[Reported for the GAZETTE.] CORVALLIS COLLEGE COMMENCEMENT EX

WEDNESDAY, MAY 28, 1879. At 81 o'clock prayer was offered by 'the Rev. H. P. Dunning. After music by the 2d Brigade Band, came the oration of Marion Reed Elliott, B. S., on "Economy of Public Morals." That economy which results from public morality. To undervalue the importance of a high standard of public morality, is to enshroud our country in a night of deepest darkness through which industrial advancement will shine as a small taper. None but the good can make good laws, none but the just can administer justice. Philosophy is essential to morality. It holds in check the fanaticism that put Socrates to death, and that opposes the investigation of nature at the present day.

Oration, by B. T. Soden, B. S., on "Com munism." Progress is the watchword of today. The progress of a nation is a striking example of evolution. From the primitive state of man to the present, is a long stride upward and we may readily conclude that the human race will continue to advance. Communism bars the onward march of progress-it means the abolition of property.

The good government must give protection not aid, to the individual. Democracy leaves the man free. Doctrines advocating free education by the state are a species of Communism. Must the parent be relieved of the first duty he owes his child? A child is as much entitled to an education as to food and raiment-now if the state assumes the function of parent in one elementary branch, why not in all? Mr. Smith is responsible, as father, for the care of the minds as well as the bodies of his children; but, in the capacity of citizen, he tween this place and Albany. Oration by Dayton Elliott, B. S., on " Philosophy, its conditions and value. Philosophy seeks after truth. It tries to remove difficulties from the paths of others. A preliminary doubt is one of the conditions of investigation. Truth must be pursued, regardless of the direction in which it may lead. Young Solomons discuss the profound principles of philosophy, without knowing anything about them. They thus bring the matter into disrepute. Philosophy is the most powerful weapon of Theology-it convinces. It enables the theologian to expound the Bible :

THE "SOLID SOUTH."

The action and debates of the Democratic congress for the past sixty days have shown the animus of the Southern members to be the same as before the war; and the tone of the Democratic press, throughout this land, from Maine to Oregon, and from the lakes to the gulf, show that the heresy of states rights is again rampant. In speaking of the "solid South," in a debate, in the U. S. Senate, May 10th, Senator Zachariah Chandler, said:

solid in 1857 as it is to-day. It has been solid in 1857 as it is to-day. It has solid ever since, and it was no quarrel with the North that made it solid. It was solid because it was determined to either "rule or ruin" this nation. It tried the "ruin" scheme with arms; and now having failed to ruin this Government with arms, it comes back to ruin it by withholding supplies to back to ruin it by withholding supplies to carry on the government. MODERN SOCIAISM.

It is not generally known that the late John Stuart Mill, perhaps the ablest of modern writers on political and social science, commenced in the year 1869 a book on Socialism which, if it had been completed, would probably have been recognized as the greatest of his works. Manuscript chapters of the incomplete work have recently been brought to light, and are found so nearly customer to the proposed Harbor and Puget in themselves, and so ably to discuss questions now most prominent in the public thought, that a London Review, and cuss questions now most prominent in the public thought, that a London Review, and also The Library Magazine of New York are publishing them. It is the duty of every person who has used Boschee's German Syrup to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider in the duty of all Druggists to recommend in to the poor dying consumptive, at least to try one bottle, as 40,000 dozen bottles were sold last year, and no one case where it fail-ed was reported. Such a medicine as the GERMAN SYRUP cannot be too widely known. Ask your Druggist about it. Sample bottles to try sold at 10 cents. Regular size 75 cts.
