insanity. If relief be not obtained, should apply immediately either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails in effecting a quick and radical cure.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use. Persons writing to the Doctor will please state the name of the paper they see this advertisement in.

By enclosing Ten Dollars coin, in registered letter through the Postoffice, or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union.

All communications strictly confidential. Address DR. J. F. GIBBON, 623 Kearny street, San Francisco. Postoffice Box 1,957.

Ayer's Hair Vigor

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair.

It soon restores faded or gray hair to its original color, with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will present the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,
Practical and Analytical Chemists,
LOWELL, MASS.

SOLD BY ALL DRUGGISTS EVERYWHERE.

Ayer's

Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effective remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attacks of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is wise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centered on them. It acts speedily and surely against ordinary colds, screaming cough and health-restoring sleep. No one will suffer troublesome influenza and painful Bronchitis, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cold or toil is spared in making every bottle in the most perfect perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.
