We are sorry to learn of the sudden death on Sunday morning of W. B. Carter, of Corvallis, State Printer and editor of the Corvallis Gazerre. Mr. Carter was a gentleman of high moral standing in the community, respected and esteemed by all who knew him, and as an enterprising journalist was among the best in the State. He came the sum of excellent ability and of irreprochable character, one whose circle of friends tances. An earnest, unfinching Republican, some of his most devoted friends were of the Democratic faith, and, although a man who always had earnest convictions and one who was always ready to maintain was among the best in the State. He came to Oregon in an early day and has been connected with journalism ever since, part of the time in Portland, and has for several years past been the editor and proprietor of the Corvallis GAZETTE, and the high standing of that paper is an evidence of his ability. RESOLVED, By the republicans assembled in the city of Portion that we pro-RESOLVED. By the republicans of Oregon in convention assembled in the city of Portland, this 21st day of April, A. D., 1880, that we propose to maintain and administer the affairs of government of this state by strict economy and faithful adherance to the constitution and laws thereof and of the United States.

2. That we are in favor of regulating and equalizing the salaries of county and state officers so that they shall receive such compensations as are usually paid to private persons under like circumstances of service and responsibility.

3. That we favor a thorough revision and equalization of our system of taxation, to the end that every species of property within its limits, whether owned or possessed by citizens of this or of foreign states, shall bear its equal proportion of the burdens of the government which protects it.

4. That we propose to maintain and enforce the amendments to the constitution of the United States, with all the powers of the national government, to the end that every citizen, poor or rich, black or white, may be secured in the full enjoyment of, civil and political rights.

5. That the overthrow of the rights of the elections.

amendments to the constitution of the United States, with all the powers of the national government, to the end that every citizen, poor or rich, black or white, may be secured in the full enjoyment of civil and political rights.

5. That the overthrow of the rights of the elective franchise of liberty and life, by which means free government in a portion of the states has been defeated, and the manifested fraud and threatened violence in others, together with attempted nullification of the laws of the general government and decisions of the supreme court thereon, by congressional action in the interests of the democratic party, are attempted revolution and must be met as such. [Applause.]

6. That this is anation formed by the people thereof and not a mere league or compact and that we reaffirm the idea of the unity of the nation the supremacy of the national government in all matters placed by the constitution under its control the preservation intact of all the rights of municipal self-government otherwise guaranteed thereby to the people or to the states respectively. At the same time we arraign the doctrine of state sovereignty as the baleful mother of nullification, secession and anarchy. [Applause.]

7. That the recent action of the democratic party in state convention assembled, in denouncing the supreme court of the United States of America and imputing the most unworthy and unpatriotic motives to that high and honorable court, is unworthy of lawabiding, intelligent and patriotic American citizens, [applause] and directly tends to the loosening of the foundation of our government, the subversion of all law and the overthrow of the sanctity of a system of judicature, venerable with age and perfected by wisdom. [Applause.]

8. That the attempt by the leaders of the democratic party to defraud the people of the state out of an effectoral vote, was an outrage unparalleled in the political history of the state, which together with the Maine infamy and the attempt to unseat members in the halls of congress f

their extravigance, their corruption and their peculations.

10. We deprecate the course of members of the democratic party who have undertaken to rovive sectional animosity for the purpose of securing political ascendancy in the southern states and who have revived memories of sectional strife by the defiant declaration of a purpose to repeal laws made necessary by the war and enacted to secure the results of the war; and we condemn their attempts to secure by legislation what was not accomplished by arms, namely, the establishment under the name of state sovercignty of those pernicious doctrines which destroy national supremacy and which in part have led to secession and civil war. [Applause]

11. That to the republican party is due the credit of successful resumption and restored prosperity and business revival, and we insist that the paper and coin circulation of the country shall at all times be maintained at par with the gold standard of the commercial world. [Applause]

vorld. [Applause]
12. That while we are in favor of a revenue for the 12. That while we are in favor of a revenue for the support of the general government by duties upon imports, sound policy requires such adjustment of import duties as to encourage the development of the industrial interests of the whole country, and we commend that policy of national exchange which secures to the working man liberal wages, to agriculture remuerative prices, to mechanics and manufacturers an adequate reward for their skill, labor and enterprise, and to the nation commercial prosperity and independence.

endence.

13. That we are in favor of judicious appropriation 13. That we are in favor of judicious appropriations by the general government for the improvement of our rivers and scaports, as well as for the construction of such lines of railway communication as will develop the resources of the country and connect our state with other parts of the union, under such restrictions as will amply protect the rights of the people from unjust discrimination and extortionate charges; and that in the grants of lands to railroads we favor the sale of the same by the government to the people at the lowest price for public lands, giving the proceeds only to the corporations.
