SCHOOL EXHIBITION.

EDITOR GAZETTE:—In our travels through the Yaquina, we had the pleasure of witnessing the closing exercises of the Stanton school.

The morning dawned bright and clear, and the incoming tide brought quite a number from Newport, who, with the Toledo school, with banners flying, flags waving and variously decorated, were kindly met and conducted to the school-house.

With their customary kindness, for which this people are noted, they were welcome and every one soon felt at home. The exercises under the auspices of Miss Sarah Rader, were a success, showing that the children had been under careful training.

We understand that Miss Rader gives universal satisfaction, and the people are desirous of retaining her as a teacher.

Marching through Georgia, and other songs were sung by the Toledo school, assisted by some of the best singers from your own fair city. Speeches were delivered by Prof. Gregg and Francis of Salem, and Mr. Bessell, of Newport, which were listened to with pleasure.

The first named gentleman is known as one of the best educators of the state, and his practical ideas on the need of an education were well received.

Mr. Bessell, in his usual pleasant style, gave a pithy little address that made every one feel good.

The excellent dinner, prepared for the neighborhood, the invited guests and Toledo school, was heartily appreciated, and so plentiful was the repast that even some tramps—for we have tramps even on the Yaquina,—were fed on the fragments.

After some choice singing, rendered by the Glee club, the exercises closed, and the people dispersed, seemingly well pleased with the union picnic.

LOSS OF A VALUABLE HORSE.

Mr. W. C. Myer met with a heavy loss last Monday morning in the death of his fine Percheron horse "Pride of Percho." This was one of the finest Percheron horses in the country, and sold at public auction just after landing from the ocean voyage for \$3,070. He was then untried, and the purchaser would, of course, run some risk in investing the money. Consequently, after proving his worth, his value must have been greatly increased, and he was probably worth to Mr. Myer nearly twice the price mentioned above. Mr. Myer has expended a large amount of money in his endeavors to introduce improved stock in Oregon, and has met with serious losses, which were enough to discourage any man of ordinary persistence and hope; but the most discouraging feature of the matter is the evidence that there is a persistent effort to injure Mr. Myer and his interests, which does not stop at the death of the horse, but extends to the death of the horse's owner.

Doctors Chitwood and Royal were called and made an examination of the body of the horse immediately after death, and both agree in the conclusion that his death was caused from the effects of poison which was administered some time previously in a dose sufficient to cause sure, but not immediate death.

We have before alluded to this continued determination to disparage this stock in Oregon, and the evidence we have heard proves beyond a reasonable doubt that a number of colts from Myer's horses, owned by himself and others, have been stealthily killed for the purpose of creating the impression that the stock is not hardy. Anyone who will take the trouble to look beyond the limits of Oregon, will be satisfied that this is not the case, and that the stock is hardy and valuable.

Ed. GAZETTE: I desire through the columns of your paper to return my thanks to the friends who were so kind and attentive to my late lamented husband during his late, sudden and fatal illness.

Ed. GAZETTE: I desire through the columns of your paper to return my thanks to the friends who were so kind and attentive to my late lamented husband during his late, sudden and fatal illness.

DEED.

Wallace Nash Esq., has been confined to his room for several days past, and is now better, and he hopes to see him on the streets again in a few days.

Just as we were going to press, we regret to learn that Mr. Nash was not so well.

DEED.

Friday morning, Aug. 22, 1879, at their farm near Dallas, Polk county, Oregon, Olive A., oldest daughter of William and Chloe Fliedner.

In this City, August 28th, 1879, of consumption, Nelson Casteel, age 62 years.

In this City, August 24th, 1879, of paralysis of the heart Judson Sherman Palmer.

Mr. Palmer was born in Marietta county, Ohio in April, 1831. In 1854 he came to the Pacific coast, stopping in Salt Lake City until the spring of 1855. He then went to California, where he remained until 1858, when he removed to Oregon, and located in Benton county, where he has ever since resided.

In June, 1868 he was elected Sheriff of Benton county which office he held continuously until June 1876, when he was elected to the Joint Senator for Benton and Polk counties, which office he held at the time of his death.

On the 25th day of August, 1867 he was married to Miss Sylvia Berterfield of this city, and just twelve years afterwards, in the same room where they were married, his confined remains lay awaiting the tomb.

Of his early life we know but little, but for twenty-one years he has been in our midst, and during that time he has made hosts of friends. Mr. Palmer had his faults (who of us have not) but the worst side was always out. He possessed a warm, generous heart, and no case of poverty or distress ever appealed to him in vain. He was a devoted, loving husband, kind and affectionate father, obliging neighbor and steadfast friend. The large funeral procession was evidence of the esteem in which he was held by the community. He was buried with Masonic honors, Rev. Jos. Emery delivering the funeral sermon, and he now sleeps in the beautiful Crystal Lake cemetery.

Among the tenants of the month by allowing the teeth to collect upon the surface in their interstices. SOZODONT removes every vestige of tartar from the teeth, and renders their premature decay impossible. It is not an impalpable powder, but a soft, creamy, and delicate substance, which acquires a most acceptable fragrance from its use; it is a purely botanic liquid, and it may be relied on to accomplish its beautifying effects without injuring the enamel like a gritty tooth paste.
