I give below the number of schools visited last year after I had submitted my report for the year ending June 30, 1879. The number of the districts only are given as to give all of the items kept during these visits the same, will please say, "advertised." would render this report cumbersome and not add to its value here-for a full report, he wever, of the school work done in this county during the past year, I would respectfully refer you to the Bi-ennial Report of the State Superintendant, a copy of which I will furnish you when published.

The districts are give in the order visited,

as follows: Nos. 13, 45, 8, 22, 17, 19, 15, 23, 49, 20, 27, 24, 43, 4, 1, 3, 18, 50, 52, 25, 37, 12, 36, 42, 41, 29, 38, 35, 33, 39, 55, 32, 14, 6, 31, 26, 27. The average time spent in each of these schools was one-half (1( day. They are located in all parts of the county from No. 1, in the extreme northern part of the county to No. 55 on the Lower

In addition to the above, the following chools have been visited during the present quarter, viz: Nos. 10, 45, 9, 29, 1, 43, 4, 6, 3, 48, 14, 11, 21, 22, 23, 24, 25, 26, 27, 13,

Most of these schools were found in good ondition-several were in excellent condition-not ably so, were Districts, 45, 13, 20, 19, 17, 23, 3, 48 and 27.

SCHOOL HOUSES. The School Directors in several districts are doing a good work in regard to building and repairing school houses during the present term. New houses will be built this vear in districts 12, 37, 3, 48 and 49. Sev. ral will be repaired and several are attending to a long neglected duty and that is they are furnishing their school-grounds with good out-houses. Many of our school officers are earnest men who are interested in education of our youth and who begin to see that little money well expended will add greatly to the health and comfort of the children of their schools. This progress is gratifying. The importance of having comfortable and well ventilated school houses. seems now to be well understood. It is utterly impossible to teach a successful school in poorly warmed and illy ventilated house. Pure air is necessary to the proper application of mind on the part of the pupils-on the other hand, idleness, listlessness, and mischi f as frequently result from impure air as from a bad disposition. Foul air irritates the body and studifies the mind certates the body and stupifies the mind certainly and quickly. A cheap ventilating last Monday. A large number of persons great deal of sickness among children may be directly traced to badly warmed and bally ventilated school houses, and it is so lon .

The June 20th, the attendance was good. The minister did not take his text from the Yaquina railroad, but from the Bible, and preached a good sermon from scripture. That railroad question had nothing to do with preaching, but the citizens of Benton county. I thought every reader of your paper understoo plain English. I see there is one that does not. Hence I explain.
