

UNION ITEMS.

The following items were received too late for last week's paper: Crops in Grande Ronde Valley are better than usual. Haying is now in full blast.

Our friend, Mr. Blucker, will have a new meat market here in a few days. He proposes to sell cheaper than the old market.

N. S. Washburn is fitting up a large water-wagon for the purpose of watering our streets.

There is a chap in this town who takes great pleasure in stealing a wheel occasionally from a wagon. The best of the joke is he never returns the wheel nor informs the owner of its whereabouts.

The M. E. Church of this place is about completed, and is to have a 500 lb. bell which will be here in a short time.

S. Hannah has just completed and moved into his new store-room, which fronts on Main Street.

A new Blacksmith Shop has just been opened here, and there seems to be business for all; in fact, it is the most business like place we have seen for some time.

The servants of the people of this precinct to the Democratic County Convention, which will be held at Union on Wednesday, July 21st, are: Wm. Ficklin, A. F. Benson, J. Clark and J. D. Carroll.

Born.—To the wife of S. Long, on the 15th, a—a—darn'd if I haven't forgot which—guess its a girl. BONUS.

Knife and Fork Flirtations.

To drop your knife means, "I am badly bored."

To eat with your knife means, "I am not posted."

To drop your fork means, "I am desperately in love."

To wipe your knife on the table-cloth means, "All right."

To stir your coffee with a fork means, "How sweet you are."

To eat your soup with a fork means, "You are very beautiful."

To wet your knife on your fork means, "You see I am sharp."

To cut your mouth with a knife means, "I am very impatient."

To pick your teeth with a fork means, "I am the pick of the lot."

To wipe your nose on a napkin means, "I am making a fool of myself."

To drum on your plate with your knife and fork means, "I am almost crazy."

To scratch your head with a fork means, "I itch for an acquaintance with you."

To dip your fork in the butter means, "I am not very particular you see."

To let your knife slip and splatter the gravy out of your plate means, "I am exceedingly happy to be here."

To draw the knife half way down your throat means, "I am enjoying myself very well. I thank you."

Roll-call—A baker's visit.

A pair of tight—two drunkards.

A well-able space—a woman's face.

"Are there any fools in this city?" asked a stranger of a news-boy. "No; are you lonesome?" was the reply.

A Virginia paper announces the marriage of Miss Jane Lemon to Mr. Ebenezer Sweet; whereupon somebody perpetrates the following:

"How happy the extremes do meet In Jane and Ebenezer; She's no longer sour but sweet, And he's a lemon-squeezer!"

Very stern parent—"Come here, str.—What's this complaint the school-master has made against you?" Much figured youth—"It's just nothing at all. You see, Jimmy H. has beat a pin, and I only just left in the teacher's chair for him to look at, and he came in without his specs and sat right down on 'em, and now he wants to blame me for it."

John Rigby, of the Irish rifle team tied Fulton of the American team in shooting at Wimbledon, for the St. Ledger stakes, Saturday, making 35 points. The match will be finished by day. Mitchell (English) also tied Fulton.

Yellow fever was reported to exist at Norfolk, Virginia and caused much excitement at Washington and elsewhere. The report turned out untrue.

A Spanish man-of-war heaved a British schooner into Hayti where it was found she had a contraband cargo.

The Carlists under Pavela, are retreating upon the Amezcar Mountains toward Estella. They are pursued by General Baenda and other officers.

CURIO HAY.—Hay is also injured by being too much exposed to the rays of the sun. This causes the volatile aroma to escape, and also dissipates much of the coloring matter, as may be seen by the bleaching, and also by feeding to milk cows, from which the milk and butter will be light colored. Here comes in the value of the hay-soap, which protects the hay cock from the rays of the sun, and allows it to cure with the fine green color preserved. We write thus early that our readers may have their attention called to this important matter in season. It is one of those subjects that seem to require reiteration more than almost any other. The farmer is conservative of old habits. He has heard many say that ripe hay goes further—spends better. Yes, and brush would last still longer for fodder. The poorest fodder, undoubtedly, lasts the longest—but not the cattle. —Live Stock Journal.

WILL MARK THINGS RED HOT.—The Democratic Central Committee of Cal., met last week and resolved to make the campaign in that State "red-hot." Besides a long list of local canvassers, the Chronicle says they have secured the services of the following eminent Eastern orators for the campaign: Ex-Governor Walker of Virginia, Senator Thurman of Ohio, Sunset Cox of New York, and Chymer and Kenpell of Pennsylvania. Walker has the reputation of being a good speaker and the handsomest man ever called to a gubernatorial chair. Thurman is one of the ablest of Democratic politicians and sound on the specie question. Cox is a brilliant and witty speaker, and the terror of reporters. The two Pennsylvania gentlemen are well known, but have less reputation for rhetorical ability.

So far the American riflemen have shown themselves to be better marksmen than the English and their still and accuracy in shooting creates much applause and astonishment.

Gen. Crook has ordered released all of captured Black Hills miners upon their giving parole.

Local Agents Wanted!

An Agent wanted for each Town and County in the United States.

PARTIES DESIRING TO ACT AS Agents, must accompany their application by a letter of recommendation as to character and responsibility, from and signed by the Editor of a newspaper published in the town or county for which agent proposes to act. The agency is to be for the sale of the Industrial Exhibition Company.

Whole Bonds \$20 each.

Half " 10 "

Quarter " 5 "

The Industrial Exhibition Company will furnish agents with Circulars etc. Each newspaper publisher in the town where agent is located, will, as soon as agency is established, be given an advertisement, advertising such agency and the Company, and fully explaining the plans, purposes and objects of the Company. Such advertisement will continue in such papers, as long as agency is successfully conducted.

The Industrial Exhibition Company is the first to adopt the plan so long used by the European governments, of issuing bonds when the principal is made secure and not risked, and where there is a chance for a large profit, an investment of \$20 dollar more than cost—and the holder of a \$20 Bond, may obtain a premium, either of \$50, \$100, \$200, \$500, \$1,000, \$5,000, \$10,000, \$25,000 or \$100,000. The interest, which is ordinarily distributed to all the bond holders pro rata, is in this loan distributed by chance. The purchaser of a bond knows he will receive back his investment, with a small rate of interest added, and in consideration of taking this small rate of interest, he has a chance in the above named premiums, which are simply the distribution of interest on the whole loan.

Each bond participates in four drawings each year, until it has drawn a premium, when it is surrendered, the premium paid, and the bond cancelled.

The Industrial Exhibition Company, under special charter, granted by the State of New York, is given authority to issue these bonds. The Legislature of the State, recognizing the great benefits which will result from the success of this enterprise, have exempted all the real estate and property of the Company from taxation and assessments for five years, and has also conferred other great benefits.

Every American who understands the purposes of this Company will, of a necessity, feel a pride in aiding it to a successful termination.

Each individual who buys a bond becomes an owner and an interested party, and when he views the structure erected with his money, can say: "I aided to erect in our country, the most magnificent building the world has ever seen, a palace which, in truth represents the industry, energy and mechanical genius of the American people."

The manufacturers and the inventors of America are peculiarly interested in the success of this enterprise, for the reason that it is to be their home, where all their inventions and manufactures can be exhibited and sold.

The building will contain 5,320,000 square feet of space.

Purchasers desiring Bonds before an agency is established where they reside, will communicate direct with this office, from where they can be supplied.

Parties desiring to act as agents, or to purchase bonds will address

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No person can take these Bitters according to directions, and remain long unwell, provided their bowels are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essential. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with the BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the off-springs of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goiter, Scrofulous Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, Dr. WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory or Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Viciated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take Dr. WALKER'S VINEGAR BITTERS.

For Skin Diseases, Eruptions, Tetter, Salt-rheum, Blisters, Spots, Pimples, Pustules, Boils, Carbuncles, Ringworms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurf, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Viciated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does

surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attacks of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to neglect this defence; and it is unwise to neglect this defence; and it is unwise to neglect this defence.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass., Practical and Analytical Chemists. SOLD BY ALL DRUGGISTS EVERYWHERE.

HALL'S VEGETABLE SIGILLUM HAIR RENEWER.

Every year increases the popularity of this valuable Hair Preparation, which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR-DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

Sold by all Druggists and Dealers in Medicines. Price One Dollar.
