

WEEKLY CORVALLIS GAZETTE.
Corvallis, Jan. 24, 1879.

Rain! Rain! Mud?
Crops never fail in Oregon.
Grass! Wheat! Wheat!
Revival meeting at the Evangelical church in progress.

Prayer and praise meeting at the M. E. church next Sabbath evening.
Alfalfa, clover, and lawn-grass seeds from Dickinson's, at Ray's.
The river is again rising, to the delight of steamboatmen and shippers.
A large variety of garden seeds, Oregon and California, at Ray's.

C. H. Whitney, Esq., is still confined to his room by a sprained ankle.
The Corvallis Hook & Ladder Company No. 1, will give a firemen's ball on the 21st of February. Ad. next week.

If you have any desire to smoke a fine cigar, that for strength and fragrance is unsurpassed, go to E. Rosenthal's.

"Moses has been found." So we learn from a very handsome card presented us by L. G. Kline & Co., of this city.
Rev. G. W. Bennett will preach at the Mountain View school house next Sabbath, Jan. 26, at 11 A. M.

The whooping cough has been very prevalent in this city for a few weeks. Several small children have died from its effects.

The best stock of gent's furnishing goods, stationery, tobacco and candy, at E. Rosenthal's—the cheapest place in town.

The river is now at good boating stage—and steamboatmen are improving each "shining hour."

A new era in ditching has dawned. See notice of Orlando Taylor, in another column. Now is the time to reclaim your wet land.

Preaching at the College chapel on next Sabbath at 11 A. M., and 7 P. M., by Rev. Jos. Emery. Public cordially invited to attend.

The damage to the *Champion*, last week, at Half-Moon Bay, below this city, was not very serious. After lightning and repairs, she proceeded down the river.

Walter Moss, of Salem, was in our city, last week, looking after the *Messery* interests. He promised us a call—but guess he was too busy.

We make no charge for religious notices, births, marriages, and deaths. Such notices should be handed in before 9 o'clock A. M. on Thursday, to secure insertion.
Messrs. Pygall & Irwin have first-class teams and wagons, careful drivers, and are prepared to do all kinds of freighting between Corvallis and Albany, or elsewhere. Give them a call. Terms reasonable.

A new stock of clocks, just received, at W. C. Crawford's. Any one wishing to purchase will do well to call. Prices very low.

Ladies who have nice dresses, and wish them made in the best manner, should go to Mrs. J. A. Miller, Third, between Washington and Adams streets, Corvallis.

A very interesting letter from the pen of Capt. J. J. Winant, of Alameda, Cal., was received too late for this issue. Will appear next week.

Said a patron, last week, "why don't you publish the death of children in the *Gazette*?" We publish all such notices, free, if handed in—but do not like to "guess" at such things.

Now is the time to renew your subscription to *GAZETTE*, and send an extra copy to a friend East. It saves writing letters, and is more satisfactory.

The appointment for services at the M. E. church next Sabbath, at 11 A. M., is recalled, in consequence of the continued illness of Prof. Royal, who was expected to fill the appointment, at that hour.

Just as we go to press, we are informed that Mrs. C. J. Manning, who lives opposite the College, in a newly destitute circumstance, Relief should be tendered immediately. Who will look after the matter?

Last Wednesday, Mrs. Madeline Griggs, of this city, (relict of the late Dr. J. C. Griggs), buried her babe. It died of whooping cough, and her other children are suffering from the same disease.

Mr. Wm. Grant, of the firm of Drake & Grant, merchant tailors, started for the Bay, last Tuesday for the purpose of improving his ranch and building a house in the place of the one destroyed by fire last summer.

Quite a large number of claims have been located in the Yaquina Bay and Alsea country during the last fall, and even during the winter. That country is looking up very rapidly.

Gilbert McFadden, of this city, has purchased the improvements on the Dr. Right Yaquina ranch. "Gib," says it is a good place to "raise children." Strong inducement for a newly married man.

List of supervisors, and several communications, unavoidably crowded out, this week. Notwithstanding we are printing all the *GAZETTE* at home, yet we are still crowded for room. Perhaps this fact accounts for the rapid increase in our subscription list.

Little Ned Simmons was very sick last Wednesday night—needed a doctor. Guess he will not drink from a "bottle" form the delirium of a saloon at the "last," and even at the "first," it "biteth like a serpent and stingeth like an adder."

Vick's Floral Guide for January, 1879, is upon our table. It is grand. The best thing of its kind, ever published in our country. It contains his usual liberal offers to editors, or rather editor's wives. As a florist and seedsman, James Vick, Rochester, N. Y., has no equals.

We are indebted to Miller & Richards, San Francisco, and to Hon. F. A. Cheney, of the Phoenix Insurance, for handsome calendars—but the noblest of all, is from Himes the Printer, Portland. With such helps the *GAZETTE* will certainly be on time during the coming year. Only \$2 50 a year—and everybody wants it.

Mrs. E. A. Knight, milliner of this city has opened her new stock of goods, the various articles of which we cannot now stop to specify; but if you want to see something fancy, just step in.

The Chinese had a good-time last Monday and Tuesday, and seemed to enjoy their New Year's holiday. They are unusually quiet in Corvallis, however, and are not much given to fire-crackers and hideous "music"—for all of which we are duly thankful.

Mrs. Ira A. Miller wishes to inform the ladies of Corvallis and vicinity, that she is doing dressmaking in all the latest styles and in the very best manner. She can be found at her residence, east side Third, between Washington and Adams streets. Give her a call, and see for yourself.

PENITENTIARY FOR LIFE.—Joseph Sward, the youngest of the O'Shea robbers, and murders of Young Joseph, of Portland, has been sentenced to the penitentiary for life—and entered upon the service of the State. He is a mere boy, but was equally criminal, and only his extreme youth saved his neck. It is a sad warning to boys to beware of bad company.

POLICE JUDGE.—L. B. Stearns, Esq., has been appointed Police Judge of Portland. He is a thorough gentleman, fully competent to fill the position with credit to himself and profit to the public.

PROF. PLUMMER.
Few men are more widely or more favorably known, throughout this State and the adjoining Territories, than Prof. C. B. Plummer. For many years he has made education a life-study, and until the failure of his voice, by disease, had few equals as an orator. Having partially recovered the use of his voice, he gives occasional entertainments. On last Saturday evening he gave one of his popular parlor entertainments at the City Hall, to an appreciative and delighted audience. His renderings of some of the pieces were faultless, and called forth rapturous applause. We regret that there were so many vacant seats. Many of our citizens missed a rare treat. Prof. Plummer is not only an excellent orator, but, in addition, an eminent degree, all those high, moral and social qualities of the perfect gentleman. In addition to his popular, pleasing and instructive entertainments, he is doing a noble work by his visits to the various institutions of learning throughout our State. During his late sojourn in this city, he paid a visit to the State Agricultural College, and, by request, read a few pieces, in his usual happy style, and gave some useful hints on education.

The next time you come to Corvallis, Professor, send a postal card ahead, so that we may give notice through the *GAZETTE*, of your appearance, as many of your friends, out in the country, regret that they failed to see you, when here. Look a "feele out" next time.

GOOD TEMPLAR BENEFIT.—It has been a good many years since the citizens of Corvallis have given the good Templar Lodge a benefit. Many persons whose family duties, business relations, and other good and sufficient reasons, prevent them from connection with the Lodge have the "Good of the Order" at heart, and are kindly disposed toward the organization. For over eighteen years the banner of Excelsior Lodge No. 9, has been proudly floating in this city. The numbers who have taken the vows of Fidelity at our altar are almost legion. Many of them are true to those vows—some, alas! are not. But that the organization has accomplished great good, no one who is acquainted with its history, will dare deny. Many, to-day, are better, purer, nobler men and women for having taken those vows. But our work is still in its infancy, and the Lodge has scarcely entered upon its grand mission. But to carry forward any good work requires self-sacrifice, time, labor and means. We need a new organ, new lamps, and some other improvements in our Lodge room, and we desire the citizens of Corvallis and vicinity—who feel interested in the great temperance reform, and who cannot make it convenient to do their part in Lodge work, to give us a "lift," financially. A small amount from each friend of the cause would not be missed by them, but, in the aggregate, would help us wonderfully. A committee of arrangements are now preparing an entertainment, to be given at the City Hall on the 14th of February, to which the public will be cordially invited. From the manner in which the matter is taken hold of by the committee, we are satisfied it will be a success. Get your 50 cents ready.

PROSPERITY LODGE.—Excelsior Lodge No. 9, I. O. G. T., which has the honor of being the oldest Lodge in the State, is now in a very prosperous condition, and new members are fast coming in. On last Friday evening there were seven propositions; and will be several more this evening. The literary exercises are becoming quite interesting and form an attractive feature of the Lodge room. On last Friday evening T. E. Gauthier, W. M. C. T. read one of John B. Gough's thrilling lectures, which was well received. We have quite a number of young ladies and gentlemen well qualified to entertain the Lodge, while it offers them fine opportunity for improving themselves in rhetorical exercises. Let every member be on hand promptly at 7 o'clock, this evening. A large number of initiations, and a grand good time is expected. Sociability and good humor are the leading characteristics of a Good Templar Lodge—and especially so in Excelsior No. 9.

CORVALLIS AND ALBANY.
Another change has been made in the stage line between this city and Albany, Mr. C. Douglas retiring from its proprietorship. Messrs. O. V. Motley and George E. Bentley, are the new proprietors. They are both well known in this country; are reliable and honorable, and mean business. We bespeak for them a generous public patronage. Mr. Douglas returns thanks to the traveling public for liberal patronage, and takes pleasure in recommending his successors.

In speaking of the change, the Albany *Democrat* of the 17th inst., says:
O. V. Motley and George Bentley, of this city, have bought the stage line running between Albany and Corvallis, and took possession of it last Monday. This line has been owned for some time by Chester Douglas, of Corvallis, and probably pays better than any other in the State in proportion to its length and the amount of money invested in stages, stock, etc., required to run it. We hope the new firm of Motley & Bentley will make a good thing out of it; they are perfect gentlemen, and deserve a large patronage.

THAT BENEFIT.—Last week we omitted to mention the fact that the entertainment for the benefit of the Evangelical Church, in this city, on the evening of the 9th inst., at the City Hall, consisting of recitations, pantomimes, vocal and instrumental music, etc., was a complete success, financially and otherwise. The hall was filled by an appreciative audience, the programme was excellent, and everything passed off most happily. The net proceeds were handsome.

NEW FIRE ENGINE.—The new hand engine "Young America," from Bittion & Watson, New York, arrived on the steam-er Ohio on her wharf last Sunday. On Tuesday it was taken to the shop of Spiedel & Tracy, and set up, and on Wednesday morning was tested by Young America Engine Company, under the supervision of Chief Engineer, T. J. Buford. It was a very disagreeable time for trial—the men being asleep in places—but the hosemen did their work nobly, and the men at the *brakes* worked as though they meant business. The trial was considered very satisfactory, under all the circumstances. She threw a fine stream 173 feet. It is a handsome engine. More particulars next week.

GRAVE ROBBERING.
It seems that grave robbing is not confined alone to the Eastern States. The Albany *Democrat* has the following:
Last week a young German, a stranger in these parts, died, and some of his countrymen thinking that probably the grave robbers would get the body, agreed to watch the grave at night for a while. The first night their vigil was not rewarded by seeing any one, but on the second night at about 11 o'clock, a light black containing two men, drove up and stopped at the fence at the southwest corner of the cemetery, near where the body was buried. One man got out, looked at the grave and then went over to the Indian camp near by, probably for the purpose of getting some of the bucks to assist in digging. The Indians had evidently seen the parties who were on the watch, and told the man of it, for he almost instantly returned to the back on a run, and jumping in, put the "body" to his horses and drove away in a hurry. A few days afterward a young lady was buried, and her friends have also taken it upon themselves to watch her grave until the danger of the removal of the body is over. We cannot find words strong enough to express our disapprobation of this horrid work of body-snatching, and do hope that those scoundrels who have been making it their occupation will be brought to justice.

BANK IN CORVALLIS.—It is now a fixed fact that we are to have a Bank in Corvallis, immediately. For a number of weeks past there have been numerous vague rumors relative to the establishment of an institution of this kind, but we could learn nothing definite or tangible about it. For lack of a bank, business has suffered materially, and business men have been seriously inconvenienced, not being able to procure a check, for any amount, nearer than Albany or Salem. Mr. W. B. Hamilton, of our city, feeling this need, has concluded to establish a bank for deposit and exchange. His safe, one of the latest improved, fire and burglar proof, weighing 5,000 lbs., came up to Portland on the last steamer from San Francisco, and is expected at Corvallis to-day. This is a move in the right direction, and indicates a commendable business enterprise. We trust Mr. Hamilton will meet, as he deserves, the hearty co-operation of all our business men.

THE NEW HOTEL.—On last Wednesday Messrs. Alphin & Lord finished the removal of the large two-story building on the corner of Second and Madison streets, 25 feet to the rear, to give room for the new hotel building, to be immediately erected by Young & Polly. This week the contract for the new building, 26 by 50 feet, 3 stories high, to be completed by the 25th of May, has been awarded to W. M. Pittman & Co. Contract price, \$3,495. Several propositions have been made to Dr. J. R. Bayley, lately, for the purchase of the lot on the opposite corner. A three-story brick, on that corner, would be a most valuable property. Only a few hundred dollars in price prevents the improvement of these and other lots in Corvallis. Transfers of real estate will be more lively as the certainty of railroad communication increases. Corvallis is on the eve of unprecedented prosperity.

WESTSIDE R. R.—Since it is now a fixed fact—no more nonsense—that the westside railroad will be completed to Corvallis, next summer, locating parties being already in the field, working this way, it is well for our citizens to profit by the experience of Albany and Salem in the matter of the location of the R. R. depot. The depot should be as near the business part of the city as possible—and not out in the foot-hills. "A word to the wise is sufficient." Right at the start, this matter should be amicably arranged with the R. R. Company, even though it should cost a few thousand dollars. No "hog in the manger policy" should be entertained in Corvallis. Let our business men and capitalists come to the front, at once, and work for the greatest good to the greatest number.

FURTHER PARTICULARS.—Our Monroe correspondent, under date of 12th inst., says: "You ask particulars of suicide. There is no reason given, and no inquest was held. Mrs. Benton appeared to be down east, yet attended to her work. On the morning of her death, she did all the work down stairs, and then went up stairs and made the bed. The children had a swing on one end of the collar-beams, and it is supposed she saw this, and at once, on the impulse of the moment, hung herself. Her knees must have almost touched the floor. Her daughter, only seven years old, cut her down. That is all we know of the sad affair." Mrs. Edwards, wife of the County Commissioner, who broke her arm, some time ago, is doing very well, and hopes soon to recover full use of the disabled member.

THE CONTRAST.—A correspondent writing from Yaquina Bay, under date of 12th inst., says: While the Columbia has been frozen, the little steam launch, Eureka, has made regular trips from Newport to Pioneer—without any difficulty. The ice has never entirely closed the river between Elk and Pioneer, 24 miles from the bay. And this has been the case with every "cold snap" since 1854. While the Columbia has been frozen for weeks at a time, people on the Yaquina have passed from point to point without any inconvenience. B.

NARROW GAGES.—A narrow gauge railroad meeting was held at Crawfordville last Saturday, and the sum of \$300 subscribed. There will be a meeting of the citizens of Liberty at the same place, on Saturday in the interest of the narrow gauge. We understand that Col. Hogg has made the proposition to the Brownsville folks to build a narrow gauge line, to run across the valley and connect with the Yaquina road, and will grade and tie the road bed, he will furnish the iron and rolling stock. When last heard from the people at Brownsville and that vicinity had raised about \$10,000 for the railroad fund. The narrow gauge railroad subscription paper was started at Salem a few days ago. The Kinneya headed the paper with \$4,000. The other citizens will not much more than double that amount.—Albany *Democrat*, 17th inst.

IN LOCK.—Clarence E. Stants, on the 18th inst., killed a very large coyote on the farm of J. W. Allen, Kings valley, for which he received a bounty of \$50.50. Pretty good day's work—that hunt.

THE O. & C. Stage Company have placed a half-day line of stages on their route between Roseburg and Canyonville. With this addition they can carry all the mail passing over the route.

WESTSIDE RAILROAD.
The editor of the Junction City *Republican*, notwithstanding occasional bitter personalities, gets off some pretty good things, in a style peculiar to himself. In speaking of the extension of the westside road to Junction City, he says:
The building of the Westside road to Corvallis, must needs necessitate its construction on to Junction City to tap the O. & C. R. R. If the local business of the country will warrant the building of this road to Corvallis the local business of south Benton and Lane counties, together with the natural advantages of connection, will warrant its construction to Junction City. The extension to Junction City is only a question of pecuniary benefit to the company. Some-how or other many people do not tumble to the racket the Yaquina Bay road will make in this upper valley, when fully equipped and put in operation.

Interested parties at Portland have jeered so long at the plausibility of the undertaking, that many moon-struck cusses think the sun rises and sets in Portland—that no other outlet to tide water is possible but by way of Portland.

We'll bet a pint of Bascom's best that the westside road comes to the "forks" and we'll go a nip on top of that, that the Metropolis of Oregon follows the road! We'll be "the only party in the State," then—bah! won't we soar high as a June bug on a May morning? When this Yaquina road has absorbed the traffic of the Willamette valley and its accumulative industries have beaten this outlet to the sea into a broad highway of commercial exit, the "Phat Boy" will then be peddling peanuts on the westside and Portland on Willamette will be a way station from Walla Walla to Newport.

W. N. CASTLE'S AFFAIRS.
Referring to the defalcation of W. N. Castle, who suicided at the jail door in Astoria, a San Francisco paper says: "Castle has been a resident of San Jose for the past ten years, and has hitherto borne a good reputation, being thrifty and temperate." He has been twice elected to the office of city clerk and assessor. Castle's bonds as assessor show that he is delinquent to the payment of \$1,937, collected by him on personal property tax. He was convicted and his estate were given, the stubs of which are in Lot's possession. It appears that Castle was behind hand \$800 a year ago, but as he paid it up before the treasurer made his annual statement, nothing was said of it. Treasurer Lotz discovered the deficiency early in November and told Castle that he must make up the amount at once, which he promised from time to time to do, but failed.

PRAYER MEETING.—The prayer and praise meeting, at the M. E. church, in this city, last Sabbath evening week, was well attended and very interesting. Revs. J. W. York, J. A. Hanna and Joseph Emery assisted the pastor, Rev. G. W. Bennett, in conducting the same. By almost unanimous vote of the congregation, it was decided to hold a similar meeting in two weeks from that time, next Sabbath evening, at the same place. Please bring your Gospel Hymns with you.

JUSTLY PUNISHED.—One Amos Harvey, well known to the police of this city, and who has given them no little trouble by his consorting with the Indians hereabouts, and furnishing them liquor, has lately been convicted, before Judge Dudley's Court for the third time. The *Dee* of the 16th inst., in speaking of his case, says: Amos C. Harvey, tried in the U. S. District court for selling liquor to Indians, was convicted and sentenced to the penitentiary for one year. It was Harvey's third offense, which accounts for the severity of the punishment.

BOYS ARRESTED.—Six small boys who have attained a very mischievous age, were arrested to-day charged with larceny, and taken before Justice Davis. It seems they broke into an old house on Gough Hollow, at the west end of town, belonging to one Franklin, and appropriated a few things, such as an old pistol and other articles found on the premises. The boys were apprehended while attending school, and will be examined to-morrow. As to the names of the culprits, we omit to mention them, out of consideration for their parents who are respectable people.—Portland *Dee*.

FAIR WARNING.—The custom house officials of Portland have been making a tour of the city cautioning cigar dealers against keeping or giving away empty cigar boxes from which the revenue stamp has not been removed.

Triumph of Science.
Chemistry never achieved a more decided triumph than in the production of SOZO-DONT, which is a botanical preparation of wondrous efficiency in preserving and neutralizing the teeth, rescuing them from decay, and rendering them as white as alabaster. It is a toilet luxury of which all should avail themselves. The unpleasant odor commencing to emanate from the teeth, and which is entirely obviated by this fragrant and salutary antiseptic of which one bottle lasts a long time. Druggists and perfumers sell it.

Consumption Cured.
An old physician retired from active practice, having had placed in his hands all the ailments which have a formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma, and all Throat and Lung troubles, and the concomitant disorders. Such a remedy the necessities of the people in malarious districts demand. Its great superiority over any other medicine, yet discovered for the cure of Intermittents, is that it contains no quinine or mineral, and those who take it are free from danger of quinine or any injurious effects, and are as healthy after using it as before. It has been extensively employed during the last thirty years in the treatment of these distressing disorders, and also in curing the most obstinate cases of the disease. It is a safe, reliable, and infallible. It can, therefore, be safely recommended as a sure remedy and specific for the Fever and Ague of the West, and the Chills and Fever of the South. It counteracts the miasmatic poison in the blood, and frees the system from its influence, so that fever and ague, shakes or chills, once broken up by it, do not return until the disease is again contracted.

The great variety of disorders which arise from the irritation of this poison, such as Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Spasmodic Affections, Hysterics, Pain in the Bowels, Colic, Paralysis, and derangement of the Stomach, all of which become intermittent or periodical, have no speedier remedy than AYER'S AGUE CURE, which cures them all alike, and protects the system from future attacks. As a preventive, it is of immense service in those communities where Fever and Ague prevails, as it stays the development of the disease in its first approach, and the preliminary symptoms. Travelers and temporary residents are thus enabled to defy these disorders, and will ever suffer if they avail themselves of the protection this remedy affords.

For Liver Complaints, arising from torpidity, it is an excellent remedy; it stimulates the organs to healthy activity, and produces many remarkable cures where other medicines fail.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.
SOLD BY ALL DRUGGISTS EVERYWHERE.

Don't Forget It.
If you are troubled with nervousness or disheartened tired of life, fear death or feel out of sorts as the saying is, you may safely conclude that you have the Dyspepsia or Liver Complaint. The liver is very apt to become torpid this season of the year as poisons arising from stagnant water or decaying vegetation are more numerous and are through inhalation taken into the blood. Unless the liver is strong and active and furnishes a supply of fresh and pure blood to drive out the impurities, the above mentioned symptoms surely follow, and if not heeded, end in more terrible diseases and death. White's Liver Flower proves itself the Great Liver Panacea. Its action on the liver is different from any medicine ever compounded. Its cures are truly wonderful. Try it. Price twenty-five cents and seventy-five cents.

Liver is King.
The Liver is the imperial organ of the whole human system, as it controls the life, health and happiness of man. When it is diseased in its proper action, all kinds of ailments are the natural result. The digestion of food, the movements of the heart and blood, the action of the brain and nervous system, are all immediately connected with the workings of the Liver. It has been successfully proved that Green's August Flower is unequalled in curing all persons afflicted with Dyspepsia or Liver Complaint, and all the nervous symptoms that result from an unhealthy condition of the Liver and Stomach. Sample bottles to try, 10 cents. Positively sold in all towns on the Western Continent. Three losses will prove that it is just what you want.

Quinine and Arsenic
form the basis of many of the Ague remedies in the market, and are the last resort of physicians and people who know no better medicine to cure for this distressing complaint. The effects of either of these drugs are destructive to the system, producing headache, intestinal disorders, vertigo, dizziness, ringing of the ears, and depression of the constitutional health. AYER'S AGUE CURE is a vegetable discovery, containing neither quinine, arsenic, nor any deleterious ingredient, and is an infallible and rapid cure for every form of Fever and Ague. Its effects are permanent and certain, and no injury can result from its use. Besides being a positive cure for Fever and Ague in all its forms, it is also a superior remedy for Liver Complaints. It is an excellent tonic and preventive, as well as cure, of all complaints peculiar to malarious, marshy and miasmatic districts. It acts directly on the Liver and biliary apparatus, thus stimulating the system to a vigorous, healthy condition. For sale by all Dealers.
