Mrs. Colliers, a Springfield spiritualism medium, has retired from public business. In a published card she says: "I have long thought, and I now know, that it is impossi-ble for a medium to be absolutely strictly honest and get adequate remuneration for the time and trouble expended."

A lucrative opening for young ladies has been made by the decision of an Indiana court that the fact of a girl being engaged to several gentlemen at once is no bar to her sueing each of them for breach of promise.

THERE are three lady editors in California - Mrs. Russel, of the Santa Barbara Index, Mrs. Gordon, of the Stockton Leader, and Mrs. Lynch, of the Mondocino Dispatch, and they all publish Democratic papers.

The meanest man in America was a member of the last General Assembly of Ohio. He bargained for board and lodging at the United States Hotel, at Columbus, and arraigned that he was to pay fifty cents a meal, and whenever he was absent he was to be credited that amount. He then hunted up some cousins in the vicinity, an old schoolmate, a man who had once courted the member's wife, and sponged his living off them for the larger part of the session. When he settled up with the hotel, on the day of adjournment, the landlord was astonished to find that he owed his thrifty boarder seventysix dollars, the amount credited him for absence at meals over that charged for presence at meals.

Somebody wrote to the editor of a country paper to ask how he would 'break an ox?' The editor answered as follows: 'If only one ox a good way would be to hoist him, by means of a long chain attached to his tail, to the top of a forty foot pole forty feet from the ground then hoist him, by a. rope tied to his horns, to another pole .-Then decend on his back a five-ton pile driver, and if that don't break him, let him start a country newspaper and trust people for subscription. One of the two ways will do it sure,'

A country clergyman just recovering from the effects of a severe boil on his nose, stopped an urchin near Fort Green, yesterday, and asked him the way to the corner of Fulton and Clinton streets. Result of the Democratic Rule.

Another of the beneficent consequences of restoring the Democratic party to power is given by the New York Bulletin, a commercial organ, as follows:

But recently we had the pleasure of noting that one of the hitherto defaulting Southern State has made provision for meeting its July interest. The State was Arkansas, which is fast redeeming its credit and recovering its prosperity under its new and popular regime. The telegraph announces that another of the delinquent Southern States has already begun paying the July interest on its new consolidated bonds. This is one of the first fruits. as in Arkansas, of the new administration of the Government of this State, in which the people have but recently secured a voice. No better results are needed to vindicate the South in its right of self-government, and no further comment is needed to characterise the former management of its affairs. In view of these facts and these States for the current season it may safely be concluded that the present is the only road to the full return of prosperity, redemption of credit and honest government in the South.

NOT AT ISSUE.

The issue now before the people is not so much as to who will be the next Congressman as it is whether they will support the administration that has been ruling the State for the last five years or try

ling the State for the last five years or try and secure a change.

Beg pardon, Mr. Plaindealer, but you are not dealing very honestly if you are plain. The State Administration is not on trial. It is the National Administration. It is in the halls of Congress that Mr. Lane's voice is to be heard. We propose to fight the State campaign next spring. Don't hurry up matters. Let us see first whether the people will endorse Grant and his clique of office-holders in Oregon. That is the present issue, and not the State. No wonder the Radical editors wish to change the contest. The Democracy are on the aggressive, and the Radicals must defend their cause before the people. Mr. Lane's vote is wanted in Congress against Federal usurpations, corruptions and the third term. He has no voice or power to correct State irregularities. no voice or power to correct State irregu-larities. We do not want a vote from Oregon in Congress which will be an endorsement of the Force Act, the Civil Rights Bill, and the other outrages, too numerous to mention.-Enterprise.

Local Agents Wanted! An Agent wanted for each Town and County in the United Statrs.

PARTIES DESIRING TO ACT AS Agents, must accompany their application by a letter of recommendation as to character and responsibility, from and signed by the Editor of a newspaper published in the town or county for which agent proposes to act. The agency is to sell the bonds of the Industrial Exhibition Company.

Whole Bonds \$20 each. Quarter " 5

The Industrial Exhibition Company will furnish agents with Circulars etc., etc. Each newspaper publisher in the town where agent is located, will, as soon as agency is established, be given an advertisement, advertising such agency and the Company, and fully explaining the plans, purposes and objects of the Company. Such advertisement will continue in such purposes fas long as agency is successfully papers, (as long as agency is successfully conducted.

The Industrial Exhibition Company is the first to adopt the plan so long in use by the European governments, of issuing bonds when the principal is made secure and not risked, and where there is a chance for a large premium, an investment of \$20 is sure to return to the investor \$21—one dollar more than each and the industrial is sure to return to the investor \$21—one dollar more than cost—and the holder of a \$20 Bond, may obtain a premium, either of \$50, \$100, \$200, \$500, \$1,000, \$3,000, \$5,000, \$10,000, \$25,000 or \$10,000. The interest, which is ordinarily distributed to all the bond holders pro rata, is in this loan distributed by chance. The purchaser of a bond knows he will receive back his investment, with a small rate of interest added, and in consideration of taking this small rate of interest, he has a chance in the above named premiums, which are simply the distribution of interest on the whole loan. whole loan.

Each bond participates in four drawings each year, until it has drawn a premium, when it is surrendered, the premium paid, and the bond cancelled.

The Industrial Exhibition Company, under special charter, granted by the state of New York, is given authority to issue these bonds. The Legislature of the State, recognizing the great benefits which will arise from the success of this enterprise, have exempted all the real estate and property of the Company from taxation and assessments for five years, and has also conferred other great benefits.

Every American who understands the purposes of this company will, of a necessity, feel a pride in aiding it to a success-

ful termination. Each individual who buys a bond becomes an owner and an interested party, and when he views the structure erected with his money, can say: "I aided to erect in our country, the most magnificent building the world has ever seen, a palace which, in truth represents the industry, energy and mechanical genius of the American people."

The manufacturers and the inventors of America are peculiarly interested in the success of this enterprise, for the reason that it is to be their home, where all their inventions and manufactures can be exhibited and sold.

The building will contain 5,320,000 square feet of space.

Purchasers desiring Bonds before an agency is established where they reside, will communicate direct with this office, from where they can be supplied.

Parties desiring to act as agents, or to purchase bonds will address INDUSTRIAL EXHIBITION CO.,

HORRIBLE DISEASES! How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the eftects of secret indulgence, or from virus absorbed into the system. Look at their paliid, emaciated and distigured faces and their broken down constitutions, disquali fying them for the happiness of marriage or the enjoyment of life. In this horrid situa-tion thousands suffer until death closes the scene. Let parents, guardians and friends attend to those who are suffering with any or mese horrible, life-destroying maladiessee that they are cared for and cured before Dr. Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those afflicted, or those interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans.

SEMINAL WEAKNESS. Seminal emission—the consequence of self abuse. This solitary vice, or depraved sexual indulgence, is praticed by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pains in the head, ringing in the ears, noise like rustling of leaves or rattling of chariots uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence in approaching strangers, a dislike to form new acquaintanes, a disposition to shun society, loss o. memory, pumples and various eruptions bout the face, hectic flushes, furred tongue, metid breath, night sweats, monomania and frequently insanity. If relief be not obtained, should apply immediately either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails in effecting a quick

and radical cure. CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use.
