

Mr. Warner, a respectable and lawabiding citizen of Baker street, rode home in an express wagon the other day, having a hand fire extinguisher and the driver for company.

'What's that thing?' asked his wife in contemptuous tones, as she opened the hall door.

'What's that?' Why that's a fire extinguisher—best thing you ever saw—moant to have got one a year ago.'

'Jacob, you are always making a fool of yourself,' she continued as she shut the door. 'Every patent right man gets around you as a cat lays for a mouse.'

'Does, eh? If you know anything at all you'd know that every store and office in Detroit has one o' these. They've saved lots of buildings, and may save ours.'

'You throw it at the fire, don't you?' she asked in sarcastic tones.

He carried it up stairs into the closet with out replying, and she followed and asked: 'Don't it shoot a fire out?'

'If you don't know anything, I'll learn you something! It is full of chemicals; you strike on this knob on top and she's all ready to open this facet and play on the fire.'

She grinned as she walked around it, and finally asked: 'Do you have a horse to draw it around?'

'No, I don't have a horse to draw it around. You see these straps? Well, I back up, put my arms through them, and here it is on my back.'

'I see it is,' she sneered.

'And can't I run to any part of the house with it?' he demanded. 'See, see!—'

And he cantered along the hall, into the bedrooms and out, and was turning the head of the stairs when his foot caught in the carpet. He threw up his arms, she grabbed at him and both rolled down stairs. He yelled and she yelled. Sometimes he was ahead, and then she took the lead, and neither of them had passed under the "string" when the extinguisher, bumping and jamming, began to shoot off its charge of chemicals.

'You old—!' she started to say, when a stream from the nose struck her between the eyes, and she didn't finish.

'What in—o-n-c-h!' roared Mr. Warner, as he got a dose in his ear.

'They brought up in a heap at the bottom of the stairs, the stream playing into the parlor, against the hall door, and up stairs by turns, and she gasped:

'I'll have you sent to a fool asylum!'

'Who's a fool?' he roared, dancing around with his eyes full of chemicals.

'I'm fainting!' she squeaked.

'And I've broken my back!' he shouted. It was a sad scene when those two highly respectable old people got so they could use their eyes and discuss matters calmly. And she doubled up her fist and hoarsely said:

'Take that investigator, or distinguisher, or whatever you call it, back down town, and tell everybody that you are a limatic.'

And he said: 'Dummit, I know more than all your family put together.'

A RACY SKETCH.

A few days since some roguish boys in a town not a thousand miles away from the Capital of New Hampshire, persuaded Joseph N—, or as he was generally called, 'Joe,' to attend Sunday school.

Joe, was an overgrown, half-witted profane lad, and the boys anticipated considerable fun—but the various questions put to him were so rapidly and correctly answered that no one could for a moment suppose that he was not versed in theological lore.

Joe was duly ushered in and placed on a settee, in front of one on which his friends were seated, and recitation commenced.

The teacher first questioned the class on their regular lessons, and afterward turned towards Joe:

'My friend, who made the world that we inhabit?'

'Eh?' said Joe, turning up his eyes like an expiring calf.

'Who made the world that we inhabit?'

Just as he was probably about to answer the question, one of the boys seated behind inserted a pin into Joe's pants, about nine inches below the ornamental buttons on his coat.

'God Almighty,' answered Joe, in a slightly elevated tone, at the same time rising to his feet.

'That is correct,' replied the teacher, 'but it is not necessary that you should rise in answering.'

Joe was seated, and the catechism once more proceeded.

'Who died to save the world?'

The pin was again inserted.

'Jesus Christ?' in a louder tone than before, again rising to his feet.

'That is correct, but do not manifest so much feeling; do a little more reserved in your manners,' said the teacher in an expostulating tone of voice.

After Joe had calmed down, the examination went on.

'What will be the final doom of wicked men?' was the subject now up for consideration, and as the pin was again stuck in, Joe thundered out with a still higher elevation of his body—

'Hell and damnation!'

'My young friend, you the true answers to all the questions, but while you are here we wish you to be a little more mild in your words. Now do, if you can, restrain your enthusiasm, and give a less extended scope to your feelings.'

THANKSGIVING DAY.—The President has issued his proclamation for a day of thanksgiving—fixing for that event the 25th day of November, which, of course, falls on Thursday. It has been usual for the Governors of the several States to adopt the Thanksgiving Day named by the President, and as none of them have as yet, to our knowledge, designated any time for that occurrence, they will all probably fall in with the President, and give force and effect to his manifesto, by recommending the 25th of November as a day of general observance.

'Dar' er,' said a sable orator, 'two roads through this world; De one am a broad and narrow road, dat leads to Pre-ation; and de udder am a narrow and broad road, dat leads to sure destruction.'

'If dat am de case,' said a sable hearer, 'this colored individual takes to de woods.'

TO THE UNFORTUNATE!

NEW REMEDIES! NEW REMEDIES!

DR. GIBBON'S DISPENSARY. 623, Kearney St., Corner Commercial street, San Francisco.

Established in 1854 for the treatment of venereal and venereal diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, venereal venereal, impotency, etc. Skin diseases, of years standing, and ulcerated legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals in Europe, and has resumed practice at the Dispensary, 623 Kearney street, corner of Commercial, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

HORRIBLE DISEASES! How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgence, or from virus introduced into the system. Look at their pallid, emaciated and disfigured faces and their broken down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians and friends attend to those who are suffering with any of these horrible, life-destroying maladies—see that they are cared for and cured before it is too late. Send them immediately to Dr. Gibbon, a physician who has made private diseases his special study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those afflicted, or those interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans.

SEMINAL WEAKNESS. Seminal emission—the consequence of self abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing with increasing certainty, the following morbid symptoms, unless counteracted by scientific medical measures, viz Salivaceous, dark spots under the eyes, pains in the head, ringing in the ears, noise like rustling of leaves or rattling of chariots unsteady about the limbs, weakness of the limbs, confused vision, blunted intellect, loss of confidence in approaching strangers, a dislike to learn new acquaintances, a disposition to shun society, loss of memory, pimples and various eruptions about the face, hectic sweats, furred tongue, fetid breath, night sweats, monomania and frequently insanity. If relief be not obtained, should apply immediately either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails in effecting a quick and radical cure.

CURED AT HOME. Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and cost, to any part of the country, with full and plain directions for use. Persons writing to the Doctor will please state the name of the paper they see this advertisement in.

By inclosing Ten Dollars coin, in registered letter through the Postoffice, or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union.

All communications strictly confidential. Address DR. J. F. GIBBON, 623 Kearney street, San Francisco. Postoffice Box 1-957. n 11y1

Ayer's Cathartic Pills.

For the relief and cure of all derangements of the stomach, liver, and bowels, and a mild aperient and excellent purgative. Being purely vegetable, they contain no mercury or any other mineral whatever. Much serious sickness and suffering is prevented by their timely use, and every family should have them on hand for the protection and relief, when required. Long experience has proved them to be the safest, sweetest, and best of all the Pills with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by Ayer's Pills, and stimulated into action. Thus morbid disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar-coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are not, and operate without disturbance to the constitution or diet or occupation.

Full directions are given on the wrapper to each box, how to use them as Family Pills, and the following complaints, which these Pills rapidly cure:—

For Dyspepsia or Indigestion, Loss of Appetite, and Loss of Sleep, they should be taken to stimulate the stomach, and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Biliousness, Headache, Sick Headache, Jaundice, or Gravel, Nephritis, Bilious Colic and Bilious Stools, they should be judiciously taken, for each case, to correct the diseased action, or remove the obstructions which cause it.

For Constipation or Derangement, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Malformation of the Heart, Pain in the Side, Back, and Limbs, they should be judiciously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For Dropsy and Dropsical Swellings, they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression, a large dose should be taken as it produces the desired effect by sympathy.

As a Diaper Pill, take one or two Pills to promote digestion, and relieve the stomach. An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it often admirably cures those who are suffering from indigestion. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Ayer's Hair Vigor

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. It soon restores faded or gray hair to its original color, with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will present the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.
