

DEMOCRATIC STATE PLATFORM.

The Democratic party of Oregon, in State Convention assembled, promulgates the following propositions of political faith and action:

- 1. Unflinching devotion to the cardinal principles of Republican government; as put into practical operation by the Fathers of the Republic.
2. The preservation of the general government in the proper exercise of the powers delegated to it by the Constitution, and the maintenance, inviolate, of the several States of the Union in all their rights, dignity and equality, as the most competent and reliable administration of their own domestic concerns, and the surest bulwark against the tendency toward a centralized despotism.
3. Opposition to aggressions by either department of the government, upon the functions of any other and to the exercise of Federal authority of any of the rights or powers reserved by the Constitution to the States respectively, or to the people.
4. That every attempt of the part of the Federal government to exercise any powers not delegated to it, and especially every interference by the government, or any of its departments, with the local affairs of any State, or with the rights of the people thereof to choose their own representatives, is an act of usurpation which should be repudiated and condemned by every friend of constitutional liberty.
5. We demand retrenchment, reform, and the most rigid economy in the administration of the Federal Government; the honest payment of the public debt; the sacred preservation of the public faith; strict accountability of all officers, and the speedy and impartial administration of the laws, and the protection of the rights of all; freedom of religions, of the press, and of the person, under protection of the habeas corpus, and trial by jury, impartially selected.
6. We protest against the burdens of a protective tariff, as needless exactions from a people already intolerably oppressed by a national debt, and we demand that the tariff be so regulated as to provide only sufficient revenue for an economical administration of the government, and not for the purpose of enriching the few at the expense of the many, or fostering one branch of industry to the detriment of another.
7. That the precious metals are the only basis of commercial values; that an irredeemable paper currency is a national curse, and we insist upon the speedy return by the national government to specie payments.
8. The institution of the system of national banks was a fraud upon the country and an injustice upon the laboring classes, and we demand such prudent legislation as will gradually bring the national currency to a close; that all currency which may be issued shall be convertible into coin upon demand and be issued directly by the government.
9. That the treaty between the United States and China shall be so modified as to apply solely to commercial relations.
10. That we condemn the party in power, not only for its gross and impudently dishonest obligations, but for extravagant, partisan and corrupt administration of the Federal Government; for its reckless expenditure and profligate waste of the people's money; for its oppressive, unjust and defective system of finance and taxation; for the perversion of the functions of the general government to enrich the great corporations at the expense of the people; for the jobbery and frauds which have brought reproach upon democratic institutions; for the inequities of the protective system; for the curbing of an inconvertible paper currency; for its degraded diplomatic service and unfit appointments and continuance in office of incompetent and corrupt men at home and abroad; for its attempt to pass an unconstitutional force bill, and for a catalogue of other enormities which have rendered that organization offensive to and subversive of the liberties of a free people.
11. That corporations are the creatures of law; their functions and privileges are granted to subserve the public interests, and when they are not used for the object of their creation, but for purposes of oppression and the impoverishment of the people, we demand that the legislative power to regulate and control such corporations for the public good.
12. That we disapprove of all measures in the interest of monopolies against labor, and therefore we approve of the declared principles and sympathize with the avowed objects of the order known as the Patrons of Husbandry, and with those of other orders having for their object retrenchment and reform in public affairs and the social advancement of the people.
13. That we are in favor of laboring to secure judicious appropriations from Congress for the purpose of improving our harbors along the western and northern boundaries of our State, and we demand that our representatives in Congress should use their best efforts to secure the aid of the general government for the free navigation and improvement of the Columbia river, by the construction of locks at the Cascades; the improvement of the Willamette and Cowlitz rivers; the construction of the Portland, Dalles and Salt Lake and Willamette Rivers, and the early completion of the Oregon and California Railroad from Roseburg to the State line.
14. That the policy of the Republican party in dealing with the Indian tribes is impolitic and unwise; that the lands reserved to the Indians now occupying the Umatilla, Grand Ronde and Siletz reservations should be removed to some other locality, and thus open up to settlement by whites some of the richest portions of the State.
15. That we invite the hearty co-operation of all parties, whatever may have been their past political affiliations, with us in carrying out the principles hereinafter enunciated.

WHAT IS A PRINTER.

A printer is the most curious being living. He may have a "bank" and "quoin," and not be worth a cent; have "small caps," and have neither wife nor children. Others may run fast but he gets along swifter by "sitting" fast. He may be making "impressions" without eloquence, may use the "type" without offending, and he may be telling the truth; while others cannot stand while they set, he "set" standing and do both at the same time; have to use "furniture," and yet have no dwelling; may make and put away "pits" and never see a pit, much less cut it, during his whole life; be a humbug being and a "rat" at the same time; may "press" a great deal, and not ask a favor; may handle a "shooting iron" and know nothing about a cannon, gun or pistol; he may move the "lever" that moves the world, and yet be as far from the morning globe as a hog under a molehill; spread "sheets" without being a housewife; he may lay his form in "bed" and yet be obliged to sleep on the floor; he may use the "dagger" without shedding blood, and from earth he may handle "stars"; he may be of a "rolling" disposition, and yet never desire to travel; he may have a "sheeps-foot" and never be deformed, never without a "case" and know nothing of law or physic; is always correcting his "errors" and is growing wiser every day; have "embraces" without ever having the arm of a lass thrown around him; have his "form locked up," and yet may be far from jail, watchhouse, or any other confinement; he might be plagued by the "devil," and be a Christian of the best kind. Chinese is to be taught at a Boston normal school. The girls are determined to be no longer ignorant of what is written in a fire-cracker packet and tea chest.

Local Agents Wanted!

An Agent wanted for each Town and County in the United States.

Parties desiring to act as Agents must accompany their application by a letter of recommendation as to character and responsibility, from and signed by the Editor of a newspaper published in the town or county for which they propose to act. They are to sell the bonds of the Industrial Exhibition Company.

Whole Bonds \$20 each. Half " 10 " Quarter " 5 "

The Industrial Exhibition Company will furnish agents with Circulars etc., etc. Each newspaper publisher in the town where agent is located, will, as soon as agency is established, be given an advertisement, advertising such agency and the Company, and fully explaining the plans, purposes, and objects of the Company. Such advertisement will continue in such papers, as long as agency is successfully conducted.

The Industrial Exhibition Company is the first to adopt the plan so long in use by the European governments, of issuing bonds when the principal is made secure and not risked, and where there is a chance for a premium, an investment of \$20 is sure to return to the investor \$21—one dollar more than cost—and the holder of a \$20 Bond, may obtain a premium, either of \$50, \$100, \$200, \$500, \$1,000, \$3,000, \$5,000, \$10,000, \$25,000 or \$100,000. The interest, which is ordinarily distributed to all the bond holders pro rata, is in this loan distributed by chance. The purchaser of a bond knows the exact receipt of his investment, with a small rate of interest added, and in consideration of taking this small rate of interest, he has a chance in his own mind to receive a premium, and simply the distribution of interest on the whole loan.

Each bond participates in four drawings each year, until it has drawn a premium, when it is surrendered, the premium paid, and the bond cancelled.

The Industrial Exhibition Company, under special charter, granted by the State of New York, is given authority to issue these bonds. The Legislature of the State, recognizing the great benefits which will arise from the success of this enterprise, have exempted all the real estate and property of the Company from taxation and assessments for five years, and has also conferred other great benefits.

Every American who understands the purposes of this Company will, of a necessity, feel a pride in aiding it to a successful termination.

Each individual who buys a bond becomes an owner and an interested party, and when he views the structure erected with his money, can say: "I aided to erect in our country, the most magnificent building the world has ever seen, a palace which, in truth represents the industry, energy and mechanical genius of the American people."

The manufacturers and the inventors of America are peculiarly interested in the success of this enterprise, for the reason that it is to be their home, where all their inventions and manufactures can be exhibited and sold.

The building will contain 5,320,000 square feet of space. Purchasers desiring Bonds before an agency is established where they reside, will communicate direct with this office, from where they can be supplied.

Parties desiring to act as agents, or to purchase bonds will address: INDUSTRIAL EXHIBITION CO., No. 12 East 17th Street, Bet. B'WAY & 5th AVE., NEW YORK CITY.

TO THE UNFORTUNATE!

NEW REMEDIES! NEW REMEDIES! DR. GIBBON'S DISPENSARY. 623, Kearney St., Corner Commercial Street, San Francisco.

Established in 1854, for the treatment of sexual and seminal diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, seminal weakness, impotency, etc. Skin diseases, of years standing, and ulcerated legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals in Europe, and has resumed practice at the Dispensary, 623 Kearney street, corner of Commercial, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

HOBBLE DISEASES! How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgence, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces and their broken down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life.

Let parents, guardians and friends attend to those who are suffering with any of these horrible, life-destroying maladies—see that they are cared for and cured before it is too late. Send them immediately to Dr. Gibbon, a physician who has made private diseases his special study for years, and who is certain to cure the most inveterate cases.

It is important to those afflicted, or those interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans.

SEMINAL WEAKNESS. Seminal emission—the consequence of self abuse, the solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combated by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pains in the head, ringing in the ears, noise like rattling of leaves or rattling of chariots—measiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, pimples and various eruptions about the face, hectic flushes, furred tongue, foetid breath, night sweats, monomania and frequently insanity. If relief be not obtained, should apply immediately either in person or by letter, and have a cure effected by his new scientific mode of treating this disease, which never fails in effecting a quick and radical cure.

CURED AT HOME. Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use.

Persons writing to the Doctor will please state the name of the paper they see this advertisement in. Enclosing Ten Dollars coin, in registered letter through the Postoffice, or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union.

All communications strictly confidential. Address DR. J. F. GIBBON, 623 Kearney street, San Francisco. Postoffice Box 1, 957. n 1127

EVERY Day an Increase in Flesh and Weight is Seen and Felt. THE GREAT BLOOD PURIFIER. Every drop of the SARSAPARILLIAN RESOLVENT communicates through the Blood, Sweat, Urine, and other fluids and juices of the system the vigor of life, for it purifies the wastes of the body with new and sound material. Scrofula, Syphilis, Consumption, Glandular disease, Ulcers in the Throat, Mouth, Tumors, Nodes in the Glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst form of Skin Diseases, Eruptions, Fever Sore, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Acne, Skin Spots, Warts in the Flesh, Tumors, Cancer in the Womb, and all weakening and painful discharges, Night Sweats, Loss of Sperm, and all wastes of the life principle, are within the curative range of this wonder of Modern Chemistry, and a few days' use will prove to any person sick if either of these forms of disease its potent power to cure them.

It is widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years, with a constantly growing reputation, based on its intrinsic virtues, and sustained by its remarkable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination. Impurities or diseases that have lurked in the system for years soon yield to this powerful antidote, and disappear. Hence its wonderful cures, many of which are publicly known, of Scrofula, and all scrofulous diseases, Ulcers, Eruptions, and eruptive disorders of the skin, Tumors, Blotches, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, and internal Ulcerations of the Uterus, Stomach, and Liver. It also cures other complaints, to which it would not seem especially adapted, such as Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility, and Leucorrhoea, when they are manifestations of the scrofulous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the season. Even where no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of life.

HALL'S VEGETABLE SICIALIAN HAIR RENEWER.

Every year increases the popularity of this valuable Hair Preparation, which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken.

The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR-DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

Sold by all Druggists and Dealers in Medicines. Price One Dollar.
