Southern Women. The Richmond, Va., State, in a recent issue, says: "The reported remark of Mr. Jefferson Davis, at a press meeting in Mississippi, that he had never yet seen a "reconstructed Southern woman," has been the cause of a great deal more discussion than its importance "Republican or Cossack." At the same more discussion than its importance entitled it to, or the author had the remotest idea it would call forth when, in a spirit of quiet humor, he gave it utterance. We all know here what the utterance. We all know here what the ex-President of the Confederacy meant, and how very harmless was the expression, properly understood and interpreted in its true spirit. But even construing it as it has been by our enemies at the North, and allowing it the widest latitude from their standpoint, it widest latitude from their standpoint, it er to Akstafa. The women of the South find no difficulty in reconciling their duty to their country new with their devotion to the sound of the structive propaganda. The Vice Governor of Peru telegraphs from Irbit that these fires had occurred in that place, which they freely gave their most pre-cious jewels, and, while all perhaps teach their children to honor the memory of their fathers by upholding the justice of the quarrel in which they engaged and by revering the cause for which they fell, yet they do not consider that in so instructing they wrong the restored Union to which they owe and acknowl-edge duty and allegiance; and surely that woman would scarcely be held a good mother among any people who should impress upon her children that their duty to their country involved the terridity of the country involved the country inv duty to their country involved the terri-ble alternative of cursing the memory of their fathers. PRESIDENT GREVY AT DINNER.-The M. Grevy, says a foreign journal, "had no English order to wear in compliment to the Prince of Wales, who is a grand cordon of the Legion of Honor. The President represented very well the dignity of the French Republic. In the parlance of the Elizabethian period, the Chief of the Executive is a most worshipful person. His manners are quiet and grave, and an undercurrent of good nature and of humoristic perception keeps his pride, which is inordinate but not aggressive, from assuming the form of hauteur. While the Prince and Princess of Wales were treated with the respect due to their rank and representative character, no courtly ceremonial was attempted. Nor was there any display of underbred 'independence,' or the 'we-are-as-good-as-you' sentiment. M. Grevy and his wife went to the vestibule to receive their royal guests and to conduct them to the drawing-room. The Princess of Wales wore a black gauze robe, brightened up here and there with diamonds, and a diamond aigrette in her hair. She would not probably have dressed so much had she not agreed to appear after dinner in the President's box at the opera. Things were timed to enable the Prince to pass, after coffee was handed round, half an hour in the smoking-room. In the drawing-room, the Prince and Princess of Wales were smoking-room. In the drawing-room while the gentlemen were enjoying their cigars and chatting, the ladies fell into cigars and chatting, the ladies fell into groups. They again all took seats. 'I like that,' said an American ex-Secretary of Legation, who has been talking to me about English royalty breaking out in this fresh place. 'La Marechale had a contemptible way of behaving toward princely guests. I was never in all my lite so disgusted as one evening at the Elysee, when that mountain of loose flesh, Queen Isabella, was there. My wife was Elysee, when that mountain of loose flesh, Queen Isabella, was there. My wife was within six weeks of being ill, and was tired. She naturally sat down. The Merechale espied her, and sent an aid-decamp to say that in the presence of a sovereign it was not admissible for any one but a crowned head to be seated."

An Accommodated Passenger. The other day, says the New Haven Register, an Irishman evidently not long a resident of this country, walked up to the ticket office in the Union depot and said

to Alderman States: "Give me a ticket for Easthampton."
"Massachusetts or Connecticut?" asked
the genial dispenser of pasteboards.
"Naythur; I want a ticket to East-

hampton."
"I understand, but there are Eastham."
Massach "I understand, but there are Easthamptons in both this State and Massachusetts," exclaimed Mr. States.

"Bedad, an is that so? Which one does it cost the most to go to?" asked the son of Erin's Isle.

"Massachusetts," answered Mr States.

"Well, then, be the powers, I'll take the The traveler was accommodated with a ticket to Easthampton, Connecticut, and he got aboard the Air Line train apparently quite happy.

A BRIGHT BOY'S HAPPY THOUGHT.—The Hartford correspondent of the Springfield Republican says: "There was a pretty bright thought of one of the Battersons, who, when employed some years since as a lad in an office in New York, was sent to present a bill to a shaky concern, with orders to collect it at all hazzards. After much urging, the head of the debtor house gave him a check for \$100, the amount of the bill. Hurrying to the bank at which it was payable, the lad presented the check only to be told, 'Not enough funds to meet it. 'How much is the account short?' was the boy's quick retort. 'Seven dollars,' said the teller. It retort. 'Seven dollars,' said the teller. It lacked but a minute or two of three o'clock, and the teller was about to close the door on the boy when the latter sud-denly pulled out seven dollars from his own poeket, an pushing it over with a deposit check said: Put that to the credit of — & Co., the parties who had given the check. The teller did so, when the lad at once presented the check for \$100, and drawing the full amount thereof went back to his employers in triumph. But, as he puts it, '—& Co., who failed the very next day, were hopping mad when they found that they had no funds in the bank."

Cavern of the Mound Builders.

A recent dispatch to the *Pioneer-Press* announces the discovery of a remarkable cave on the farm of David Samuels, ten miles from La Crosse. The cave is feet long, 13 feet wide and about 8 f high. Above the quarry-sand, which has evidently drifted in and covered the floor to the depth of three to six feet; upon the walls are very rude carvings representing men, animals, arms and implements, and some appear to be hieroglyphics. One picture represent hieroglyphics. One picture represents men, with bows and arrows, shooting animals, three buffaloes and one rabbit. Another represents three animals which, if large, must have been like the hippopotamus; another appears to represent a mastodon; on another picture a moose is quite plainly delineated.

There are eight representations that are canoes, much carved, or hammocks, which they most resemble. One sketch advance of the train which had just arrived from El Paso encountered a party of runaway negroes at the Limpio Spring on the other side of the Pecos river.

Too Many Works.

[Correspondence Albany Law Journal.] During the year 1878 there were re-corded in the Register's Office, in New York City, about 12,000 deeds including thereunder leases, contracts or other instruments, and about 6000 mortgages. The average cost of recording a deed was \$2 25; of a mortgage \$2 75; so that during one year about \$40,000 were paid to the Register for recording instruments in his office. Paid to what purpose? This project, however, was not assented to. The boy Morgan then threatened to make sure of the first opportunity, and kill Henry unawares. Henry, however, proved to be the more cantions of the two, and availing himself phrases which have come down to us from bygoe times, as Steele says, tautology was the first, the second, the third excellence in a lawyer. "The universal practice is to extend a deed by means of repetitions, tautology and circumlocution. The origin of this abuse is to be traced to the cupidity of conveyancers." PET SPIDERS.—As spiders are for the most part banished from every room where they are niggly to hear music, opportunities are very seldom afforded of witnessing their behavior under its influence, but occasionally people are metwith who do not share the general antipathy to these interesting and ill-used little creatures. A few years ago the writer had a conversation about spiders with the waiter at Messrs. Boffin's well known diding-rooms in Oxford. This man had a pet spider which lived in the sitting-room of his home, and he said that he could always induce it to come out of its hole by beckened to his side the major commanding the escort, "Last night," he said, "while I was asleep, my haversack was stolen. I know what war is, and I accept its fortune, good or bad. That haversack contained several things that I value—one that I prize as I do my life—the portrait of a lady." And then glancing back at the rough cavalrymen, he added sorrowfully, "I suppose there is small chance of getting it again." "I'll see," said the major. The command was marching "by fours." In four lines word was passed from front to rear, each man communicating with the comrade next behind him. Within ten minutes a sergeant rode up to the major and handed him a package. The major took it to the prisoner. "Open this," he said. There was the portrait, uninjured, and with it a bundle of letters, upon which the owner had written a request that it should be destroyed unopened in the event of his death. The seal was unbroken.
